¿Los uniría aquel embarazo?

¿Solo una noche? Sí, seguro. Pippa Laingley debería haber sabido que no sería así. Cuando una noche de pasión con Cameron Hollingsworth desembocó en un embarazo no planeado, Pippa se encontró en un atolladero. Sabía que el enigmático empresario había construido una fortaleza alrededor de su corazón. Había perdido a su familia en un trágico accidente y ahora Cam temía abrirse de nuevo.

Cam sabía que iba a sufrir si dejaba que Pippa entrase en su vida y también si la apartaba de su lado ofreciéndole simple apoyo económico. En cualquier caso, estaba condenado... a menos que se permitiera amar otra vez.

This is the forth and last installment in the Pregnancy & Passion series.

The story of Cameron and Pippa is a very intense and emotional read.

Cameron has known the worst possible pain. He had lost his wife and son. He swore never to put himself through this pain again. Now he is Mr. I- dont-do-commitment, I-dont- do- love sort of guy.

But when a one- night stand with gorgeous Pippa results in a pregnancy, Cam is living the nightmare all over again. Pippa refuses his offer of marriage. She wants a husband who loves her and she won't settle for less than that.

It's not easy to fall in love with a man who swore he had no love to give. Cam seems so determined to keep Pippa at arm's length and yet he exhibits caring at every turn.

Pippa is a strong heroine with take-no-prisoners attitude to life. She has courage, she knows her own worth and isn't afraid to confront Cam with her love to know, once and for all, where she and her son stand.

Cam needs to look past his horrific past to realize he is being given a second chance to happiness. Will he grasp it with both hands or will he let it slip from his fingers ?

This is the last in Banks' "pregnancy and passion" series about four friends and business partners who each accidentally knock someone up. (You have to wonder what brand of condoms they're using.) The last man standing is Cam, aka Mr. Reclusive. Cam has been eyeing Pippa (a friend of his friend's wife) for some time, and when he makes his move, he's brutally honest about the rules:

"I don't do commitment. I need you to understand that if we go to bed together, this is a one-night stand. I

won't call you in a few days. I won't call you, period. I'll expect you to leave in the morning. I'll provide a car for your transport back into the city."

Honestly, I think I would have preferred it if Pippa told him to take a hike; hooray for being an independent and sexually assertive woman, but that's just cold. However, Pippa goes for it and they have a wild night.

But when Cam discovers a broken condom (and is somehow shocked. Hasn't he been paying attention to his friend's lives?) he dramatically changes his tune:

"I don't want anything to happen to you. Move in with me. If you won't marry me so my child has my name, then at least move in with me so you're both provided for.'

She wondered if he even knew that he was nearly pleading with her. As vehement as he was that he could never give her what she wanted or needed from a relationship, he seemed just as determined to tie her to him."

As you might guess, there's a tragedy in Cam's past that's influencing him, making him determined to take the utmost care of Pippa and the baby while still keeping them at arms length.

I didn't like this quite as much as the others in the series. It's fairy-tale-ish in a way that doesn't entirely work for me: for example, Cam provides Pippa with everything she needs to start her own business, down to the decorated storefront. I find it hard to believe she wouldn't miss the fun of choosing things herself. I also thought that Pippa is rather callous about Cam's irrational but understandable feelings, attacking him instead of giving him time to work through them.

Still, Banks again does a great job of mixing the classic elements of category romance with more realistic characters and situations, so you have all the emotional punch without that little voice in your head that says "these people are idiots, nobody really acts this way!" I really enjoyed this series.

This series has been pretty good and I have been waiting for Cam's story since we know the least about him and in the last book he helped screw Devon's head straight when it came to Ashley, sadly this book has to be my least favorite book in the series.

The theme is failed birth-control. Pippa is Ashley's friend and she is in the process of establishing her own store-front cafe and catering business when she gives in to her attraction with Cam and spends one passion filled night with him, agreeing that it is a one time thing but fate has different plans and their fears come true and she is pregnant. Despite it not being an ideal time, she wants the baby.

Meanwhile Cam who wished with all his heart she won't fall pregnant is terrified, he has already lost a wife and son once(sadly I didn't feel we were given much information about this, how he met his wife, how did they die etc) and doesn't want to go through the pain again and is over-protective, wanting Pippa to move in with him and even suggesting marriage but she refuses and they manage to build a friendship.

However when they go for an ultrasound and find out they are having a son, Cam freaks which angers Pippa and she questions him and out comes his past. Now, I got Pippa's point of view of letting the past go but I

had real problems with her seeming disregard for his pain, she didn't even ask him questions and instead just expected him to get over it.

