## Lessons from a One-Night Stand Piper Rayne

If you're a guy like me, and you find yourself having banged your sexy new boss—the school principal—in the back of your Jeep one drunken night, here's a few takeaways based on my experience...

Lesson One: Always get her FULL name.

Lesson Two: Consider asking what she does for a living.

Lesson Three: Find out why she's moved to town. Get details. Details are crucial.

Lesson Four: Don't alter her bio in front of an auditorium of high school students unless you know she has a sense of humor for that sort of thing.

Lesson Five: If you ignore Lesson Four, apologize instead of flirt when you're sent to the principal's office.

Lesson Six: NEVER sleep with her again.

Lesson Seven: Pay attention to this one—it's the most important of them all.

Don't fall for your one-night stand.

Class dismissed.

Another winner from Piper Rayne!

I loved the family dynamics in the Bailey family! What a great bunch of people. It took a minute for me to warm up to Austin, but I ended up really liking him. And I liked Holly even more :)

This book was everything I love about Piper Rayne books. If you're not already on the bandwagon this is a good place to start. When I first read the blurb for this story I didn't realise it was the kick off for a longer family series. But I am so glad it is.

This book not only was a super sweet romance it also was a great introduction to the family and town and has me so excited and invested in everyone else's story.

Austin was the perfect boyfriend in so many ways that I really loved him but damn did it take him long enough to see what was right in front of his face. And I am really really looking forward to seeing how he deals with all of his siblings falling in love.

Holly was the ideal match for Austin and I enjoyed getting to know her and seeing her realise who was important in her life. I am hoping we are going to see more of her mum and friend going forward.

Buzz wheel was an awesome addition to the story I am looking forward to catching up on future gossip through it. It really makes me wish I lived in a small town with a gossip blog of it's own.

I'm so glad that I had the opportunity to try this new series by Piper Rayne. I didn't love the Blue Collar Brothers Series but when Dani from InkSlinger told me that this one was so much fun yet packed with emotion, I couldn't say no... and did you see that blurb? How could I resist?!

I pretty much fell in love with Austin as soon as he opened his mouth on stage introducing the new interim principal lol He doesn't realize that his hot one-night stand in his Jeep is with none other than his new boss Holly.

There is no denying the chemistry and heat between these characters but when you throw in the one of a kind Bailey family (NINE siblings!), this small town full of quirky characters and teenager antics in school, you will get comedy and drama and romance that will make you smile and make it so hard to put this book down. I LOVED Austin's care of his family given the circumstances, I loved that he always puts them first despite his dreams and goals. But more than that, I loved his care for Holly, how he wants to protect and care for her

and their heat... just WOW!

Just this one little taste of this family dynamic makes me want more and I can't wait to dive into the next book. The Buzz Wheel was freakin hysterical and I can't wait to come back to Lake Starlight, Alaska!

“? ???’? ???’? ?? ?????? ???’ ??????.”

If you’re keeping up with my reviews then you’ll know that I’ve just recently become obsessed with all things Piper Rayne! After devouring this author duo’s Blue Collar Brothers series, I got my hands on an early copy of ?????? ???’? ?? -????? ?????, the first book in a brand new series by the incredibly talented duo. The second I started Austin and Holly’s romance, I. WAS. IN. HEAVEN. Pure bliss and satisfaction flowed through my veins with every turn of the page, leaving nothing but a huge smile on my face at the very end. The Bailey clan is something else. I fell in love with this family straight away and I’m incredibly intrigued by the mystery surrounding this Buzz Wheel blog! Grandma Dori charmed me. She was a scene stealer for sure, but it didn’t take away from the epic romance that builds between our wonderful main characters. Comedic and witty banter, scorching hot chemistry, and a family dynamic that will leave you wanting more...I can tell you right now, this series is going to be a fan favorite for sure!

The Bailey’s are like my new favorite family. They’re crazy and fun and loyal and I want to be a Bailey... preferably by finding myself an Austin because \*SWOON\* I’m addicted to that man!

This is a book (and series) that I’ll be revisiting time and time again!

Lessons from a One-Night Stand was the first book in the Baileys series by Piper Rayne. It was my first book by the authors.

The Baileys were the heart and soul of Lake Starlight, Alaska. There were nine siblings: Austin, Savannah, Brooklyn, Rome (twin), Denver (twin), Juno, Kingston, Phoenix (twin) and Sedona (twin). Austin was the oldest at thirty. Their parents died when he was twenty one and he became the guardian to the seven

youngest. He returned to Lake Starlight, accepted a position at the High School as a coach and teacher and raised his siblings until the youngest were now seniors in high school about to graduate.

The authors set the stage well for the series. I loved the family dynamics and there was promise for a great series. I can't wait to read all of their stories. *Lessons From A One Night Stand* was Austin's story and how can you not love Austin. He was sexy, smart, funny, loyal and gorgeous.

Holly Radcliffe was the temporary High School Principal, covering a maternity leave until the end of the year. She was pretty straight laced, but likable as well. And I loved her best friend Dana, she needed a Bailey brother as well, but I digress.

