Jenna Bartow says

rereading the series!!

Kat Irvine says

Yes, Harry is a bit whiny in this book, but It's still amazing!! absolutely sobbed at the end!

Olivia McMullan says

AMAZING!!!!!!!!!!!!!!!!!!!!!! :D

Hans Nijs says

This is, in the emotional aspect, the darkest book of them all.

Harry is really growing up into an adult, but his dark side seems to take over him.

Voldemort has returned and he fears the connection between himself and the Dark Lord.

Again, things happen that you didn't expect.

Not only is Harry emotional confused, but the new teacher DADA is a real bitch (sorry). This makes life at Hogwarts even worse, but then he becomes the leader of a new student group, called Dumbledore's Army.

And things become very interesting....

Monday Ikhide says

I haven't heard of Harry Potter and the order of the Phoenix but I'm really curious of what will happen so I'll see what will happen wrote by Daniella Ikhide age 7, 82 Cornwallis street

Regina says

Even though I'd read this before and recently re-watched the film, I found myself staying up far too late last night (well, into this morning actually) to finish this book because I was enjoying it so much. That said, you can tell that J.K. Rowling is a parent because she has so perfectly captured that "I'm 15, I know everything, I don't have to listen to anyone else" within Harry that I just wanted to reach into the pages and slap him at times. I remembered all the key parts of the book (especially those that made it into the film) but was delighted to be reminded of all kinds of things that I'd forgotten - 'Weasley is our King', the astronomy

examiner being just as distracted as the students, Peeves being given free reign I quite enjoyed myself.

Susie Beesley says

This book makes for uncomfortable reading at the start - Harry is in a very dark place in the beginning, both mentally and physically. Rowling's great storytelling keeps you on board though, and finally, at chapter 10 Harry is on the train to Hogwarts and all seems well... The lighter mood is short-lived. Harry is no longer the school hero, he's viewed with suspicion - an outsider. What 15 year old wouldn't identify with Harry here? The arrival of the wonderful antagonist Professor Umbridge puts you firmly on Harry's side and makes you stay with him until she is banished. The ending is unexpected and difficult to take in. Loose ends are tied and as a reader some questions answered. However some more questions are raised, paving the way for the story to continue of course. The ending is not happy though and you feel rather empty as you finish the book, as you imagine Harry to feel.

A wonderful book but I'm going to give myself a break before reading the next one!

Nina says

I think it was a really good book. It follows the four previous book rather well with one new twist. You really feel how the main characteres have grown from children to small adults, although they are only around 15. There is a lot more puberty-problems, but it still has the same amount of mysteries and humour as always. Once again they face some new problems they think they have to take care of, both on the inside and the outside of the school.

Monika Sri says

The events lead to the death of Sirius and Dumbledore's explanation for it is nt up to the mark..hw come dumledore had failed to warn Harry(though he was proved to be poor at occlumency) about the possiblity of being lured by voldermort is nt at all convincing to me. So I had to restrain my self from giving 5 stars.

Mark Grisham says

[Oh, how I wish Sirius could've lived, or maybe come back at some point, but his character was a broken and fragmented person, it was telling that he accidentally called Harry 'James' in the mo

Samira says

I finally finished all the seven books of HP...and I should say...I would have missed it if I wouldn't have decided to read it...it was awesome...and the saddest part was Sirius dying, but I think as Dumbledore cleared much air by talking to Harry, so now the other things will come along real well.

I read book 6 & 7 when it was released, and saw movie for the other 5 parts, but now, I can see how many

scenes were improvised and so many important scenes were deleted. So now its clear to me.

Katieh says

good book but very long, a great challenge for those who do not enjoy reading so much.

Layla says

Oh my god. So many feelings all over again. I am just gonna crawl in my bed and cry for a couple of years. Sigh.

Sandy *The world could end while I was reading and I would never notice* says

Mudbloods and werewolves, traitors and thieves, suspense, secrets and thrilling action.

An excellent series to begin with, it just keeps on getting better & better!

Vaneesha says

Can we talk about the fact that Sirius hated Grimmauld Place just as much as Harry hated Privet Drive. Yet Dumbledore made both of them remain in a toxic environment for their own "*safety*".

Annanya Pandey says

Harry Potter is attacked by a couple of Dementors with his cousin Dudley. He produces a Patronus charm but is called for hearing at the Ministry of Magic. To top it all up he thinks that Dumbledore along with Hermione and Ron and the some others, even Sirius are hiding something very important from him. Moreover after the Dementor attack, he is locked all the time in his room at the Dursley house.

When the Dursleys are out, Harry is busted out of the house by Lupin, Mad-Eye Moody, Tonks, Kingsley Shacklebolt, Sturgis Podmore and Hestia Jones. They go to the headquarters of the Order Of the Phoenix. It is a group of people who believe that Voldemort is back and are willing to fight against him at the cost of their own lives. He is angry at Ron and Hermione because while he was locked up all day at the Dursleys, they were together having fun.

Harry also has to go for Occlumency classes with his least favourite teacher, Professor Snape. He feels bad about himself because his father and Sirius used to bully Snape for no particular reason. Soon after, he gets a vision that Mr. Weasley was being attacked by a snake. Thanks to Harry some people from the order got there in the nick of time to save him. But he gets to know that this connection between him and Voldemort may be because he was possessed by the Dark Lord.

At Hogwarts, his life is practically ruined by Dolores Umbridge[senior undersecretary to the minister for magic and defense against the dark arts teacher and high inquisitor at Hogwarts]. She bans him from playing Quidditch, gives him detention for any excuse, puts the Inquisitorial Squad[people sided with Dolores] after him. But Harry starts a Dumbledore's Army who secretly practice defense against the dark arts taught by Harry.

