Dirty Wish Karolyn James , Jaime Morghan

He's rich. He's powerful. His hand is up my skirt. And I don't even know his name yet.??

That's where the night begins. It ends in the stranger's bed, where I learn his name is Alexander and that he wants to see me again.

?I'm supposed to be housesitting, basking in the glory of what a wealthy life could feel like. A knock on the door changes my life forever. A dress is delivered. It fits me perfectly. And I want to impress Alexander. I want to experience the rich life, even if it's not meant to be.

?I start to fall for Alexander and the lines between reality and fantasy start to blur. He's everything a woman wants in the bedroom and everything a woman needs in life. But then I discover the dress wasn't meant for me. And, yes, it was sent from Alexander. To someone else.??

He's my dirty wish... but now I just feel dirty...

Karla says

I volunteered to review an advanced readers copy of this book.

Steamy! Oh my. This book had so much imagery, it was crazy. The detail was spot on. There was a bit of mystery which was a nice surprise. But... I would have preferred more dialog between characters. I felt like we got picture after picture of what was happening in a scene, but we never really knew what the characters were thinking or feeling. The connection was there just lacking. It was an easy read and entertaining though. Definitely to the point in some areas. Overall the book was good. Had many strong points, but was missing in others.

Andrie says

2,5 stars

I received an arc in return for an honest review...

Well it has an intriguing beginning but as the story goes on i wanted to know more about the characters and see them interact with each other in the every day things. Instead all the book is all about sex. Ok there are some pretty hot scenes (i think the author has a real talent in that) but i needed more story and less sex. I had fun, it was an ok read for me, but that's it...

Valeen Robertson (Live Thru Books Blog) says

Hot & steamy! Kendall is an unpublished, aspiring writer who meets Alexander, a billionaire, one night when she's out with her friend Misha. Before she can blink, he's invaded her body and her life with his sexy brand of control. What starts out as just sex, though, turns into real feelings, at least on Kendall's part, and she just knows she's going to get hurt. But, that's ok, she will at least have had fun before her heart gets torn into pieces.

I can't say I liked Alexander all that much, but he got more interesting when he took off his mask and let himself be a little vulnerable to Kendall. Kendall is interesting, though, she's sweet, and funny, but more than a little naive and somehow unable to control herself around Alex.

If steamy billionaire stories are your thing, check out Dirty Wish!

Alex ? says

[only because I would tell a stranger to go f*ck himself after he said *If you scream or jump, you're f*cking*

*done for the night. I'll have you thrown the f*ck out.* doesn't mean no one finds it sexy. And it wasn't an abusive scene, more smth dominant or whatever (hide spoiler)]

Patricia Koch says

DIRTY WISH : A billionaire romance novel

Priceless, mysterious and naughty storyline with absolutely delicious characters in this story. Exciting and challenging story between the two characters in this story. You will love reading this awesome story.! Don't want to give away too much information. Just read the book!!! I have!! Enjoy

Geraldine says

This book grabbed you immediately with a wonderful sexy start. Mysterious billionaire who was both frightening and exhilarating. As I continued through the book I found myself skimming over the intimate scenes. I love a steamy romance as much as the next person but I felt that the balance between sexy scenes and story was off.

Renee says

I received a copy of this book in exchange for an honest review.

Kendall meets Alexander by him having his hand up her skirt. All she's knows is he's rich and powerful. Kendall ends up in his bed where she finally Kearns his names is Alexander and he wants to see her again. Kendall is house sitting, basking in the glory of what a wealthy life could feel like. One perfectly fitting dress delivery and the lines between fantasy and reality begin to cross. Kendall is falling for Alexander. How could she not. He's everything every woman has ever wanted or needed in her life. Soon though Kendall discovers the dress wasn't meant for her. It was definitely sent from Alexander to someone else. He is her dirty wish.....now she just fills dirty.

With Dirty wishes Karolyn James has gone back to her billionaire writing roots. She's created in Dirty Wishes. A couple in Kendall and Alexander that will have your kindle melting in your very hands. To say their chemistry is amazing is a understatement. Dirty Wishes is a story of two piece from opposite sides of the track and the turmoil that follow them. It was so much fun to read that I couldn't put it down.

Lisa Menor says

I voluntarily reviewed an Advanced Reader Copy of this book.

They met at a bar. Kendall was there with her roommate Misha; Alexander was there staring.....at Kendall. Kendall is definitely out of her comfort zone. Things begin to move rather quickly. Soon they move their party upstairs. Promises were whispered and promises were kept. The night ends abruptly, much to their

dismay, and Kendall goes back to her life.

Days later hoping to see Alexander, Kendall and Misha return to the bar. With no sign of Alexander, Kendall meets someone new. Alexander squashes that real quick though when he takes control of the situation. He definitely likes control. After a night filled with the most erotic, uninhibited sex you can imagine, Kendall finds herself alone. Apparently, Kendall hasn't been playing by the rules. How can you play by the rules when you don't even know what the rules are? It seems Alexander knows the rules and Kendall has been making him break all of his.

Life isn't that simple. Maybe Alexander has an M.O. and Kendall has just been played. We all know that saying-if it's too good to be true....

Kendall is a small town girl in the big city. Alexander owns that city.