The storyline was light hearted and fun and I was engaged from the beginning to the end. It also had some life lessons packed into it, providing additional substance and depth. Although the main storyline was fairly predictable, I enjoyed the journey and the stage was set for a successful and entertaining series. Next up is Brooklyn in *Advice From a Jilted Bride*.

### **Ambur says**

I'm always incredibly excited whenever I see that the amazing author duo of Piper and Rayne have something new planned...so when I first heard about their upcoming series, *The Baileys*, centred around nine siblings from a small town in Alaska called Lake Starlight...I was immediately intrigued! This is Piper Rayne's biggest planned series yet and the entire series sounds so fabulous! Now that I've finished the first book, *LESSONS FROM A ONE-NIGHT STAND*, which was all about the oldest Bailey sibling, Austin, I'm even more excited because this book was amazing!!!

When it comes to characters, relationships, and dynamics between characters of any kind, Piper and Rayne are absolute experts! They have a way of crafting a world through their characters and all of their relationships, whether they're romantic, familiar, and filial (just about the friendship), and they always make them extremely well-rounded and never fail to compel me to want to read more. In *LESSONS FROM A ONE-NIGHT STAND* they're at their best! We saw nine different Bailey siblings and we got to see just how different each and every one of them was. I'm so excited to get a story for each of them...and I adore that Piper Rayne decided to focus each story around a well-known romance trope! Austin and Holly's story was clearly centred around the whole mystery one-night stand backfiring trope...and let me tell you it was executed to rom-com perfection!

Austin and Holly themselves were amazing! Austin was a total fox and he was such a wonderful, thoughtful, and generous person. He had me swooning more than once, and I definitely can't wait to see him pop up in the future books. And I loved Holly, too! I loved how strong she was, and I loved that despite her strength she also had a vulnerable side. Together they were even better and I loved their steamy chemistry and I adored how they complemented one another! I also loved seeing how they fit into the Lake Starlight community! There's a certain gossip blog that seems like it's going to be pretty central to this series that I think everyone is going to get a real kick out of...I know I did! I also loved the Bailey matriarch, Grandma Dori! ;D

Overall, I absolutely loved *LESSONS FROM A ONE-NIGHT STAND*! It's an extremely strong start to Piper Rayne's biggest plan series yet, and it has me tremendously excited for what's in store for this series yet! Next up is Brooklyn's story: *ADVICE FROM A JILTED BRIDE*...can't wait! I've always loved Piper

and Rayne's character dynamics the best so the fact that we're going to get to see all of these characters for nine books has me thrilled! If you're a fan of rom-coms, especially if you love intricate companion series that are able to be read as standalones, then I think you'll love this, too...and I definitely think anyone who loves rom-coms in general will absolutely adore Austin and Holly! Highly, highly recommend this one...and I definitely suggest all rom-com fans check out Piper Rayne's backlist, too! ;)

You know how when you find a favorite author and all of a sudden you have run out of everything of theirs to read and you want more. Then wham bam, they have created a new series just in time and even better this one has the potential to be way longer than their past series - this is The Baileys by Piper Rayne. For those that read my reviews, you will know that I am a big fan of the Piper Rayne duo and I consider myself one of their unicorns. I already had an inkling I was going to enjoy this book, and I loved it. From the fact that the Bailey family is nine siblings who resemble the family from Party of Five to the fact that the town has their gossip blog and Gossip girl star whom I have my bets on that it is one of the Bailey sisters - but like Gossip Girl it is not revealed, and we have no clues of the secret identity. The other thing I loved about Lessons from a One Night Stand was that we have a high school setting as the main characters are teachers/principals and the family dynamics of the Baileys. Piper Rayne's family dynamics and humor of The Baileys I found rivaled Penny Reid's Winston Family. This is one book you won't be disappointed with, and I am now looking forward to reading more of the Bailey Siblings tales and the drama/ situations they find themselves in as trouble seems to follow the Baileys whether they encourage it or not.

Piper Rayne delivers the first book in their brand new series, The Baileys, and it did not disappoint! I'm a sucker for a family saga—add in a charming hero and witty heroine, I am sucked in for the long haul! These characters were funny, relatable, and real, making it an addictive page turner I couldn't get enough of! I'm literally so obsessed, I dreamt about them and have a huge book hangover! 5+ Stars from me!

The dynamic duo has done it again with the first book in their brand-new series, The Baileys! Due to my busy schedule these past few months I have sadly missed many of their recent releases, so when I had the opportunity to get my hands on *Lessons from a One-Night Stand*, I jumped at the chance. Let me just tell you that I picked the right time to dive back into a new Piper Rayne book world! This series will center around the Bailey siblings in Lake Starlight, Alaska and I am already so much in love with this family!

