Repeating History: Book Two

History isn't dead when you're living it.

Ash and Grant are about to learn why it was called the Dark Ages, when Merlin, in the guise of their teacher, once again sends them time traveling to reclaim one of the antiquities their prank destroyed: a book called the Malleus Maleficarum, or Hammer of the Witches, which was used to persecute and kill innocent people throughout medieval Europe.

They'll need to keep their heads down and their wits about them in a Germany ruled by the iron fist of the Inquisition, where anyone who is different is dragged off to horrifying prisons, tortured to confession, and ultimately killed in the worst way imaginable. But it won't be easy to navigate a frightening and brutal time, secure Merlin's book, and make it home without attracting attention.

## Racheal Celatka yunk says

Ashton and Grant are two teenage boys that go to Stanton School for Boys. The two of them have an unusual relationship. They can go from wanting to kiss each other one minute to physically beating each other the next. One fight ended up causing a big fire and destroying all their teacher's artifacts. Their punishment, is they have to go back in time to gather all their teacher's artifacts without changing the past.

For Ashton and Grant, this kept them from getting kicked out of school but going back in history together for these two isn't all that fun and exciting.

The next artifact that is needed back is a book called the Malleus Maleficarum it's Latin and translate to "Hammer of the Witch." A book that had sent many to their deaths claiming that they were witches. Once the boys are transported back in time, the things that they witness have no doubt changed them. Witnessing bodies being already burnt at the stake, listening to innocent people being charged with witchery.

As soon as Ashton gets the book in his hand, the plan falls through and gets Grant captured. Now Ashton's only mission is to get Grant free and keep the book in his possession without being caught himself.

The journey back in time with Ashton and Grant is one that will surely have you wanted to take the next trip with them back in time.

I loved going back in time with these two amazing characters and seeing the witch trails through their eyes. It's a time period that has always fantasized .

Grant and Ash accidentally started a fire while fighting in Professor Ambrosius' office, destroying the history teacher's collection of artifacts. Grant and Ash's punishment is to return back in time to retrieve each of these important objects. After they reacquired the Eye of Ra from King Tutankhamen, Merlin, as Professor Ambrosius is otherwise known, is sending Grant and Ash back to sixteenth-century Germany to collect the Malleus Maleficarum or Hammer of the Witch. This is a book which "purports to be a definitive definition of witchcraft."

The boys arrive in medieval Germany in appropriate clothing and able to speak the language, but with no

idea where the Malleus Maleficarum is or how to retrieve it. What follows is a story of adventure with horrifying and enlightening moments, as Dakota Chase transports her characters and her reader back in time, as she did with The Eye of Ra, the first book in her Repeating History series.

Reckless teenagers Aston and Grant are back with another adventure, and this time they're off to medieval Germany to retrieve a witch hunt/torture manual. Why? Because their stupidity got them banished to the Stanton school for boys, followed by trouble with their history teacher – who turns out to be Merlin (the one of Arthurian fame). Since they caused his collection of artifacts to be destroyed, he is now sending them back in time to retrieve the objects. This time both Aston and Grant tell the story, and it was great fun to find out what Grant thinks.

From that review : After having successfully procured the Eye of Ra from its source, the boy Pharaoh Tut, in ancient Egypt, it now time for their next retrieval. Something far more malevolent. And their experiences will be far different from the luxury and ease into society they had with Tut.

No, with Hammer of the Witch, Dakota Chase has Merlin sends our rambunctious duo back to medieval times and witch hunts. The item they seek for Merlin? The book a means for identifying and punishing witches. Instead of perfumed and painted people on the Nile, Chase gives us the harsh reality of the times in medieval Germany. The plague, the unsanitary conditions, the indentured poor whose servitude gets longer due to the dubious circumstances under which they work...its all there. Add to that the greed of the landowners combined with the religious fervor of Inquisition...and no one is safe from the cry of "witch".
