Love at First Spite Alexandra Warren

Love is not on the drink menu.

At least not for Nori Davis as she basks in the single life which includes frequent happy hour visits, lots of alone time in bed with her “favorite things”, and of course being sought after by guys she’s not interested in.

But when she’s caught off-guard by a man who’s a little different than usual - on a mission a little different than usual - she can’t help but to get lost in his seemingly impossible potential no matter how hard she tries to fight it.

Maxwell Watson doesn’t have time for a serious relationship. Between opening a lounge, being the owner of a lounge and... the lounge, there’s just no room for anything beyond it.

Still, when he notices one particular patron who is palpably dissatisfied with his business, going after her for more information isn’t even a question. And when more turns into a whirlwind of energy neither can deny - turns into an encounter that can’t be forgotten - Nori and Maxwell find themselves attempting to navigate what can only be identified as love at first... spite.

Okay. Goodish. Not bad.

I think Nori very easily made some allowances for actions in Maxwell's past that most would indeed perceive to be red flags and her "you can have everyone, why me?" questioning was annoying, but there were some smile-worthy, quirky moments in this run-of-the-mill, urban-ish, sexually tame story.

Great read

That Nori was a piece of work lol idk how Maxwell did it because I would've been chunked the deuces. Their love story was different to see a woman who was scared of commitment and a man who wanted commitment more than anything.

Loved the way Nori and Maxwell met. It was swooning and laughing from the beginning

Nori is kind of a ditz. It can get old but overall it works for her. Maxwell has the patience of Job. I really like Kelvin. He is funny and annoying as a little brother should be

Nori and Mawell's moms going off on each other was wild. And I let it slide when Maxwell didn't defend her that night, but after he begged her to do dinner at his bitchy moms and she went off on Nori again with no back up from him, I was 100% on crazy Nori side. I think the resolution to this issue happened too quick, especially with the turn around with the mom. But whatever

Swooning & Laughing

I should be dizzy from all the swooning over that smooth Maxwell Watson business man extraordinaire!! My face hurts from laughing at his girlfriend Nori. I haven't had this much reading fun in a while. Now don't get it twisted there was some drama in just the right doses without weighing the storyline down. Ms. Warren is on her way as a talented and gifted story-teller. Looking forward to reading more from her!

Good Read

Nice love story written by Alexandra Warren. Nori is funny, smart, quirky, sexy, and complicated all at once. Maxwell is handsome, established, but stiff. Once these 2 meet sparks fly and things heat up, but not without the past being an issue for their future. If you like contemporary romance I definitely recommend this book.

Balanced

Oh my goodness, I so enjoyed reading this book. Maxwell and Nori balanced each other out very well. It gave me plenty of laughs while exploring the topic of love. The parents were a trip. This book is my first book by this author. Look forward to reading more of her work.

This was the first book that I read by this author and I really loved it. It wasn't too over the top, it was just real life and relatable. I'm happy that Nori and Max got their happy ending. I'm also glad Mary tuned bougie heffa Marie came to her senses. Alexandra has a new reader and I'll be diving into the second book right now!

This author is quickly becoming one of my favorites. I love her writing style and the character development which lends to me really liking and becoming invested in the success of the relationships being sought.

Ok this is the first book I have read by Alexandra Warren and boy did she make an impression on me. Nori and Maxwell lol. these two are something else. Nori is does not or will not spare your feelings. she says what's on her mind and does not care if you like or not. Maxwell the one who does the right things most of the time. A pleaser for the most part and wants to make things right. Nori is a patron at Maxwell and his brother Kelvin's lounge and he notices that she is unhappy. Maxwell straps on his cape and off he goes trying

to fix a situation. He was not prepared for meeting Nori, she might be the kryptonite to his Superman persona.

I really enjoy reading this book. I can't wait for upcoming releases.

A quirky, quick love ❤?

This was a great story where we as readers were lucky to experience the quirky, funny and sometimes frustrating love story between Max and Nori! Neither of them were looking or expecting to fall so quickly in love, but they did and it was kismet. Looking forward to reading Kelvin's story.

Great Read!

Max and Nori complemented each other. This was a perfect example of when Opposites attract. Max and Nori's unique personalities attracted them to each other. They knew what each other wanted and need it from each other. But there was one thing that they had in common and that was their sexual need for each other. I thought that was awesome and cute. I like when a couple need and want each other and say what they want and what they need from their partner. I'm glad they worked through their disagreement so they can continue learning each other to build a strong Foundation in their relationship.

Not sure how I felt about this book...I was trying to fall for Maxwell but for some reason he just didn't do it for me. I got that he was fine, rich and successful but the scene where he didn't stand up for Nori left a sour taste for me. Yes, I understood that Marie is his mom but he's a grown azz man who was dating/falling in love with a woman so I felt he should have said something. Nori and her why me out of all of these women plucked my last nerve. On one hand she had the confidence of Miss America and then on the other hand she was like a child.

This book was recommended to me by a book buddy of mines. I love a good romance novel and Love at First Spite did not disappoint. This story read like a comedic romance. The characters were relatable and the added humor was a nice touch. Nori and Maxwell are the true definition of opposites attract, however, their journey was not an easy one. With the past interfering with their future, these two have to fight for their love for one another - if they can admit it to themselves FIRST.