WOW ! ALL I CAN SAY IS THIS BOOK IS AMAZING ! THIS BOOK IS FILLED WITH WILD, UNRESTRAINED, MIND BLOWING SEX !!! THE STORYLINE WAS SUSPENSEFUL AND KEPT YOU ENGAGED ! After trying to figure out what was really going on, WOW! AHA! Now I get it ! It was like living it with your best friend, Kendall; the readers were all Mishas.

YOU DEFINITELY NEED TO ONE-CLICK THIS IMMEDIATELY AND READ ASAP !!!
IT. WAS. THAT. AWESOME !!!

Debs says

"Dirty Wish" is a hot read romance with a small town girl in Kendall that doesn't have a clue on how to handle the mysterious Alexander that is a hot sexy male lead that is both mysterious, demanding, and not very forth coming on who he is. You just know that he is sexy and commands a woman when he chooses. Kendall is a simple gal that falls in love and is a novice compared to the hard demeanor of Alexander. Karolyn James weaves a story of a great romance of two people that are not what you would expect to make a connection, but the sex and romance is hot with an awakening of both the H and the h. Alexander is not an easy person to figure out, but the author does a great job in giving us background for his reasons of being who he is. There is a wonderful conclusion for both the Kendall in finding what she is seeking and Alexander finding how to give his heart to someone he has grown to love. The couple reaching their HEA is the final aha moment in this great romance. A recommended read for all romance readers. Thank you to the author for gifting me with "Dirty Wish" and asking for my honest opinion. This is mine. 4.5 Stars!

Candice says

I really liked the hot and cold feel of this book. It makes it crazy intense. The push and pull of the relationship between Alexander and Kendall it a hot mess. His walls are so built up and she's breaking them down. Great story

Carrie Gubish says

Annoying

This book was good but she was just to annoying. She has legitimate questions and he doesn't answer or just says it's none of her business and she just takes it. So many men in the world but she says nothing and keeps on screwing. Lots of sec in this book but with me hating her I just flipped through it. He's a jerk and she is

like a groupie. She needed more backbone.

Sue Me says

At first I loved this book and its story, but as I really got into the story, I realized that it was more about sex than about the story itself. I love erotic stories, but they need to have a strong story to go along with the eroticism. I have given out very few 3 ratings. It distresses me that I feel that I must express my strong feelings that this was sex without a strong story line. I will read another book by Karolyn James to see if her other books are better written and I can give a higher rating.

Lisa McCreay says

I was initially excited by this book based on the blurb. I was thinking aww shucks she's gonna hook up with this guy and then have to house sit for him and they're gonna have raunchy couch and countertop sex whoo hoo, boy was I wrong. I wasn't wrong about the sex. There was an OBSCENE amount of sex, like so much sex I thought this woman Kootie Kat was gonna fall out. I talking is-it-even-possible-to-be-that-wet-your-puss-should-be-raw type of sex. There was more humping than dialogue in this book. Now if that is what you're into then this is the book for you. If you need a little substance between your frumping then stay far away from this book.

The book is described as a romance, yet there is nothing romantic about this story at all. First of all, the male lead, Alexander, is a Christian Grey wanna be. I'm talking all the way down to the helicopter flight around the city, however, this guy was a completely irredeemable jackass. There were nothing likable about his character except his big schlong. This guy didn't even want to share his name yet he expected the female lead to allow his fingers to be...well, you know where. See, jackass. Kendall, the female lead, is...well what is she? Other than an aspiring writer I don't know. The author never describes her physically except her boobs, which are perky btw, and her writing takes a serious back seat to the amount of f***ing her and Alex do.

So 1.5 stars for this one guys. I love mommy porn but this was just bad.

Mary Clark says

Kendall's dream is simple; move to New York City, find an agent and become a famous author. The reality of her life is that she didn't get her big break. When Kendall meets Alexander, he is blunt, honest and demanding and Kendall is breaking all his rules after having stolen from him. Kendall is obsessed with Alexander; he is looking for trust, but Kendall keeps making the wrong assumptions. There is a wicked hardness to Alexander, but can Kendall unlock his darkest secrets; he is not one to answer questions about himself, but will he make an exception for her? Paige is excited about Kendall's book, but how does she know Alexander? It soon becomes clear who the dress Kendall wore was meant for; the woman who is about to make all her dreams come true. As far as Kendall is concerned, Alexander is nothing but a liar and a cheat, even if their connection is undeniable. Alexander has already told Kendall he will never lie to her; all she has to do is trust him. Eventually the time comes to put matters right; Alexander needs to explain

everything to Kendall. About his family, his dead brother and Paige. The first rule Alexander ever made was that he would never love, ever, but now he realises he is a liar and a cheat; a cheat because he is holding back and a liar as he said he would never love Kendall; but love had actually found him. This was quite an extraordinary, sensual, engaging book to read and I enjoyed the storyline very much. A copy of this book was provided to me with no requirements for a review. I voluntarily read this book and my comments here are my honest opinion.

Kimkbries says

When Kendall meets the mysterious Alexander he is so dominating and attractive she cannot resist him. Coming to the city to follow her dreams, can she make it and still find happiness? I thought this was a great book about an alpha male and the one woman who just might be able to take him. Another great book by this talented author.
