I'm really glad the Tokyo sage is over because it was going worst and worst in every issues. Now... maybe it will bounce back to what made Old Man Logan so great in the beginning! Let's hope!

Not sure what will happen with Old Man Logan once our current Logan returns from the "dead". Is there in the Marvel universe for two Logans? Sure, why not?

This is one of my favorite series, good story and art. A rare combo in today's market. Logan gets reunited with his long lost love: Mariko. And they finally team up. But Logan moves on, as he should.
