What happens when the cute mountain man you made out with in an ice fishing shack turns out to be your brother's best friend?

A whole lot of awkward, that's what.

Maggie's mind is reeling when she discovers the guy she became tangled up with at Marv's Bait & Tackle isn't a stranger like she thought.

The big snag: Sam and Maggie's chemistry is hot enough to melt ice, which makes keeping their secret far more difficult than either expected.

Especially when one of them decides they want this arrangement to be more than just a catch and release.

## From Reader Review Next In Line for online ebook

### Andi Isack says

It's a good and enjoyable story, but if you really ask, I liked the previous book more.

This doesn't mean, Next in line doesn't worth the time to read it. It worth because of Sam and he's way to put always first Maggie's interest. To know how to get under her skin even if he has to "fight" against her "official" boyfriend. But Sam's strategy is gold. Let's say he knows how to catch the gold fish. While I'm at this point, the story gets a lot of ice fishing details. And that's can get a little annoying if you are not into it. But overall the story bring fire on ice, and to start it's enough only a passionate kiss.

Next in line reveal the right reason to dare crossing the line, leave the past behind, and reach the evidence and the better. Embrace the future with the right person beside. The person who knows how to challenge and support you at the same time. And Sam does that and more. The only problem seems to be...his best friend aka Maggie's brother.

But the reward worth the risk.

Maggie is trying to prove something more to her boyfriend than to herself. But that's exactly where Sam does the trick!

They seems opportunities, at the beginning. It's like, never in a lifetime...but you that opportunities always attract. So never say never!

Next, please!

OMG! Who would ever believe that a romance could begin in a smelly old bait shop and end up being one of the best fun-to-read rom-coms that has found its way into my Kindle in a very long time. I never particularly gave much thought to ice fishing before, but one hot ginger-headed guy with a heart of gold certainly proved it can be done. An age difference of 9 years between this couple with the added best friend's little sister trope really ramped up the game and add in the off-the-chart bantering between the two and I was laughing

throughout this gem.

My only real problem with this story was the heroine -- a bit immature and unrealistic in her goal to happy ever after. But I gave her the benefit of the doubt because she was young and a bit spoiled, too.

All in all, a delightful and fun reading experience from a new-to-me author.

Rcvd an ARC at no cost to author.. So I read as soon as I got this book, since I loved the first book in this series. This is Sam's story and his love interest Maggie. I got say did not like Maggie, and I kept hoping that eventually I would, but the end I didn't hate her but still kind of wished that Sam had somebody else. Maggie was dumped by her boyfriend and he had mentioned that she was basic, so to prove him wrong and that he would want her back she runs to where her older brother Miles lives. She decides she is going to be adventurous and ice fishing is the first thing she found. That started as a disaster but Sam came to her rescue and while spending time with him their relationship turned into more. Now Sam is not the type to have a relationship, but there is something about Maggie besides being smoking hot (his thoughts). Why didn't I care for Maggie? well her reasons on why she should improve herself, and the lying, the whole lot of lying. I reminded myself that she was young and that is what saved her from my hatred, I loved reading about Kate and Miles and loved Sam, he was so sweet. I kind of wished that Miles would have given Maggie a hard time since he hated lying so much as we knew from first the story, I think that was all I missed in this book besides that it was still good. Enjoy!

That's why I don't like sequels with different characters yet the same setting, the read was just so unsurprisingly boring.

dnf at 31%; unfortunately, i couldn't get into this book. I don't think the writing was bad, or anything like that. I just really didn't like the main character, Maggie. She was super immature, and pretty ridiculous in my opinion. I personally couldn't get past that and gave up on the book.

I absolutely loved the first book, Wait With Me.

This book is about Miles' friend Sam. Sam is the manager of Tire Depot & nephew of the owner.

The heroine is Miles' sister Maggie. Maggie comes to town to visit her brother. She secretly arrives early to get her story straight about her being dumped by her meh football player boyfriend. He had the nerve to call her basic. Maggie is really bubbly and friendly. I think that he may have meant that she isn't athletic. Which she certainly isn't.

