## **Conception** Sarah McCarty

An unwilling victim of an experiment gone wrong, mother to a child who shouldn't exist, Eden Lavery knows only one person strong enough to stand between the Coalition's fanatical quest for immortality and their threat to her daughter- Dusan Knight. Six-foot-three-inches of solid muscle, Deuce wears his power with the easy confidence that comes from six centuries of commanding the Chosen, the inspiration for vampire lore.

But Deuce isn't just a source of legend. He's the man she loves. The man she had ultimately betrayed.

From the moment Eden reenters his life, holding the miracle of a Chosen child in her arms, Deuce burns with the need to complete their joining.

Everything about Eden, from her sassy sense of humor to her delectably stacked body, was made for him. But some things are easier decided than done. Amidst a race for survival, against an enemy that cannot be destroyed for fear of extinction, Deuce must fight for the future of his people, and to convince Eden the passion between them is more than illusion. She is his Chosen mate and nothing- not her fears, the Coalition, nor death itself- will take her away from him.

## **Conception Details**

Date : Published April 1st 2006 by Elloras Cave (first published August 2005)

## Anne says

This book was SO good. I LOVED it. I SO want a sequel.

---

## HJ says

Just not for me AT ALL. Second attempt 2 years later to get through, and failing. Not the author's best work, and I can understand why the series didn't continue.

---

## Halcyon says

[The main guy, Dusan, or Deuce, is a 600+ year old vampire who found his mate in Eden, or Edie, a

---

## Jaycee says

I read this book some time ago, when I first discovered Sarah McCarty's writing, and I loved it completely. I just completed a re-read, and the spark is still there...

I have been hoping ever since that first read, that a new book would add to the series...or a couple of books might complete it. Certainly Bodhan is worthy of his own story, and there are a few "Others" (pun intended) who need some exploration.

Very disappointed in how little we've heard from Ms. McCarty in past few years...hope all is well...

---

## Varied Books says

Re reading b/c I Love the j/p alpha H. Edie is an awesome h.  
It sucks that McCarty didn't continue this series w/ the OC. Such potential.

---

## Yashika says

Where are the sequels? I absolutely loved this book and never read anything by this author previously. I heard about it on a Amazon forum talking about shocking sex scenes. The bedroom scenes were graphic and descriptive, just the way I like them. I really hope she writes a sequel soon I would love find out who is mated next.

---

## Netanella says

I'm a big fan of the author, and selected this book simply for her name alone. However, I was largely disappointed with this book - the characters were flat, one-dimensional creations that kept doing or saying the same thing over and over again. I felt like I was stuck in a loop for most of the book. Deuce: "It is my duty to Eden: "I must leave; they will catch me." Over and over ad nauseum. I was glad when the book ended.

---

## Gizzie says

This is the first book by Sarah McCarty i didnt like and found boring, and I have read them all. This book started out good but quickly went from good to TMI. Most of the book was about a vampire mating with the chemically altered human and the process they went through to be mated. It was so detailed it became hard to keep reading. I almost gave up on reading the book several times. By the time I was about 85% through the book it started to pick up and pull together. Some parts made no sense. Eden's refusals became redundant and made me ask why?

---

## Gee says

This is a book crying out for continuation in a series. Seriously. Where are the sequels?

---

## Mara says

Re-read in 2018 I stand by my words. There's a interesting story somewhere or there might have been one, if the author hadn't chosen to drown everything in sex. And again I skipped most of it as, contrary to some people's thoughts, sex isn't plot nor story. It can be a necessary part of them, but not take their place. My rating is still <2.

I had not realized this was a former Ellora's Cave book, now self published by its author. The new cover is way better than the original, by the way.

The cover is also, unfortunately, the only thing salvageable in this story. I bought it after reading the blurb and the sample which really hooked me. A man and a woman facing each other a year after she has betrayed him to hunters. She survived torture and is here to ask for help (begrudgingly too). A strong woman, too. Yes. It seemed my kind of story.

Lord, was I wrong. After a very nice beginning (lasting a few chapters), this book turned in the most boring, gross, flat (did I say boring and gross?) sexfeast I ever read. Maybe sexfeast isn't the right term, it seems good. There's nothing good in 300 page long sex scenes. It goes beyond boring. (And someone please can explain to me why submission equals humiliation, or women turning into puppets, and to the author the idea of equality? (view spoiler))

There was absolutely nothing else. I'm not kidding. With the exception of a few pages next to the end, all of the story was some form of sex. And I use the term with trepidation, as I'm not sure it's the right word. (If you are so... bold as to read it you might understand. Hopefully not. My stomach is still upset... < grin >)

I skipped so many pages I'm not sure I qualify as reading it....:P
