## **Magical Temptations** Jaliza A. Burwell

Dr. Laila Porter has successfully kept Cyril Shanton alive. Now it's time to learn that when a dragon wants something, they get it, and Shanton wants Laila. The dragon has uncovered an old cave system, and he needs Laila's expertise to get through the dangerous traps safely because he wants what the traps protect.

With time running out, Laila, Davies, Rhett, and Venni have to traipse through the dangerous tunnels with Shanton and his team. While trying to stay alive, Laila learns about her origins, about who she is, and where she came from. She's gone over a million different scenarios of her past, but none of them comes close to the truth. The guys will have to prove to Laila that they're with her, no matter what, and no matter who her ancestors are.

**Susan Toussaint says**

**LOVED**

Sooo I am in ? with Laila and her men sound absolutely delicious!!!! This series is addictive, I basically spent all of my free time today reading and yearn for more, that the book had not ended!! I can't believe book 3 won't be out till next winter though!!!! Wish I had it now!!!!

---

**Anouk says**

**The total picture in one book.**

If you like a strong female character, slowly building love, characters with depth and a lot of action in your book than this book is definitely one for you! I can't wait till the next one comes out and will definitely read more books from Jaliza.

---

**Sherry Keele says**

**It just keeps on getting Better!**

This series really does keep getting better and better. I love the storyline and the dynamic of all the characters. I'm already jonesing for the next book so I can consume it like fat kid in a candy store. Gimme, gimme, Gimme!!!

---

**Airwreckah says**

Again, interesting premise and some good world building, but typos and overused words detracted. Also, as far as romance goes it really only pops up at the conclusion and was just too much. 6 or 7 dudes is just ridiculous and felt shoehorned in.

**Awesome Sequel**

In this sequel, Laila is forced out of her lab and even out of the city on an assignment for Cyril Shanton. With her are Davies, Venni and Rhett. There's more action in this book than the first book and I enjoyed it even more. I like that the men make their intentions clear and Laila agrees to move forward. It won't be easy, but I'm looking forward to seeing how things move along.

The biggest thing that happens is that Laila learns about where she comes from. She doesn't want anything to do with it, though. I have a feeling she won't be able to avoid it for long no matter what she wants.

### **Gina says**

#### **Five stars**

This was just as good as the first book. Seven men wanting to date Laila finally hints at the romance to come. The book was over way too soon. I can't wait to read book 3!

---

### **Michelle says**

#### **Captivating**

I loved this book, I couldn't put it down. The storyline was captivating and enthralling, all these supernaturals and humans daring the impossible. The characters were fantastic and their interactions were interesting to read. Can't wait for more.

### **Tiffany says**

#### **Great series**

Laila is young and just joined the security company a couple months ago. After traipsing through the wilds to recover an artifact, she learns a lot about herself and who she could be. When the men in her life confess to having feelings for her, what will she do? I can't wait for the next book!

#### **So glad I found this**

I was in a slump. I couldn't find anything I wanted to read. I'd seen this series come up on kindle several times but as a kindle unlimited member I wasn't sure about spending the money. I am so glad I did. This hit all my favorite things about paranormal romance. It has a fantastic lead female who is good on her own and only becomes better with her men. I really enjoy this slow burn. It's nice to get to know the characters without an instant relationship or in this case relationships. Yay for this series!!

---

### **Tracy Hoyt says**

#### **Magically Delicious Wow!**

Damn, I'm so sucked into learning more about Laila and the guys, her past, all the connections...the possibilities are endless with this series! I loved how masterfully the author wove this complex story and such layered characters! This world these characters inhabit has so much potential for so many plots and subplots. The chemistry sizzles between Laila and her potential love interests, but they aren't the central focus of the story thus far. Yes, they are the nucleus, but the author artfully weaves a fantastical world around them that you get lost in the story, lose yourself in the pages. I grew and learned along with the characters and though there are no cliffhangers per se, there is still so much to discover, so much more to see with the relationships, as well! I'm not looking forward to waiting to continue this awesome series, but I definitely know it is worth the agonizing wait! ?

#### **Fantastic book thoroughly enjoyed it.**

This book had me hooked from the very first line it was an amazing journey to have been taken on. I'm literally holding my breath until the next one comes out ,2019 couldn't get here any quicker

---

### **Ryer says**

I really love this series! It one of the few that can keep me interested even when romance the isn't thick. Yet there is still a promise of some fun to come! I cant wait for the next installment! I was so into the story that any grammar flaws (which others hinted at? I never saw any) were completely missed. Honestly an error every here and there is perfectly acceptable and expected!Especially in a self published authors book. Love this series so much! So worth a sleepless night!!

---

### **Dblaze says**

Would have been 5 stars but shantons attitude at the end were he told laila "not to be a little b\*\*\*\*\*" and that "the universe doesn't revolve around her" that made me not want to rate the book so high but I enjoyed it. Laila basically saved all his teams lives and gave him the artifact on a silver platter only to have him ungrateful and rude and make her go to the meeting with the connections..... It made me dislike him. Otherwise I enjoyed the book

---

### **Ash says**

#### **Loved it. More Please.**

Paranormal. Rh. 7? Guys. Hellhound. Dragon shifter. 2 humans. Wolf shifter. Tiger shifter. Vampire. Magic\Engery manipulator heroine. Shanton gives BSM security a job of helping find an elemental artifact buried miles underground. Wanting Laila to handle disabling traps and such. Loved it. Want more. This one is a good balance of action and relationships. The boys also make their intentions clear as well. ? Still loving the series.

---

## **Alyrica says**

### **Good Book**

I enjoyed this book. Though I wish there was a bit more detail, I loved the world this novel is set in. What I especially like though are Laila's magical manipulations and discoveries....it is so much fun to read. I like the men but still feel like I don't know enough about them. I felt their friendship but the romantic feelings from all but a couple felt like they came out of left field. I suspect some of that is due to the number of romantic interests and not having their POV. All in all this was a great read. I am looking forward to more in the series.