Maggie and Sam have a meet cute near the bait and tackle shop. Sam is there for bait to go ice fishing.

Maggie wants to prove her ex wrong so she aims to try all sorts of sports to show him. Maggie starts with ice fishing. Sam and Maggie have some sparks right off. Just when Sam is a no relationship guy so he's fine with a fling. Maggie is on the same page. She even reminds Sam that she's trying to get her ex back. What a blow to the ego, eh Sam? Oh yeah, no relationships so that shouldn't matter, right?

Miles doesn't know that his sister is in town during this time.

I have no idea why Maggie keeps her break up a secret or why seeing Sam is such a big deal.

Maggie is a little flaky. She is young and it's obvious that she needs to grow up and find herself.

Sam is early 30s. He's about to take over Tire Depot. His uncle is retiring and turning the business over to Sam. He has feelings for Maggie, but she keeps bringing up her ex!

There's some cute lines that play off Maggie's naivete'. A customer at the bait shop calling her a master baiter & she brags like she's been complimented. ;)

This was a cute follow up, but I just love the first book.

4 ice fishing stars! I received an ARC from the author.

"Next in Line" is now LIVE on Amazon & it's KU.

A sexy ginger, bearded male yumminess named Sam. A sassy, fun, woman trying to break out of her old shell named Maggie. We have sexual chemistry from the start and comedy relief around every corner. I

laughed out lot throughout this story and enjoyed every moment.

I've wanted to read *Next in Line* as soon as I knew it was Sam's story! I've enjoyed him in *Wait for Me* so it was obvious I needed to know more.

However I have such a hard time connecting with Maggie! I found her to be so immature, too innocent but you know what? It's also why I ended the book loving her because of her character's growth, because Maggie might not be the usual self-assured you found in books these days but she has a sparkling personality you get attached to. She is funny even ( and especially) when she doesn't know it. She is a young woman still trying to figure out who she really is. She thinks her future is all set but a ginger man will put some doubts in all her fairytale thoughts.

Sam is the nearly new owner of his uncle's tire shop. You'd think all he needs is a woman to share his life but it's not how Sam sees his future. So when some 22 years old woman comes crashing his favorite pastime, he never expect it to shake up his entire life.

**Amy Daws is my unicorn author!** It's official after reading this book, she can write anything she wants and put a smile on my face. For readers of the previous book in the series, you'll be happy to see more of Kate and Miles. There take a big part in here because Miles is Maggie's brother!

Yep you can add forbidden romance to the mix of this cute love story.

*Next in Line* is as funny as the first book in the series was. The banter between Sam and Maggie is crazy good and they are many scenes directly out from a fairytale! I strongly recommend it if you need some dreams to come true.

#### **4 STARS!**

An unexpected meeting in a bait shop turns into a whirlwind romance. *Next in Line* was witty, sassy, funny, and sexy! Add in forbidden and age-gap to the mix and things were bound to get scandalous ?

Sam! I was drawn and completely intrigued by the bearded ginger since meeting him in *Wait With Me* and he did not disappoint. He's 31 and will be taking over his uncle Terry's tire shop soon. You could say he's a little

bit jaded when it comes to love and relationships, so you can only imagine how completely taken back he is by Maggie this 22 year-old spitfire.

Maggie is a college graduate seeking adventure and purpose in her life. She went through a bad break up that's made her doubt herself and how amazing she could be. I did find myself annoyed with her at times and wanted to shake some sense into her.

Sam and Maggie embark on many adventures together and soon the instant chemistry turns into so much more! It was fun watching them interact and seeing how Maggie would look at the world through Sam's eyes. One thing I did not agree with was how they handled the situation with Miles finding out. Just tell the truth people!!

*Next in Line* was a great romcom filled with laughs and sweet moments! Amy Daws proves once again how badass she is and I'm excited for the next book!

