**The Last Virgin Standing** Tiffany Huynh , laughterandjynx

Charlotte Summers is the last virgin in her school; a school where taking virginity is a sport. The sport has five main contenders: Tyler Bradshaw, the mysterious bad boy; Alec Jennings, the all-star athlete; Ian Jameson, the cocky rich guy; Beckett Cartwright, the renowned genius; and Lucas Chandler, her best friend. With all these guys determined to win the title of the Virginator, will Charlotte make it out alive with her virginity?

# From Reader Review The Last Virgin Standing for online ebook

**jess says**

**0.5 Stars**

**In short, this book was atrocious.**

I don't know what I expected from a book on wattpad, but this was just plain bad.

It was riddled with grammatical errors and had no clear plot. To give a quick summary:

*At Charlotte's high school, there was a competition of who could take the most virginities. There were four top competitors, all tied for first place: Beckett; the smart guy, Alec; the jock, Ian; the rich guy, and Tyler; the bad boy. After Charlotte's best friend and crush, Luke, sleeps with the last other virgin, therefore tying himself with the top four, Charlotte is the last virgin left. All five of the guys begin attempting to get her to sleep with them, making Charlotte's high school life pretty difficult.*

Yes, the last virgin in the school. Including freshman. You'd think that everyone would have an STD. They might as well go to school naked if this is how it is. Believe me, I'm all for liberating your body and having sex at the time that you feel comfortable with, but come on. Everyone in the school? '

Anyways, the story drags on for waaay too many chapters where they all take her on dates and try to get her to sleep with them so they can win. It was so incredibly strenuous. To save you the time it takes to read this, I'll just spoil it for you here. (view spoiler) You're welcome.

Another thing, the main character was an idiot. She's nosy, selfish, annoying, and she basically dates all five guys at once then gets mad when they give someone else attention. And she manages to pretty much fall in love with all of them at some point.

In short, this "book" sucked. It blows my mind that 44 million people have read it.

Team Tyler though.

---

**Amy says**

WARNING. SPOILERS AHEAD. READ AT OWN RISK.

Oh. My. Gosh. I don't think love is a strong enough word to describe how I felt about this book. It was an insane read! When a friend first recommended it to me, I was a bit concerned that the concept of the book would kill the read, but boy was I wrong! Five boys all dying to get poor Charlie's attention and virginity only to uphold themselves as 'The Virgininator' is pure genius! Alec was such a sweetheart, he was my favourite player out of the four (not including Luke), but it's a shame he had Maddy. I mean, it added well to the story, but I would've loved it if she ended up with him and NOT Tyler. Tyler killed me. He was so antisocial and rude and blunt that I wanted to throw my phone at the wall (and believe me, this story makes

you want to do just that!). I can't believe Charlotte chose Tyler over Luke, like seriously!

Oh, and don't even get me started on Luke! He was my favourite character in the whole thing from the word go (except when he was snogging Laurel)! He was so sweet and considerate and everything a girl could want. But no. All Charlie wanted to do was to keep getting mad at him and not forgiving him. Heck, he even told her he loved her after I don't know how many years she's been wanting to tell him the same thing, and what does she do? Get angry with him, forgive him, find out what happened between him and Emma, get mad again, forgive him, be his girlfriend for two days I think, basically dump him on Valentine's Day, and hit him with Tyler's car, which ends up getting him killed!!!!

Ugh.

Still love this book though.

Best Wattpad book I've ever read.

-A

PS: I would've given the book 5 stars if Luke lived and ended up with Charlotte, just saying.

---

### **Madison Moore says**

This book was an AMAZING book. I loved it! But I was pretty disappointed with the ending. The author could have done a better job ending it and making a decision. I will not release any spoilers, but I personally think the author couldn't pick, so she made this poor decision. I do, however, still recommend it to readers who love romance. The Last Virgin Standing is about a girl named Charlotte Summers, who just so happens to be the last virgin at her school. And at her school, virginity is all just a game to the guys. Whoever sleeps with the most girls, wins. Charlotte is the tie-breaker, and so therefore, the results of the game, lie in her hands. She has 5 different options. One just so happens to be her best friend. This book uses plenty of imagery and makes sure to give a clear image of what's going on, which is another reason why I liked it so much. Who will Charlotte choose? Read to find out.

---

### **Abigail Lopez says**

I would have given this story 5 stars but, I wanted Luke alive.

---

### **KittyKat says**

This book had some flaws and slut-shaming, however I could relate to the main characters feelings of hopelessness. I was not expecting the ending and am still shocked and reeling. I have to go now and have a crying session for poor Luke..... BTW on wattpad....