Austin Bailey and Holly Radcliffe's story is a fun, charming, and addictively captivating read that had me swooning every step of their journey. I loved the dynamic between these two likable characters and enjoyed all the laughs they brought me. Romantic comedies are my ultimate weaknesses and Piper Rayne always delivers the perfect read! Fans or *unicorns* as many of us like to call ourselves will fall head over heels in love with this storyline and the characters! Trust me it was an incredible read and one of my favorites thus

far!

I cannot wait for the next release in the series because I am so excited for more from this amazing family! Get ready to love the Baileys when you dive into *Lessons from a One-Night Stand!* You are all going to love it!

So much love for Lesson from a One-Night Stand by Piper Rayne!

I loved the storyline, it's well written, highly entertaining and I seriously couldn't put it down.

### **Guilty Pleasures Book Reviews says**

It's been a very long time since I've been excited about a new to me author, but Piper Rayne has drawn me in and I want to shout her name from the rooftops. *Lessons from a One-Night Stand* is the first book in her

new series The Bailey's and if it is indicative of what's to come sign me up and take my money. The book has everything I love about contemporary romance; intriguing characters from the two primary to the supporting cast, an intriguing storyline, enough conflict to keep it interesting but not so much I want to stab someone, steamy sex scenes, and a whole lot of heart.

Good guy heroes are my crack and Austin Bailey defines good guy; leaving his life in California to come home and raise his 7 younger siblings along with his next oldest sister at age 21 has put him on a pedestal in the small town of Lake Starlight, Alaska. Given that his family is the town's largest employer and because he came home and his sister took over running the company their family is revered. But Austin is counting down the days until his youngest siblings graduate from high school and he's put out feelers to find a job coaching at a college in California so he can have a life of his own. First however, he has to deal with the new principal at the high school where he works who also happens to be his one night stand from the weekend before.

Dr. Holly Radcliffe moved to Alaska for one reason and one reason only, to confront her father that left her behind as an infant. Normally very controlled and level headed, Holly accepted a short term assignment with the intention of meeting her father, what she didn't expect is her one night stand to be a teacher at her school or the fact that she is so drawn to him.

Yowzers, the heat rolling off these two was enough to melt all the snow in Alaska and then some. I loved the intensity of their attraction and the situation with the town's gossip blog reporting on their every move, the family issues they were both dealing with, and the big decisions they both had to make. Most of all I appreciated the respect they had for one another, how easily they meshed, and how important they became to one another in a short amount of time.

I don't want to spoil this book for anyone, but I do want to say that it is expertly written with lots of layers. The characters jump into your heart and days later I am still thinking about them. Most of all this is a feel good story packed with a lot of emotion. Do yourself a favor, if you've never read author Piper Rayne, take a chance on this book, I think you'll find the family dynamics intriguing and this romance will leave you satisfied, but anticipating the next book in the series.

Lessons from a One-Night Stand was a fun, sexy, and entertaining standalone romantic comedy and intro to The Baileys series, and I really enjoyed it!

The storyline and characters were wonderful. The plot of Lessons from a One-Night Stand was very enjoyable, and I liked it a lot. GAH!! Lessons From a One-Night Stand was funny, delicious, emotional and so sexy. I enjoyed Holly and Austin so much. It had a fantastic family dynamic and a heat level that could melt the buttons off your kindle. I loved the small-town feel and can't wait for more of the Baileys!

When high school biology teacher and baseball Coach Austin Bailey realizes the new sexy Principal, Holly Radcliffe, not only looks familiar but is his one night-stand from a few nights earlier, the fireworks could not be any more potent between them. But with both of them with one foot out the door (and their connection too strong to be denied,) they are forced to reevaluate what they really want and need in life.

I really enjoyed this story as it was surprisingly emotionally charged. I felt the connection between Holly and Austin immediately and hoped they would be able to see what was right in front of them. I loved that Austin was such a strong and solid alpha with such a devotion to his family. I can't wait for Brooklyn's book and more antics from Lake Starlight! Bravo! 4.5 stars! ~Ratula

JEEEZ!

First, let me state the obvious.

I. Love. All. Things. Piper. Rayne.

Second, Holy--AUSTIN--BAILEY--CRUSH!

I loved everything about Austin and Holly's "friendship" (I call it friendship because whole "We got this" and moving forward with all the hot sex!)

I loved that Austin was man enough to deal with his loss, man enough to take care of his huge family, man enough to give up his dream, man enough that Holly being his boss was NEVER an issue to him, man enough to.....

- - - -NOT SPOILER FREE- - - -

TOTAL F.R.I.E.N.D.S. MOMENT:

GET OFF THE PLANE! Which totally made me swoooooooooon, so hard!

P.S. I'm excited to read more about these CRAZY WILD, but loveable Bailey Family!  
(Side note, I'm probably least excited about anything Phoenix Bailey---ugh that girl)

P.S.S. I was surprised at the next Bailey book being Brooklyn... I'm pretty sure I read on Buzz Wheel it was Savannah (who needs some STRONG ALPHA--HOT MALE in her life!) so, I'm not sure what happened there #FakeNews ;)

Another fantastic series from Piper Rayne! I can't wait for MORE!
