Unbelievable Faith Jess Bryant

Fate can be cruel.

Luna DeLuca has lost everything except for her faith in herself. Kidnapped, tortured and threatened by a male that's already killed half her family, she knows the only way to save the other half is by offering herself up to him. To save her sisters, she's willing to do anything, even accept a claim from a male that isn't her mate, a mark on her soul that will ruin her forever. But if this is what her family needs, what her pack needs, she'll do it to save them all.

Fate can be twisted.

Michael Hudson thought his mission to save the neighboring Crescent pack was about helping out a friend. He thought it was about avenging an attack on his own. But the second he sets his eyes on the beautiful girl locked away in a dank basement he knows she's why he was put on the face of this planet. She's the reason he's here. She's everything. She's his. His mate. His fate. His future. Only, she bears the scent of another and is nothing like what he imagined his fated mate to be.

But fate can also be kind.

As brave as she is, Luna's wolf is submissive and submissive wolves aren't meant to lead packs. They aren't meant to be Queens. She knows that. So does Michael. But when he refuses to give up on her, refuses to walk away or back down, she begins to see why fate put them together. She softens him and he strengthens her and maybe, just maybe, if they believe in fate enough they can find their way to forever.

Helen Altafulla says

I dove straight into the story after finishing Unbreakable Bond.

Jess Bryant sucked me into Moirea pack and refused to let me go.

I absolutely loved everything about Michael and Luna and was so happy to see him finally get a mate he deserved.

We first read about Michael in Zoey and Rafe's book as the protective best friend/pack alpha. We hear little snippets about Luna, as well. But, not until the epilogue do we see what she's enduring and who her mate is. Ding, ding, ding... it's Michael! Lol

Jess Bryant can do love. HOLY SHIT!

I just wanted to sandwich myself in between Michael and Luna and have him fix me all up with his sweet and understanding ways.

And, how about those steamy scenes?? **fans self**

BOY! Where is my alpha wolf. I must look into becoming a part of that mating ritual.

This book definitely took us on quite a ride. More action, drama, suspense, adventure than the first book and that warranted an extra star! I loved it!

So happy I stumbled upon this paranormal duet.

I need more information on Maya and that MAJOR ENDING!! Fuck! Aaaahhhmazing!

MUST FIND OTHER SHIFTER BOOKS NOW

Amanda says

A fantastic end to the duet, I'm so excited that Michael got his HEA. My heart broke a bit for him as he had to watch his best friend and brother mate, so when he found his mate, I was super excited. I really enjoyed this fast paced, action packed read. Can't wait to read more about the Crescent wolves in the future!

An absolutely wonderful conclusion to the Fated Mates Duet! The writer has yet again taken the PNR genre by storm and what an impression she's made!

The story was very well balanced, with a bit more suspense than book one and it fit SO. WELL. The steam was off the charts in the best way.

I would be remiss if I didn't mention how fantastic the writing was. From the descriptions, to the flow, to the third person, to the dual POV the writer absolutely NAILED it. I felt like I was watching a movie at some points!!!

I absolutely recommend this fantastic story!!!

5 Stars!!!!

After reading book one, I could not wait to get my hands on Michael and Luna's story! I loved the first book so much and book two was even better. If that is even possible! Jess Bryant is an amazingly talented author. I have loved everything I have read by her so far! The fated Mates duet is her first dive into the world of paranormal, specifically wolf shifters. I love shifter romances and have read many. So I can say with confidence that Jess Bryant is the author of two of my all time favorites. Yeah, I know...I'll tone down the fan-girling, lol.

So we meet Michael in book one, *Unbreakable Bond*. That book was incredible, just saying. Michael is alpha to his pack. His brother, Rafe has returned from wandering for four years. Rafe finds his mate in Michael's best friend Zoey. But Michael is not far off from finding his own mate.

And thank God he does! There are a lot of characters in these two books. There is a lot going on in the plot as well. I am not going to say anything that will spoil this book for you. Though I will tell you that when Luna and Michael meet for the first time, it's not a minute too soon. He saves her. And from that moment forward, Michael will not let Luna go. The heat, chemistry and tension between Luna and Michael was palpable. It was intense and I felt it all. Damn this book was hot! Those two together were sinful but at the same time I found them adorable.

Michael Hudson is a total book boyfriend!

As I mentioned there is a lot going on. All the feel are present. Another aspect present for me was surprise. I didn't see a few things coming and that fact only added to my enjoyment. By the way, Jess, I love where you went with Darius. That was so perfect! I wish there was more on that.

If I have any disappointment with this book, It's that it ended all too soon. Luckily, the author has more planned for us with the Crescent Wolves in the future. I can't wait!

If you are looking for a fast-paced, intense read within the paranormal genre, I highly recommend this duet. If you are new to paranormal, I highly recommend you give these books a try. You won't be sorry.

This is my honest and unbiased review. Thank you for taking the time to read it. :)

I finished and immediately wanted to read more.

I quite enjoyed every step of this book from the fated meet to the mating. ::wink wink:: Jess Bryant does it again, and makes me fall in love with her characters. She created this family that proves that even though you're not blood - you matter.

Michael and Luna's love was amazingly strong and what every one likely wishes for. He's the alpha and she's his mate, simple as that - right?

Pick up this goodie and you won't be sorry.