*ARC kindly received in exchange for an honest review.*

After Amy released *Wait with Me*, I was hoping to see the other characters in the book get their own stories, and I was excited when it was announced this would become a series.

We've met Sam before, as he works with Miles at Tire Depot, and we have had a brief introduction to Maggie as well, as Miles speaks to her in the first book. I love a good best friends brother/sister book and so when I realised this was Miles little sister and his best friend, I was hell keen to get my hands on this.

At times Maggie annoyed the hell out of me. The main reason for this was because she was too busy worrying about her douchebag of an ex, when she has all the gloriousness of Sam right in front of her. She is a younger character though, so it does fit well that way. I did love the way she was with Sam though, and how she was willing to step out of her comfort zone and try new things, even if it was for the wrong reasons.

Sam is just the best. I loveddddd Sam so much. Can I have him please Amy? I need my own ginger bearded man like him. Hot diggity damn! I loved how he cares so much about his family and friends, and he's always there for everyone else. Whilst I understand why he had his issues holding back with commitment, its so blind that Sam is the kind of man who would be a wonderful partner, and I was waiting for him to wake up to that.

All the adventures that he and Maggie go on together are so fun and there are some sexy, swoony, funny moments which keep the story alive. I don't like how they lied/didn't tell Miles what was going on, especially once Kate worked things out. We all know how the lying went down in book 1. I actually expected more conflict from Miles in the end but it was glossed over a little easier than I was expecting.

All in all though, this was a fun and easy to read book with the fab characters we have learnt to love in Boulder. I can't wait to see what comes next in this series. Lynsey and Dean getting their own books I hope!

PS. I have taken to my friends nickname for this book - Bait with Me. hhehehe.

### **Book Review: 5 Stars**

I love this book so much. I love the humor, the awesome characters, the easy and greatly built romance. I mean, I love it all. It was amazing. But I gotta be honest... When I started reading *Next In Line* I was in heaven, starting a book with the kind of romance that I like: Two strangers who know each other and their story starts there... But then I had a hunch, about who really Maggie was, and I was afraid my good mood would be killed... And then I saw a post from Amy Daws with a SPOILER—*the same author gave me a spoiler*—and I was devastated!! And that's why it took me forever to read this book because I am not very fond of that kinda books anymore—sorry not saying because it'll be a spoiler—but I already liked Sam, and Maggie was funny as hell, a little crazy and delusional, but amazing, so I decided to continue and THANK GOD I didn't give up because that trope wasn't that big in the story and I ended up loooooving this book.

*You're like the great catch of the day that you know could never be topped even if you fished for the rest of your life.*

Anyway... After rambling, I gotta say: NEXT IN LINE IS AMAZING! Period! Read it!! And if you wanna laugh some more, also read *Wait With Me* - read my review here.

200% recommended!

PS: There is BROMANCE in this book!! BROMANCE!! The best thing in the world!!!

Gah!

Every since I met the sexy ginger ninja in Wait With Me, I have been impatiently waiting for Next In Line (or as I have nicknamed it, Bait With Me) and Sam's story.

I was curious as to who would be the lucky lady that got to take down Sam. And what a surprise Maggie turned out to be.

I can't lie, so many times I wanted to slap Maggie with a wet fish.

She has the sexy Sam in front of her, but she she was all about her douchey ex who dumped her. Gah. I was like dude, if you don't want Sam, throw him my way! But this could just be me.

I did adore her sassy mouth though - and it seems Sam does too, in many ways ;)

Also, she was telling fibs to Miles, and we all know how Miles feels about lies. I wanted him to go off a whole lot more for that alone.

I adored Sam and Maggie's little adventures, especially their big adventure of falling for each other.

Kate is such a little trouble maker (in fun ways, not bad ways). It was great seeing her back in the Tire Depot.

Sam is just everything. Loves his family, his friends, his job. Kinda the full package right there in one man. I think I need to go put some holes in my tyres and find my own Sam.

I know I have just finished this book, however I am tapping my foot, already waiting for more.

Don't keep me waiting Ms Daws!