I respected her in the way she wanted her son to have a different identity but I had a hard time being sympathetic to her when she raked Cam over coals. He had been there for her and she put him through the wringer and when she does confess her love for him and he doesn't respond in kind she walks out and doesn't give him the chance to apologize.

I do enjoy a good grovel but I do wish the Pippa too had apologized for her behaviour. All in all I loved seeing all four friends and their families together in the end but romance wise this story has to be the weakest for me though I would recommend giving this series a try.

This one and the second one were full of the most heartache. The heroine was as strong as the hero, probably more, making the story so much more fun. There was definitely an exchange of many funny words between the two. I especially liked how the heroine was so adamant at the end regarding the hero but so full of love for him that he was able to breakthrough to her. This was another great read by Maya Banks.

#### ***Undone by her Tender Touch***

Cameron Cam Hollingsworth and Pippa Laingley

**4.5/5 Stars**

*Undone by her Tender Touch* is the fourth book of *Pregnancy & Passion* series by Maya Banks. I really like this story, Pippa is my favorite heroine in the series, she is very independent, and she says what's on her mind. Cam and Pippa has so much chemistry, I like the banter with sexual tension. Cam is also very promising, he is a flirt, and also loving and supportive to Pippa. Cam and Pippa had a *one night stand*, then Pippa ended up pregnant. The story goes pre-baby, where in Cam is more than willing to offer support, offering marriage. But Pippa cannot accept a marriage without love. This book is a great way to end the series.

### **Favorite Quotes**

***"You're a moron. You already lost me. The only difference was I didn't die in the fire. But for all practical purposes I'm dead to you. You lost both of us long before this happened. You spend so much time trying to shield yourself from hurt and you don't give a damn who you hurt in the process. How's that working out for you, Cam? Because from where I stand it sucks. Now if you'll excuse me, I want to go home and go to bed."*** -Pippa

***"I can't live without you Pippa. Don't make me live without you and our son. I love you both so damn much. It's eating me alive. I wake up thinking about you. I worry for you all day. I go to bed at night aching to hold you. Being without you is gnawing away at my soul. You are everything to me.***

*Everything."* -Cam

### **Jess says**

I read this book not realizing that it was actually the fourth book in a series, oops. Once a few other characters were mentioned I began to get the feeling that maybe I missed something but it didn't affect my understanding of the story. It actually just made me want to go back and read the others in the series! So while it won't hurt you to read this book as a stand alone, it would probably be beneficial to start the series from the beginning.

Cam is adamant about not having any strings between himself and a woman. So for that reason, he keeps women out of his apartment and makes sure they understand that sex for him is only a one night stand. When he shows up at his best friend's housewarming party, he sees Pippa working her butt off to cater the event. He throws aside her annoyance and offers up his services for the night. And not just with helping to distribute food. They go back to his place and both understand it's going to be a one night stand only. Pippa is happy and luxuriating in her great sex from the previous night when she receives a phone call from Cam telling her that the condom broke. Uh oh. Now they both know they have to deal with each other and while Pippa is okay with that, Cam has to fight back his demons to decide if he wants to wallow in his past or move on and have a great future.

I was back and forth with my feelings about both Cam and Pippa. While I liked them together at times I began to get a little annoyed with the pushing and pulling between them. It wasn't just Cam either. Even though Pippa repeatedly stated her feelings for Cam, she also remained undecided whether she wanted his help or didn't. I also wasn't a big fan of how she treated Cam regarding his past. Yes he was wallowing to a certain extent, and yes he was being kind of an idiot towards her but after hearing for the first time why he was so upset Pippa reacted in a mean way. She basically yelled at him and told him to man up. I wasn't so comfortable with that reaction. She then went on to explain to her friends that she understands why he's so upset but that it's hurting her feelings. Seriously?

I'm glad things ended the way they did, but for such a short book a lot of things happened to these characters! Banks sure knows how to torture them! I'm still deciding if I will go back and read the other books, I'm not sure if I want to get involved with the tug of war that will surely happen!

Thank you to the author, netgalley and Harlequin for the chance to read this book!

As the last book in the series, I felt I needed to read it to get closure for all of the couples. But I will state up front that I really dislike the dead ex storyline and would normally not read this book. Especially when that ex was loved and is mourned.

