## **Say You Love Me J.S. Cooper**

Nothingness. Love. The depths of the ocean. The call of the wild. The trees in the forest. The majestic evergreen of the mountain. The brown ridges creating lines that could be seen from the other side of town, hundreds of miles away. The white snow caps teasing me, begging me to come play. Her voice softly calling to me. Death. Life. The gentle sweetness of a first kiss. The breaking of a heart. The depths of my soul. The number of times I've wanted to say sorry. Emptiness. The feeling inside my stomach as I lie in bed thinking, thinking, thinking. Wondering. Loving her more than I've ever thought was possible. Losing her to another. Desperately trying to figure out if I can reclaim her heart. Thinking, thinking, thinking.

She was mine. I was hers. We were us. And I screwed it all up.

Say You Love Me is a novella about Sally and Cody from Four Week Fiance.

## **From Reader Review Say You Love Me for online ebook**

### **Jaime M. says**

Received an ARC for a honest review.

First I have LOVED every one of J.S. Coopers books, and this one was no different. Although I do wish that a little more was done with Cody redeeming himself in the end of the book. One thing that made this book so good was the friendship between Sally and Mila. But overall good book as usual by J.S. Cooper!

---

### **Trista Blair says**

Bad, just bad. I kept expecting this one to get better, but no luck. Cody is an overgrown frat boy who, as far as I can tell, has no job, no scruples and no tact. Sally (the name says it all) is a whiny child that has no self-esteem and lives in a dreamworld. For this story to even remotely turn out right both characters have to be emotional contortionists. The only think about this story that worked was the fact that it ended.

---

### **Tia says**

WHY OH WHY! The 'Hero' if you could call him that, didn't redeem himself. As far as I was concerned he was not much of a hero. More of an insensitive douche bag. At the end of the novel when he confessed his love, all I thought was, WHY?! I didn't feel any emotional comfort from a happy ending, I just sat there thinking, this girl deserved \*SO\* much better than what he was giving. The author failed to give this guy redemption and the heroine was in so much damn pain, caused by douche bag. It just bothered the crap outta me and I guess that's why I gave it three stars. Not because it was a beautiful novel with a HEA, because as far as I'm concerned, it wasn't. I gave it three stars because it made me angry and if an author can make you feel any emotions, it at least deserves three stars.

---

### **Nene says**

#### **Okay Read!**

This was a okay story, it was a little slow for me. The characters did get there HEA but then it ended. I hope it's more to this story are TJ and Mila wedding.

---

### **Viktoria Fladager says**

#### **Poorly written**

Sally is ditzy, annoying and lacks depth.  
Cody is unlovable with no redeeming qualities.  
I never felt any compassion towards the characters.

Writer forgot character names (Cody Brookstone in book description, Cody Walker in the last paragraph).

Poorly written, not engaging. DNR

---

### **AnWi says**

DNF 19%. Just didn't work for me.

---

### **Stacy Hahn says**

Say You Love Me will keep you entertained and engrossed the entire book. This is Sally and Cody's story. We First met them in Four Week Fiancé as Mila and TJ's best friends. Mila is Cody's sister and Sally's BFF. They have been friends forever and Sally has been in love with Cody for just as long. Cody is a player. He is sexy, hot and girls fall for him. Cody doesn't do love and relationships, so he isn't sure what to do with the things he feels for Sally. I had so many feelings when I read this book. At times I wanted to cry for Sally because unrequited love is an awful feeling. Plus Cody gave so many mixed signals. I about blew a gasket several times for how Cody acted! There were times I'd laugh, times I'd cry, times I scream and times I'd swoon and fan myself! So buckle up and get ready. You won't know how this is going to turn out until the very end.

---

### **Cosalyn says**

This was just...I have never seen a woman this weak. Where was her backbone? Was she born without one? I could not even for one second imagine being so consumed by a man that I would forget about my dignity and self respect. He's a jerk. And she was just stupid.

---

### **Carol says**

#### **Say You Love Me**

Wow, intense, emotional, heartbreaker, such a good story, Sally and Mila have been best friends forever, Mila's brother Cody, has been Sally's crush forever. She has grown to love him, but he still sees her as his sisters best friend, a line he cannot cross, although he certainly would like too. The feelings are mutual, the flirting, the banter, yet he doesn't think she has those feelings, and vise/ versa, so heartbreakng!!! This is a must read, great story, broken hearts♥?!

---

## **Chrissy says**

Finally we get Cody and Sally's story!

If you've read Four Week Fiance then you know Cody as Mila's brother and Sally as her best friend. If you haven't read that book, that's fine, as these are secondary characters that are finally getting their story!

