**Susan Commeford says**

**A good read...**

I'm enjoying this series very much. The books are a little short but the interweaving of the characters is keeping me reading. And of course being as I live in Colorado the setting is fun for me.

**InD'tale Magazine says**

2.5/5.0

"Live or Die" has a promising suspenseful opening and interesting characters, but does not live up to its potential with uneven pacing and story development, and an anti-climactic ending.

**Shelley Chastagner says**

Lots of push and pull between the H/h. Cormac is all alpha and he's used to being in control. Josey is a brilliant woman who isn't going to let anyone dictate her decisions. I loved the verbal banter between these two.
