## From Reader Review Introduction to Audiology for online ebook

### **Bedor Alsalam says**

It really good book to junior audiologist like me

---

### **James Carter says**

*Introduction to Audiology* is an horrible book because it's so technically dry, boring, and seemingly pointless. I found the online resources to be frankly straightforward, clear, and to the point. Everyone in my class has agreed on this.

### **Sarah says**

confusing at times. often i would reread a section numerous times trying to grasp it, then get to class where the teacher would explain it in two seconds and it totally made sense. not sure if that's the book or me, though.

back on the currently reading list. we're using it again this semester...