They are caught and are punished. But Harry and his friends escape and follow Harry who has had a vision showing that Sirius was being tortured in the Department Of Mysteries. But it turned out that Voldemort had purposely sent Harry a false alarm. This led to a tragic incidence, Sirius's death. Harry is heartbroken but he recovers soon enough and goes back to the Dursleys.

This book exceeds all my expectations. It is outstanding. It is also the fattest book in the series.

Rebecca Saxon says

What I love most about this book is how we experience along with Harry his developing understanding of the wizarding world. In the first book it's much more about the magic of the, well, magical world and his school, which still has some darkness. In the second Harry starts to learn more about wizard history but it's still grounded in Hogwarts history. In the third, his understanding of his family and who shaped his life is expanded. In the fourth, he starts to see beyond the world of Hogwarts and British wizarding to a wizard world beyond that. And in this one, he learns first-hand (ugh, bad inadvertent pun!) about the government of the wizard world. Both the horrifying Professor Umbridge and the Ministry of Magic figure prominently in this as Harry really starts to understand the world he lives in and what the stakes are.

I also love the Dumbledore's Army aspect and the kid's empowering themselves. Plus, Luna Lovegood! Love her!

Imogen says

Re-read for the millionth time September 2016 bc all the students were going back to Hogwarts and I felt like going too.

Namratha says

This is not a review.

This is a trip down memory lane or to be more precise, a leisurely stroll through the Department of Mysteries.

Walk with me, fellow Potterheads.

Moment #1 : '*Ministry of Magic?*' bellowed Uncle Vernon. 'People like you in *government!* Oh, this explains everything, everything, no wonder the country's going to the dogs.'

Moment #2 : She seized Dudley by the shoulders and shook him, as though testing to see whether she could hear his soul rattling around inside him.

Moment #3 : She looked the youngest there; she had a pale heart-shaped face, dark twinkling eyes, and short spiky hair that was a violent shade of violet. 'Wotcher, Harry!'

Moment #4 : *The Headquarters of the Order of the Phoenix may be found at number twelve, Grimmauld Place, London.*

Moment #5 :

Moment #6 :

Moment #7 :

Moment #8 :

Moment #9 : "...oh, for heaven's sake, Sirius, Dumbledore said *no*!"

Moment #10 : The girl gave off an aura of distinct dottiness.

Moment #11 :

Moment #12 : In the Hog's Head

Moment #13 : 'Yeah, the DA's good,' said Ginny. 'Only let's make it stand for Dumbledore's Army, because that's the Ministry's worst fear, isn't it ?'

Moment #14 : 'I'm supporting Gryffindor,' said Luna, pointing unnecessarily at her hat.

Moment #15 : Hagrid's Tale

Moment #16 :

'Well?' Ron said finally, looking up at Harry. 'How was it?'

'Wet,' he said truthfully.

Ron made a noise that might have indicated jubilation or disgust, it was hard to tell.

'Because she was crying,' Harry continued heavily.

'Oh,' said Ron, his smile fading slightly. 'Are you that bad at kissing?'

Moment #17 :

Moment #18 :

Moment #19 : St.Mungo's Hospital

Moment #20 : Christmas on the Closed Ward

His mother tottered away, back up the ward, humming to herself. Neville looked around at the others, his expression defiant, as though daring them to laugh, but Harry did not think he'd ever found anything less funny in his life.

Moment #21 : 'Occlumency, Potter. The magical defence of the mind against external penetration.'

Moment #22 : ...and he wondered, with a feeling of great trepidation, what had happened to make Lord Voldemort the happiest he had been in fourteen years.

Moment #23 :

Moment #24 : The Sneak

Moment #25 :

Moment #26 : Snape's Worst Memory

Moment #27 :

Moment #28 :

Moment #29 :

Moment #30 :

'Give her hell from us, Peeves.'

And Peeves, who Harry had never seen take an order from a student before, swept his belled hat from his head and sprang to a salute as Fred and George wheeled about to tumultous applause from the students below and sped out of the open front doors into the glorious sunset.

Moment #31 : GRAWP

Moment #32 :

Moment #33 :

Moment #34 :

'We were all in the DA together,' said Neville quietly. 'It was all supposed to be about fighting You-Know-Who, wasn't it? And this is teh first chance we've got to do something real - or was that all just a game or something?'

Moment #35 : The Department of Mysteries

'It's - it's got your name on,' said Ron.

Moment #36 :

Moment #37 :

But some part of him realized, even as he fought to break free from Lupin, that Sirius had never kept him waiting before.

Moment #38 : The Only One He Ever Feared

Moment #39 :

And when the creature spoke, it used Harry's mouth, so that in his agony he felt his jaw move *'If death is nothing, Dumbledore, kill the boy...'*

Let the pain stop, thought Harry...let him kill us...end it, Dumbledore...death is nothing compared to this... And I'll see Sirius again.
And as Harry's heart filled with emotion, the creature's coils loosened.

Moment #40 :

Moment #41 : The Lost Prophecy

Moment #42 :

alfie says

It's a good book. Couldd be a great read if it wasn't so unnecasarily long. I agree with other reviewers that you could easily trim the book in half and still keep the all the key bits - it just feels a bit 'rambly' at points.

However, I think this is the first book of the Potter series to have a seriously dark theme throughout. Harry's safety is constantly under threat, Harry's temper and anger seems uncontrollable, and to round it off Professor Umbridge is so nasty and viscious that I actually want to rip out and burn every page that she is mentioned on. JK must be congratulated on her ability to write such a loathsome character.

I have always found the film hard to follow - but as usual the book clears everything up neatly, but still leaves enough questions for me to continue reading the HP series.

I recommend this book to be read a few chapters at a time in between reading other books. The last 100 pages of this book or so are so gripping that you have to read in one go.