---

### **Sasha (seetheworldwithbooks) says**

Asdfghjkl. What the hell?! I have tortured my eyes by keep reading it since morning just to reach a very childish crap narration with selfish mind and bitchiness. Unbelievable! This Charlie, this main chick, is the last virgin standing. Took the girls virginity is such a sport in this school \*gasp\* that every boy likes to took the girls virginity as many as possible to win the tittle Virginator \*puke\*. What the hell right? Well i was

telling myself that i will be open my minded and not be so old fashioned. Its just a fiction anyway. Whats the deal?

That plot is not the one who irritates me.  
The boys are not the one who irritate me either.

This fucking main character does. Charlie is a very stubborn, childish, annoying main character i have ever read in my whole life. Sure i hate Nora in Hush Hush Saga. But its all because she is a hypocrate. This Charlie is not only a hypocrate but also a Fucking BITCH who only cares about herself. Not to mention, she is also so fucking stupid. Its like, some ghosts have stolen her brain. She becomes totally idiot. She seems cant decide what she wants. She dates 5 guys and all like "its okay. Its not like its illegal. Iam just being nice!"

what the fuck?! She is a player. She likes play with others feelings but she hates it and ditch them when its their turned to play with her heart. Not to mention, she is lack in making choices.

Poor Luke, who is in love with her for his entire life. I pity him because he is so blind and also idiot to fall for a slut like Charlie. As if there is none sane chicks out there.

And for Tyler? Man. i liked you at first but your broken character was kinda missing in the middle. Its like you are not Tyler i used to like anymore.

and for another three boys? i really dont give a shit.

---

### **Natasha says**

The story's idea is dragged on for way too long, moving from one guy to another. The main character acts rather slutty all throughout, going on dates with five different guys at once but for some reason it's totally okay. I'm struggling to even finish this lol, I can only manage a couple pages before I go read something better. I would give this a one and a half if I could.

---

### **Cyana Scriptoria says**

My students got me into this book. I have to say it didn't flow that well and you can tell there were a lot of plot issues.. But it kept my interest long enough to finish it. It did start off very cliché, but then the ending was surprising. The characters were all very shallow, but then you started to see some depth. The idea itself was repulsive. Let's hope that there are no high school guys that actually do that. As the contest was quite sleazy.. I did get aggravated early on because she acted like almost being raped was no big deal.. Seriously did the guy ever go to jail. She didn't even file a report. I almost put the book down because of the scene.

But then the ending floored me. So did not see that coming at all.. And it was the ending that changed the book for me. And then of course Luke's point of view.. just killed me inside.

---

## Tuba Sayed says

This is book is just horrendous, disgusting, absurd. Taking someone's virginty is a sport? What school is that?! Close it. Burn it . . . I can't even \*pukes\*

---

## Rach says

\*WARNING: Spoilers and a HUGE rant coming ahead\*

Oh dear. Where do I begin with this book? Everything was so wrong and it was honestly horrendous. I'd give this book half a star if I could, maybe even none. The plot, the characters (especially freaking Charlotte Summers) but I guess I'll start with the plot and first impressions.

The cover is pretty. I'll give it that. The only reason I clicked on it was because I thought it was a humor book and the cover looked nice. However, no pretty cover could hide what was inside, because I read it and I wasted six hours of my life and a good night's sleep.

First of all, the plot is atrocious. Virginity is SPORT IN THIS SCHOOL? That. Is. Downright. Ridiculous. I don't care to those who tell me "it's just a story, she can do what she wants". Well you people can go lick a toilet. I'm sorry, but it's atrocious how SEX is a sport. Oh my, gee I forgot that guys are just sex craving machines and girls are mere sex toys with no feelings who don't care about waiting for someone special to give their virginity to. Wait. I didn't forget BECAUSE THEY AREN'T LIKE THAT.

How the hell did these boys manage to have sex with EVERY girl in the entire school? Or is it grade? Either way, it's stupid. And it's sexist. Not all girls are idiots who would throw themselves willingly at a guy. I know I wouldn't. I pretty much hate everyone in my school. Some girls have dignity. And what about lesbians? Or asexuals? I'm sure they'd not like the fact of having sex with a guy.

As for the plot, it was so boring and dragged on for twenty more chapters than it needed to. The book was around forty, but I skimmed over more than half of it because it basically consisted of Charlotte going on dates from each guy to the next and basically falling for all of them. Charlotte slut shames so much, but she's as bad as those she judges. In fact, she's worse.

