### **Keanna (KeyReadThat) says**

Loved all of the samples of these books, can't wait to read them!

---

### **Gracie says**

It's hard to rate a sampler, but it did get me interested in a number of the books. There's a good chunk of each to read, it was free, and a good variety of authors. I'd already read Divergent, but the rest were new to me.

### **Kath says**

Great sampler. Didn't even get to finish it. I skipped about reading the excerpts that called out to me, and then couldn't rest until I had finished, not only the book to which said excerpts belonged, but all the books in the \*series\* in question.

Thank you, sampler, for introducing me to Tahereh Mafi and Veronica Rossi in particular!

### **Carol Costley says**

This sampler was fantastic. What a brilliant marketing tool. I downloaded this sample for free from Amazon and I have bought and read 7 of the 8 books in the sample. I have gone on to buy the sequels to those books as well. The samples give you just enough that I was hooked. The best hook out of all of them was Shatter Me by Tahereh Mafi. So glad I happened upon this little gem.

### **Carrie Terry says**

Like the concept of this book. It includes more of each book than a kindle sample, so by the end of each book sample you know if you want to purchase and continue reading the book or not. If you like DT books and haven't read all of these yet, I do recommend it. It's free, so it can't hurt. ;)

#### **A good mix**

A good mix of books. Only one from the group I don't plan on reading. I've read two of them already but the

others have officially made my list. And they give you enough of the story to get into the characters and the world.

### **Kelly says**

nice little sampling of different books in the genre, some were better than others, but I did enjoy it and have purchased some of the books previewed and intend to read some of the other ones. overall a great collection if you don't know what you want to read next.

---

### **Julie says**

Thank you. I was downloading sample after sample to decide what next. This gave me great ideas on what I want to read, and what I will skip. I have already finished Divergent, and loved it. The sample is only 5 chapters, this book holds 9, which decided it for me. I am also pretty sure about the last three. This makes spending \$9.99 much easier, and I have more confidence in my enjoyment of the book.

### **Michaela says**

This is the best sampler I have read so far. Only one of these books ended up being something I didn't like.  
Divergent/Delirium/Shatter Me- incredible  
Gone/Partials- pretty good  
Under the Never Sky/Variant- average  
Eve -\_- ugh

Book samplers are the greatest creation ever.

### **Shanna\_redwind says**

Good sampler. I had already read 4 of the books, but the other four went on my tbr list, with three of them ones that I'm really looking forward to. One I probably wouldn't have bothered with without reading the sampler.

### **Julie Davis says**

Free Download. Good amount of chapters each.

- Divergent, Gone, Delirium, Shatter Me - excellent series
- Eve - great
- Will try Variant & Partials
- Sky didn't grab me

Divergent by Veronica Roth, Gone by Michael Grant, Delirium by Lauren Oliver, Shatter Me by Tahereh Mafi, Variant by Robison Wells, Under the Never Sky by Veronica Rossi, Eve by Anna Carey, and Partials by Dan Wells.

### **Grace Valentine says**

I have read Divergent, Under the never sky, Delirium , Gone, Shatter me, Eve. I have found some of my fav. books Here

---

### **Erin says**

Divergent - loved and couldn't put down

Delirium - loved, but not quite as good as Divergent

Gone - Interesting enough...but I don't NEED to read it by any means

Eve - Interesting. There's something there.

Shatter Me - Very interesting and confusing? and one I'd definitely like to read

Under the Never Sky - Another intriguing one I'd be interested in continuing

Variant - Interesting! One to continue!

Partials - Another good one I'd be interested in continuing

Ranking of books to continue that I haven't already finished:

1- Variant

2- Shatter Me

3- Partials

4- Eve

5- Under the Never Sky

6- Gone

### **Tricia says**

I'll rate this e-sampler as a 4, not because I "really like" every book sampled, but because I really like how this enabled me to decide whether or not to read the books in the sample. My status updates reveal my opinions on the individual books.

### **Gabrielle Link says**

I gave this a 5 star, I like all the other book samplers. But not this one, it's name is Variant. It's weird, when I say that it is because it started out weird and ended the same way. But that is just me saying, other then that I really love this sampler and will buy some of them.

And here is what I will buy in this order: 1.Divergent, 2.Delirium, 3.Shatter Me, 4.Under The Never Sky, 5.Partial.