Despite his tragic past, Cam to wallowing to a "whole 'nutha level". I wanted to feel empathy for him. But he made it so damn hard by being so cruel and self centered. The author did no favors by not really disclosing his past or thoughts. He never really told the story to anyone during the book. However, I give him props for being up front with Pippa. He made no promises and did not deviate from what he said. So I do not hold all

of the angst and heartache against him. Now his actions did not always match his words, but Pippa knew what she was getting into. He was a whiny asshole for the entire book, with the excuse that he told her up front he did not want her. So why she kept expecting a different result...the definition of insanity right?

I just did not like this book. I did not really like the heroine and definately did not like Cam. And I cannot imagine why she took him back after a few days with a flowery speech after all of the months of being dicked around and the HORRIBLE things he said to her. Just did not work for me.

Safety Gang safe.

### **Dee says**

This is the final installment in Ms Banks' series of Pregnancy & Passion. Cam & Pippa have known each other for a while through their friendship with Cam's business partners and their Fiancées & wives who are Pippa's friends. One night they decide to give into their desire for each other and have a one night stand. Unfortunately one of the condoms failed which resulted in life long consequences.

At first Cam was very upset and resistant and we learnt that he had been married before and both his wife and son had died and he was determined not to have any other long term relationships and certainly not have any further children. Once the pregnancy was confirmed Cam asked Pippa to move in with him and even offered marriage but Pippa wanted more than a cold marriage so refused.

I liked both Cam and Pippa but both were two very strong characters who wanted different things from life. I had a lot of sympathy for Cam and his past but at times I did get a bit cross over his actions towards Pippa for example the morning after the first night together and the at the pregnancy scan but predictably he came around at the end.....a good finish to a fab series.

Wow - just wow. I had a feeling Cam's story was going to be pretty incredible and I was right. I could see in the previous books that he was pretty closed off/cynical. When this one started out with him lusting after Pippa I had a feeling it was going to be intense. When he started out their night with the statement that it would be one night only, no contact after, etc, I could see he was setting himself up for the fall. Pippa started out saying he should get over himself, that's all she wanted too, but she knew she could easily fall in love with him. When she ended up pregnant, it terrified Cam - he'd already lost a wife and child and couldn't face it again. Cam spent the book fighting his feelings. One day he'd be kind and friendly and the next he'd backed off and was cold and forbidding. Pippa knew pretty quickly that she'd fallen in love with Cam. She couldn't understand why he acted the way he did. Once she found out, she understood, but made it clear that he had a decision to make. There were several places that brought me to tears, but the final confrontation and follow-on had the tears flowing so bad I could hardly read. This was absolutely the best of Maya Banks' books I have read so far.

### **Cheesecake says**

Cam and Pippa. Some reviewers say that Pippa crossed a line telling Cam what was what. But I thought she was great and Cam needed a kick in the pants to move on.

Cam lost his family years ago. The story never says how and you really never got to know much about them. He doesn't want to ever feel like that again, yadda yadda yadda. So even though he can't resist Pippa, he is determined to keep her at arms length. Basically have his cake and eat it too.

Pippa is no doormat though. I think that even though I liked Cam the least of the friends, Pippa's strength of character made me keep it at 5 stars.

They have a ONS night of hot sex and she's knocked up. There's a lot of push and pull but, like I said, Pippa calls a spade a spade.

Eventually Cam pulls his head out of his arse. I do wish there had been a wee bit more grovelling, but it was pretty satisfying as it was!

#### **SAVE THE BEST FOR LAST!**

By far the best in this series! A heroine that knows what she wants and is not afraid to claim her wants and, if need be, cut the father of her unborn child out of her life! A woman that is not afraid to say **I LOVE YOU** even when the odds are not in her favor. A woman that CAN KICK SERIOUS A\$\$E\$, without losing her femininity and identity as an independent woman!

And yes...the higher the expectations for this hero, the greater the surprise for his behaviour and his subsequent redemption.

**A man's grovelling has always been a woman's favourite sin....**

All in all, it was as fun reading this as the mood required!

P.S: How can you not love me daddy? ;o)))

Aaaargh! \*pacing back and forth\*

Pippa's pregnant and Cam's not ready to built a commitment. But what should they do? So they try to be friend and face the reality together. But day by day, inside Pippa's heart, love for Cam grew. What will Cam do when he find out?

It's been a while since I read Maya Banks's pregnancy series and I just realized I missed it so much! The angst, the heartbreak.. Argh!

Very typical of Banks--that I love the most, the story's about wounded Hero who reject the heroine and regret it eventually. Very heavy in angst and that's why I love it so. :)))

Nailed it, Miss Banks!