Courtney Hagel-Swinson says

Oh Michael and Luna, how I love you. After losing his best friend to his brother, Michael finally found his forever in Luna, but not without a hard fought battle. I loved the angst and struggles in this story. I could tell Luna was more from the very beginning. Her strength when it came to facing Maddox and sacrificing herself for her family really made an impression on me and I was so happy to see that strength grow into something more. Finding Michael and seeing what he saw in her really allowed Luna to become who she was meant to be and that was my favorite part of this story, her growth. The bond was so strong between Michael and Luna, but their connection and chemistry as a couple made for such a beautiful love to grow between them. There were some things that I wasn't expecting in this story and the suspense really enriched this book to make it a well-rounded, solid story. I truly love this magical world that Jess Bryant has created and I'm looking forward to see what she has in store for Maya and Nova.

This is book 2 of the Fated Mates Duet and I really liked this book! I am a huge paranormal romance lover, so I had high expectations for this book and series. I enjoyed the characters, the drama, and the storyline. it was well written, flowed well and left me wanting more. Can't ask for much more than that.

This series is a great PNR sweet read! There's enough suspense to move the story along and yet it's very sweet and steamy! PNR is my fav genre and it's soooo hit or miss but this is definitely a hit! Luna and Michael were very sweet with each other and super hot. For two virgins these two got steamy and I loved it! I also loved checking in with Rafe and Zoey and the Leo Darius side romance and hope they get a book or novella at some point! I love heroines like Luna who remain positive and optimistic even when life is throwing them down. She was a great POV to read from. Seems like spin off Crescent Pack will come in 2020 and perhaps this series will continue with Maya (who I'm def interested in learning more about and especially Nova)! Can't wait to read more! I still wish there was a little bit more world building but it's a small complaint to have!

Luna & Michael's story was the perfect conclusion to The Fated Mates Duet... this action packed, steamy read had me on the edge of my seat. I couldn't have loved Luna & Michael's story more!?

There were so many aspects to this story that I loved..from the amazing chemistry to the fantastic secondary characters that I simply did not want this book to end.

Michael and Luna have both had to overcome great loss in their lives and fight for their families & their packs; both having to put absolute faith into fate and what it has in store for them. Luna is a submissive wolf but certainly not a weak wolf; she will fight and sacrifice for the people she loves. She just doesn't know where she fits...when Michael finds her the missing pieces finally come together. Michael's love for her is undeniable and so swoon worthy ? Two puzzle pieces that fit perfectly together in fates plan; their connection making them stronger.

I loved this book so much and highly recommend this fabulous PNR read to any and everyone?

Rejane says

There's no info if this book follows the same writing as the 1st. Endless monologues, repetitiveness, telling not showing etc. BOREDOM galore for pn books. Reviews for this book are the generic kind. Passing. Can't endure fate, mate, bond a million times again.

Maren Lee says

I legit could not put this book down. Something about Luna was completely captivating. This whole storyline is gripping and believable and romantic. I love that a beta is fated to an alpha yet she still holds her own because she loves Michael. I cannot wait for more and I really hope Ms. Bryant keeps this universe going because it is filled with too many potential amazing storylines and characters. I highly recommend this duet, but Michael and Luna are my new faves.

This kind of book is the reason I read PNR!!! Nothing better than a story full of growly werewolves. Yum!

Fated mates, Alpha werewolves, action packed and fantastic supporting characters - this story had it all.

We met Michael and Luna in book one & we get their love story this time. Oh what a love story!! I adored Luna - the submissive wolf who had to find her place. Michael was the perfect fated partner - loving her exactly the way she was. I also loved catching up with Zoey & Rafe - add in the side story of Leo & Darius and I was a very happy girl. I really hope this author gives us more stories in this world. Definitely recommend to my PNR Book friends.

I received an arc of this book.

Laura says

Wow, lots of adventure and suspense in Michael and Luna's love story. Of course, there's also plenty of steam and sass, and even a few laughs. It's everything I've come to expect from this author's shifter romance (and pretty much everything else she writes).

While each book in the Fated Mates duet is about a different couple, they work best in order. Start with *Unbreakable Bond* and enjoy all the spicy, wolf-y goodness!

This was a good conclusion to this series. Seeing the bad guys get what was coming to them and seeing fate bring love to Michael as well.

Michael was a super alpha, but still so caring and willing to give up so much to have Luna by his side. Luna's story was a journey of being saved, finding love, and also realizing who she was meant to be all along.

I loved getting to know Luna's sisters and seeing more into Leo's life.

Good amount of action and sexy times.

Cute epilogue and a look five years down the line.

Can't wait for the cresent pack book.

Angela's Book Addiction says

Unbelievable Faith (Fated Mates Duet Book 2) by Jess Bryant is a paranormal shifter romance told in dual POV.

When Michael, Moire Pack Alpha, leads a mission to rescue his friend Leo's sisters and save the Crescent pack from an abusive, tyrant alpha, he doesn't expect to find his mate. But from the moment he sees Luna, Crescent pack princess, he knows she's the one for him - his fated mate.

Born a beta, Luna can't understand how fate could match her with Michael, a Pack Alpha. Everyone knows that a beta isn't fit to lead or be queen over a pack. Surely there must be a mistake. But Michael has faith that fate knows best and now that he's found Luna, he refuses to let go. He supports her and together they fight to overcome obstacles.

I really enjoyed this story. After reading the first book, I was looking forward to Michael finding his true mate. Luna was a great character. I loved her journey from submissive beta to rising up into the alpha queen she was born to be. Full of action, suspense and steamy scenes - this was a fun read.
