NOBLE BEGINNINGS (JACK NOBLE #1)

In March of 2002, while the eyes of the world focused on Afghanistan, Jack Noble finds himself on the outskirts of Baghdad, Iraq. A Marine in name only, Jack is on-loan to the CIA. Normally an integral part of the team, he finds that he is nothing more than a security detail in Iraq.

Jack and his partner Bear have a run-in with four CIA special agents over the treatment of an Iraqi family. Within hours Jack and Bear are detained.

All Jack wanted was to finish his enlistment and move on with his life. All he did was intervene and save a family from unwarranted violence at the hands of four CIA agents. But he soon discovers that he did far more than intervene. He has placed himself dead square in the middle of a conspiracy that reaches the highest levels of the U.S. government.

Warriors

The stories kept me going with interest. I found myself trying to anticipate the outcome. Seems I found some new hero's to follow.

Walter Barkalow says

A little over the top but good

This one keeps you guessing. A little over the edge with some of the scenarios. But hey what is a good book for but exciting entertainment

Riquette says

The secret agency

I enjoyed these books very much. The second and third book where really different, and I like the idea of having a secret agency which can assist people in need for help, and be the ones to act for U.S.A. security in the dark!

Barbara Bickford says

This is a great Combo. Two Great Heroes and two great Authors combined. This is a great Intro to Two series that are wonderful read! Enjoy it Santa Mike

When your in the service you go where your told and do the same! Sgt. Jack Noble and his team mate "Bear" are assigned tp a CIA team in Iraq as door guards or "Muscle". Not being involved in the planning or execution of Missions starts to bother them. Then when a mission goes way beyond what is supposed to happen and Jack steps in, with Bears backup and thwarts the CIA's overzealousness the story takes off! You will have a hard time putting the book down. Enjoy yourself with this Very Good Read! Santa Mike

Suzanne Fumarola says**Great read**

I am 78yrs young. And loved them. Kept me up til midnight. Will look for the next one to find. Neil.

Scott Bryson says**Excellent and fast paced**

This is a new series and author to me, I normally don't switch authors often but I did. The first book was a breeze and characters came alive, the second book was great and if you like post military books, I recommend this page flipper

Aracelly says**Hard to put down. Intense and very interesting.**

Yes. Always wonder how these elite groups come about and if they really exist, as many assure me they do.

Susan Moore says**Four very good books for free.**

Two authors give two great books each from their series for this exciting and free four pack of books. I already loved Ryan's Noble character, but Cooper's Cal Stokes character was a pleasant surprise. These are my favorite kind of characters/books to read. And, you can't beat the price.

I love Thor, Vance, Sandford, Patterson, DeMille, and all the other top writers in this genre. But, Ryan and Cooper's prices are much lower for just as good a read. I highly recommend both authors and this set in particular.

Jeri says**Great find!**

My first reads of these two authors, and I will continue reading each author's series. My thanks to each author for likable characters, fast-paced action and compelling and unpredictable stories.
