More Precious Than Silver: 366 Daily Devotional Readings Joni Eareckson Tada

Joni Eareckson Tada, author of the bestselling *Diamonds in the Dust*, turns her attention from precious rock to precious metal in *More Precious Than Silver*, a book of 366 devotional readings. Tada cites Psalm 12:6 as the reason she prefers silver to the more popular gold: "The words of the Lord are flawless, like silver refined in a furnace ...purified seven times." Tada believes that true treasure is not found in the golden glitter of outward appearances, but in the heart of a person who has been in assiduous contact with "the silver of God's Word."

Vicki Redmond says

A daily devotional book that I often reread.

Claire says

My favorite devotional book of all time!

Tracy Hackney says

I am on my second time through this wonderful devotional. I have several other devotionals by Joni Eareckson Tada, and they are all spiritually refreshing to the soul. Mrs. Tada is such a wonderful example of a godly woman who has suffered so much yet with no hint of bitterness, only a sweetness of spirit and an obvious love for her Savior permeate her writings. She encourages and challenges the reader to see the hand of God in all circumstances working all things together for our good and His glory.

Emily Speller says

This was an amazingly helpful devotional which really helped me in my walk with the Lord. I would recommend that you use it alongside another Bible devotional/reading as there is only a verse at the top of each devotion, so use something else as well if you really want to dig into scripture. But this seriously helped and encouraged me so I highly recommend it as a devotional, particularly to anyone going through hard times.

Anna says

I'm glad I did this daily devotional this year. Very good insights and encouragement.

Joyce Oliver stahle says

If you are looking for a great devotional, consider this one. Joni shares her personal struggles and how the Lord has helped her.

Tina Nandi says

A daily devotional that'll humble you...