Sally has been in love with Cody for as long as she can remember, but he's never seen her as anything other than his sisters best friend. When Sally and Mila concoct a plan to make Cody see what he's missing, Sally is hesitant, but agrees with Mila's idea and things definitely get interesting.

Cody and Sally end up becoming really good friends, and Cody relies on Sally more than he ever thought, but he's dense and doesn't see past her being his friend, and what is really happening. Cody is at times bone-headed and dumb, and says some things that make me want to slap him, and cry for Sally. Sally on the other hand is a great character, but at times way too hung up on Cody and not seeing the other guy right in front of her. Don't get me wrong, I was rooting for these two since I met them in Mila and TJ's story, but I was at times like "Sally find someone else who will treat your right!"

Things definitely get interesting between Sally and Cody, as well as pretty hot. Every time I thought things were finally going to work out for these two and they would get on the same page, something happens and it's like one step forward, three steps back. Sally knows what she wants, but Cody thinks they are just friends and doesn't realize until it's too late that it's definitely more than that.

I must say, watching Cody finally come to the realization about how he truly felt about Sally was beautiful. I loved being inside of his head, even if it was confusing and frustrating at times, it helped see what he saw and didn't see. His revelation and the way he goes about making things better is beautiful and made me cry tears of joy.

Sally and Cody have a rough time in this book, but when things are good, they are good, but when they are bad, it's heartbreaking. I really enjoyed their story, and felt all the emotions both of them were going through, I just wish we would have had an epilogue, or something more than how this book ended.

Say You Love Me is perfect for readers who enjoyed Four Week Fiance, or for those who are wanting a friends to lovers romance with a ton of angst!

## **Anny hernandez says**

I was provided a copy of the book by the author for an honest review.

Wow I have to say that from all the books that I have read of J.S. Cooper this is hands down my favorite. I just finish reading this book and I did not wanted to put the book down, this book had me on an emotional roller coaster. Their where parts that it got me angry, laugh, and cried but I love every single minute of it. I am going to tried and keep this short since I don't want to give anything away.

If you had read (Four Week Fiance ) than you had met Cody and Sally, as Cody being Mila brother and Sally her best friend. This is finally their story.

Sally had always had a crush on Cody when she was little but that crush turned out into her falling in love with Cody... Cody always seen Sally as his sister best friend he knew she had a crush on him but he never paid attention to it, until now after Mila and TJ got together Cody and Sally where feeling a little left out, but Mila knew how Sally felt for her brother and she came out with a crazy idea. For Sally to become Cody friend and that Friendship to turn into best friend and then more, the more time that Sally and Cody started to spend together the more Sally felt for him. But Cody started to have feelings that he never knew they existed for Sally and he was afraid of it. But when Sally decided to go on a date with Cody and Sally where not expecting was for their world to turn up side down.

I have to say that I love the way how Sally and Cody are with each other, I love it how Cody started to discover those feelings that he have for Sally, even though he made me mad some time. I love how Sally is how she know what she feels and what she want she made me cried sometime, and what can I say about the Sex Scene are Hot.

I really love and enjoy reading this book, Author J.S. Cooper THANK YOU Again for giving me the chance to read and review this awesome, amazing book and for falling in love with these awesome characters love them.

---

### **Michelle Picarello says**

The main character was crazy and completely unlikable!

---

### **Kimberly Givan says**

\*\*\*\*\*ARC given for honest review\*\*\*\*\*

Sally is still mooning over Mila's brother Cody. She's a bit depressing the way she obsesses over him. She kept insisting her life is over if she can't have him?! That pointed to some serious mental issues there, perhaps depression, perhaps more. I just couldn't grasp how a woman her age could be so emotionally unstable over a man. Sure Mila was a little nutty over TJ, but not to this degree.

Cody, well he is just a clueless jerk. He wants his cake but nothing more. He led Sally on a few times to many, but the final straw was his wanting her after she had found someone else. Why not let her move on from him and get herself together? He knew he didn't want what she wanted.

I can honestly say I was semi proud of her when she finally stood up for herself. It didn't last nearly long enough, but at least it was a turn in the right direction.

Mila, what kind of friend was she being?! She knew her brother was out screwing around still, even after his and Sally's near romp. Yet she was telling Sally to not find someone else?

---

### **Kirsty says**

This was just too desperate for me. I should have 'DNF'd it but I'm too stubborn not to finish a book.

---

**Bernmoll says**

Why did I bother finishing this book when the characters were already annoying me 20% into the book?? I normally enjoy JS Coopers books and didn't enjoy this one at all. All the text of their inner dialogue just kept dragging on and on. I felt that the story line was dull and it was so much longer than it should've been. Anyway, thumbs down for this one.