She plays with their emotions by pretending to like them, and the moment one of them "screws up" she moves onto the next guy. It's honestly disgusting and hypocritical. But, at least for now, I'm not discussing Charlotte but the plot itself.

Charlotte eventually ends up with Tyler (of course, the bad boy) because of all the other excuses the other boys give. Such as Bennet being gay and Ian being in love with her best friend Emma. Eventually it is between her other best friend Luke and Tyler. And of course, the author had to make Luke die. HE DIED. And he was actually an okay character.

The problem was, when I was reading about his death scene, I cringed.

A LOT.

I wasn't capable of feeling sorry or depressed with the characters in the story because it was so badly written. Charlotte showed no actual emotion, even things like shock or concealed sorrow, and her and his parents acted so damn casual. And Luke said stupid things like he expected to die, like, "Gee mom, thanks for everything. Bye." His parents and Charlotte were worse and were like, "Okay, nice knowing you. BYE."

If you wake up after a car accident, you shouldn't be expecting to die. They acted like they were dropping him off at college. Like excuse me, I don't think this is the door to his college dorm, I think it's the door TO DEATH. I don't know how any of them had the audacity to act like everything was normal barely a WEEK after the funeral. The author apparently said it was the readers fault because they were pushing for his death?! I don't know if I'm wrong, but I didn't come across any comments saying that Luke should die.

Now onto the characters. In the beginning, I didn't find them so bad. They were okayish, and I could stand them. Charlotte however, was a different story, because she was unlikeable from the start. **FREAKING CHARLOTTE.**

Charlotte, frequently called Charlie, is one of the **WORST CHARACTERS I'VE EVER HAD THE DISPLEASURE OF READING ABOUT.**

Sure, her comebacks were somewhat witty, but she annoyed me more than any other main character I've ever read (except Bella from Twilight). She was so selfish, inconsiderate and really stupid. Her mindset was so narrow that it wasn't even funny. It just enhanced her stupidity. Like when Luke finally tells her that he loves her and she yells at him and says that he's playing her, then shoots him down after he spends a week trying to convince her that he really was in love with her. Then she cries that she's still in love with him and how everything isn't working.

Woman, are you naturally that much of an idiot, or did your mom drop you as a baby?

Oh right. She had this whole thing with her mom being distant from her life, but admittedly, I sort of skimmed over those parts. They honestly didn't add any substance to the story, which makes me wonder why Charlotte couldn't just have a normal functioning family? In every Wattpad book I see, the parent is always a single parent, or they're divorced, or one's abusive. I've never seen a typical household.

She's so inconsiderate and **RUDE**. An example would be when she finds out that Alec actually secretly has a child. Instead of being a good friend to him and sticking by his side, she **WALKS AWAY FROM HIM**. That just shows what type of a personality she has. She doesn't even consider **HIS** feelings and she just tries to cut herself off from him without considering what **HE** is going through.

Charlotte also was a huge hypocrite. She could literally date **FIVE** guys and not be called a slut but whenever she saw any of the guys with another girl she was jealous and called them players? She showed unnecessary dislike to pretty much everyone, and I wonder how any of those guys fell in love with her. What did they see in her? Is it just because she's pretty?

Another problem I had with Charlotte is that she doesn't **FEEL**. An example would be when she's almost raped, and shows **NO** signs of any trauma. She **GIGGLES** with Tyler as if she had a scraped knee. She's so irritating to listen to because you wonder where her brain is. Charlotte describes kissing as if it were a chore, not something new and exciting (because apparently she never kissed anyone before the guys). If she's some place she's never been or she finds "exciting", she merely says something like, "It feels nice," or, "I'm cold". She's so boring. Despite that, these guys keep chasing her like confused puppies!

Speaking of the guys, they're too cliché. I understand being a little, but these guys are literally cliché in human form. One is the smart cute boy, one is the athlete, then the boy next door/best friend, the bad boy and the rich ass boy. And of course, all of them want the "dork" of the school.

Luke and Bennett were the only two I could stand because they were somewhat okay characters. While Bennett was unnecessary to the plot, he was a sort of likable character. Luke was sort of annoying when he was being possessive of Charlotte, but he wasn't too unbearable. I felt like Ian was just an unnecessary character. I didn't feel anything towards him, except that he was just...there. And later he became her best friend's love interest. Alec was...meh. He was also not necessary, but I liked him better than Ian.

