Insomnia fodder.

I loved Garfield when I was in middle school. I had several of these collections, and I read them all again and again.

I'm giving three stars based on the way I felt about the book when I read it the first time (or should I say the first 10 to 15 times?). Now I can't imagine reading any one of these books one time.

I can barely believe how many of these collections exist.

## **Kaelin Miller says**

A book of fine art and humor. I enjoyed it very much. The characters are great as always. Jim Davis is a cartooning genius.

## **Evangeline says**

Garfield is the best. I relate to him so much.

## **Ann Living It Up says**

This one is really hilarious!!! Good times!

I was addicted to these as a kid. I drove my parents insane following them around demanding, "Read this one!" I'm sure that my Dad regretted owning a bookstore. As an adult, I foster cats, and every foster kitten has a picture taken in a box labeled "to: Abu Dhabi." None of my two personal cats are obese, but one is especially adept at tossing chihuahuas off furniture using only one paw...

I really liked this book it was very funny and I would read it agin.

## **Mary Thomas says**

It was fun to read the comic that appeared in the newspapers on my birthday in 1984 in this book. Garfield was one of the first comics that I started reading as a kid. Still gave me a chuckle today.

Garfield Makes It Big book originally was published almost 20 years ago. Boy, how time doth fly. With a movie about to hit the theaters, Garfield has proved that he is around to stay.

Garfield is a character that many of us can relate to, as most of us do not weigh as little as we would like. Is he the kind of pet any of us would want to have . . .NO! But does he entertain us with his wit and humor. Oh, yes! Jon is the most understanding per owner in the world. I know I couldn't handle having a cat like Garfield.

So, if you are looking for a few chuckles, pick up Garfield Makes It Big for some good, clean fun.

Going through this one there was only one that I really found boring. It was the Christmas story special. (Didn't even read that one.)Believe it or not I figured out why Garfield is so popular. It's not because of the hilarity of it all but rather it's the way we are able to relate to Garfield and Jon. It's the way their logic and the scenario's feel realistic like it can happen to you. I love the art design. (I'll probably say it every time but why do the walls sometimes shift color half way through a scene.) It doesn't happen as often in this book but it does.)

Something I really like is how they are organized. I really like how they are all laid out in certain times. The farm clips are put together and the return from a vacation are all put together. I like the comic strips and I find them enjoyable and I think they just might have been getting better with each new book that was released.

Garfield makes it big: Jim Davis has once again used his expertise to charm and captivate our minds in his explosive 10th collection of comics. His wit and humor make America's favorite fat cat come to life, now more gluttonous and hilarious than ever before. My only complaint is that the Sunday strips are not printed in color, but overall this is a wonderful arrangement of comics.

More fun featuring the famed cartoon fat cat. Of particular note is the Tubby Tabby's version of Clement C. Moore's "The Night Before Christmas"; as a longtime lover of holiday humor, that one definitely made me smile.

---

### **Shannon says**

Not very funny, but it brought back memories of when I was a kid.

Some were funny though, Michael! ;)

---

### **Stephen says**

3.5 stars. Garfield's tenth book and it was still going very strong at this point (i.e., no jumping the shark or mailing it in). Very funny and certainly appropriate to enjoy with your kids. Recommended!!

### **Miriam says**

Garfield is consistently funny. Jon is a loser/obvious closet stoner, who has a love/hate relationship with his jerk cat and dumb dog. If that's not a great setup for comedy, I don't know what is. No adaptation of these comics has shown so well what a freaking loser Jon is, and that ends up being the funniest part of this collection. Not my favourite Garfield collection, but it's a fun one.