I liked Tyler at first, but he began to annoy me a lot. He became more cliché than he started with, and of course he had to be involved in something dangerous. How original. The author even said that she originally was going to make Tyler part of a gang, and I'm so glad she didn't. Honestly, I don't know ANY high school boys who are part of a gang. Do you? The boys in my high school are smug and rude yet cower when I make a fist at them. I don't think one day they'll magically appear, looking sexy and a leader of a gang. When someone farts it makes their day. How the hell are they supposed to use a gun?

Also, everyone seems to be missing the point of this book, including the main character herself. THEY'RE BASICALLY TRYING TO RAPE HER. Isn't she a little creeped out by the fact that they're just trying to have sex with her? Tyler literally saves her from rape and has the audacity right afterwards to ASK FOR HER VIRGINITY FOR PAYMENT. How messed up are they?

Overall, it was a waste of my time. The plot had a horrible concept which is entirely unrealistic. It made me laugh maybe a couple of times, because I'll admit, sometimes her comebacks were pretty good. But majority of the time I wanted to strangle the main character. Definitely not my best choice reading this book.

---

### **Siobhan says**

Oh my god, do I have a lot to say about this book.

I hate it, but I LOVE it.

Hate because of you know who, doing you know what, aka LUKE DYING. Just whyyy? If it's a fun, teen romance book, why kill off a MAIN CHARACTER? I'm not sure if the author is trying to be dramatic, for the end or whatever, but the fans are just dissatisfied. Other than that, the book was filled with fun, hilariously adorable moments. I adore this book and would highly recommend it (except the last few chapters).

---

### **Megan Scutt says**

Okay so I recently kick started my Wattpad account and this was a recommended thingy so I checked it out. Typical love... its not really a triangle, more of a hexagon... yeah its a typical love hexagon. Girl loves boy bestfriend, he loves her but shes too scared to tell him blah blah blah... I loved the whole concept of the "Virginator" and the fact they were competing... but it got boring at times...

I was always Team Luke, the entire way, boy bestfriend is always the way to go but she went with a guy she barely KNEW? Yeah no thank you. A lot of the characters weren't properly well written and I guessed like 90% of the stuff that was coming next. This meant it had no shock value which really really really really bored me at times... i accidentally read a spoiler review and saw what happened at the end, so i stuck it out to see what happened and that bit actually made me cry... seriously, a tear actually ran down my face.

It wasn't gripping, the concept was awesome, and the thing at the end shouldn't have happened...

The end

---

## **Sophia says**

This freaking book kept me on the edge for so many plot twist it has!

---

## **Genni Eccles says**

I'm pretty ashamed that I read this. Though it was an interesting read, this whole book makes a game of a person's virginity while also over-romanticizing it sometimes. Why can't a person's virginity just be virginity? It can be a big deal to one person, and not mean anything to the next. But to over-generalize virginity to the point where it's a game to be played by guys at a high school can be insensitive and not believable. Plus, this book also enforces plenty of stereotypes. There's literally the rich kid, the all star, the boy next door, the bad boy, etc. Though sometimes the author made sure to show that these boys weren't just their stereotypes, she didn't do it well enough. I remembered a time while reading this that was along the lines of "I forgot that boys had feelings. I just assumed they were sex-crazed maniacs". Like, what??

Another problem I had with this book was Charlotte's reaction when she found out someone was a dad. Charlotte had a budding relationship with this guy, and she just walks out. Instead of being a good friend, or heck, a good person, she just walked away without the consideration of another person's feelings.

There's tons of other problems I had with this book, but I don't want to rant. I'm still giving this two stars just because it was entertaining. But just because it was entertaining, doesn't mean it is good or that it has good messages.

Overall, this book was really problematic. I was entertained while reading it, but I made sure to not analyze it so much that I wouldn't enjoy it. So even though I had fun, I can't recommend this book. We should be ending stereotypes and enforcing gender roles, not perpetuating them.

---

## **Kim says**

So my 13yr old niece is reading this book and she begged me to read it also. I don't think she realizes I am a million years older than her.

The main character Charlotte is the last virgin in her school. Now hold up..... What kind of school is this??? Okay back to the book. In this school taking a girl's virginity is a sport. Again.... What kind of school is

this??? Anywho we have 5 main contenders .... Do we really care who they r.. Not really. Ughhhhhhh

So these 5 guys compete for Charlottes virginity. Who's gonna win? Ughhhhh WTF???!!!

I don't know if I am just to old to read books like this but I was highly annoyed and now it's my mission to buy some "good" books for my niece.

This was free on Wattpad. Thank god I didn't pay for it.

---
