**Sh\*t Girls Say** Kyle Humphrey , Graydon Sheppard

*"I've said 90% of the things on Sh\*t Girls Say."*

**-Every Girl Ever**

"It's the new best thing. It may be our new favorite thing."

—*Perez Hilton*

"In the age of quinoa gluten-free iced coffee sashimi hot yoga, thank God we have the 'girls' to keep sh\*t real. But don't tell them I said that. They'll just totally pretend they said it. They're so jealous of me."

—*Stacy London, What Not to Wear*

"This book on my bedside table makes me look like a reader."

—*Ali Adler, cocreator of Glee*

"As a girl who says a lot of sh\*t, I can honestly say I die for this book."

—*Abby Elliott, Saturday Night Live cast member*

# From Reader Review Sh\*t Girls Say for online ebook

## Michael Marsden says

While this may make a funny youtube video, it does not make a funny book. Some of the pictures are humorous, but the video does not translate well to a humor book. It's literally just Sh\*t Girls Say. Without the over-the-top acting it falls flat. If you see it in a store (like I did) flip through it, but don't buy it by any means.

---

## Simon says

I was in Rome, Italy browsing the English section of a bookstore and I say this, reminded me of the popular youtube videos, so I gave it a read, and it was super quick to get through the whole thing. It's a coffee table book, not a novel or anything.

Humorous for sure, but now a touchy subject because everyone is so sensitive.

---

## Lauren says

I figure this is suppose to be a humorous book. However, I do not see the comedy in it. I have not seen the YouTube videos either so that may help in understanding this book. I mean yes, girls do say these phrases, and so do guys. I've listened to enough in my lifetime were guys say these lines as well. So again, I don't really see the humor in this.

---

## jerica says

This is a coffee table book that you can finish in five minutes. I found it hilarious and I love the artistic direction/concepts the authors made use of for the photographs the book. The book is made up of photos with 'Shit Girls Say' incorporated into each piece. Each photo is either witty (ie 'I like a guy to smell like a guy, you know' superimposed into a tube of deodorant) or will make you smile---and that can go two ways, from the ultimately silly to something more wistful and raw as they delve into little nuances girls often say to address insecurity without saying anything outright.

I read an epub version, and as a girl and photographer, I would love a hard copy of this displayed in my future place.

---

## Brittany Sanford says

I totally read this book in the store. Does that make me a terrible person? Or fiscally responsible?

Anyhow, I enjoyed this artistic retro 40-page [I mean 96 page] full color booklet of the things that (some) girls say to their friends, and mates. It is split into several categories: love, friendship, fashion, and insecurities.

Yikes! I myself, have said some of this "Sh\*t" before.

It's a funny book that I found in the young reader's section near Judy Bloom, Harry Potter, and Young Feminine Health. Weird placement. What about the humor section?

Novelty item! It might make a nice gag gift to a girl friend who tends to rattle off these lines or to the girl who makes fun of 'that type of girl'.

---

### **Laura says**

Sh\*t Girls Say is based off the viral youtube videos and also, lets face it, what most of the female population say in everyday conversations. The book is broken into 5 sections that ranges from Friends & Fashion to Emotions and Insecurities.

This short book will definitely give you a good laugh and bring you down memory lane to a time when you or even a friend of yours used some of the quotes in this book.

Favourite Quotes:

"Where did i park."

"Can i steal one of your fries."

"Was i super annoying last night?"

"Could you do me a huge favour?"

---

### **Maddy Merritt says**

I loved Kyle Humphrey and Graydon Sheppard's youtube videos. They were absolutely hilarious. Once I found out they had a book too, I knew I had to read it. I will admit I have probably said every line in that book. The creativity in this book is amazing. I love that they took the time to place and edit every one of the pictures according to the lines. The only part about this book I didn't like was that it was so short. It didn't take me long at all to finish. I would recommend this book to any girl. They would probably agree with most of the things in this book.

---

### **Erika Dale says**

**Hmm**

Short book but a bit funny at moments. Glad it was only borrowed though, ok book over all I guess.

---

## **Chihoe Ho says**

It was a fun book to quickly flip through, even if it is a rehash of their popular YouTube videos. The pictures that went along with each line were creatively apt, and watching the video of how the props were made and photographed made me all the more impressed with creators Kyle Humphrey and Graydon Sheppard.

---

## **Minna says**

I think this is one of those things that just does not translate well to book-format. Sorry. Without the acting and the voices it just wasn't as funny.

Plus I will never understand why "What are you doing this weekend" is so hilarious, as I have heard practically every female person I've ever met and more than half of the males ask this. Someone please explain this one to me? Anyways. I'll stick with the videos, thanks.

---

## **kayt says**

This book is hilarious and most of the things in here are very relatable. and totally true. The thing is, is that it is a picture book. They put the words in a photograph and it makes the book *so* much shorter. The other thing is how short it is. You can read this book in about 10-15 minutes and then it's done. It is probably not worth buying, but it is very entertaining if you see it at the book store or library. Just take a few minutes to pick it up and look at all the things they've put in this book. Overall, I thought it was very well done and quite funny!

---

## **Morgan says**

I just saw this when looking through the shelves at The Book Thing today and picked it up on a whim. Basically because why not?

The idea and humor and everything don't really translate to this format at all, so two stars is a little generous. Maybe more of a 1.5?

Some things just are meant to be in video format or the subject of short tweets.

---

## **Kayla says**

I was excited when I found out there would be a Sh\*t Girls Say book but was curious as to how it would be pulled off. Would it just be a bunch of pages with text on them? Would it be screen caps from videos? My

curiosity only fueled me to pre-order sooner. Today I got to reading and was really impressed with the photographs in it. Nearly all of the pictures clearly illustrate the text and many caused me to start laughing. Overall it was a very enjoyable read and something I'll be passing around to friends soon.

---

### **Mari?ina says**

A perfect example of a good idea gone bad..

The whole project was really smart but the photoshoot lacked of professionalism..

I get why the model is a simple hipsterish girl with a bit too much of facial expressions for the camera and not so photogenic but it just didn't work for me..

Some of the pics were great.. But most of them had many issues..

Bottom line it's an intersting piece of coffee table books only poorly executed..

### **THOUGHTS ABOUT THE BOOK**

- I can't stress it enough i loved the idea..
  - It had a retro aspect..
  - Some of the chapters were random..
- 

### **Katelynn says**

Picked this book up at my library for some fun and simple reading. I love the youtube videos and this book was sooooo cuuuteee! It is cery true that girls say these things in fact I have caught myself saying them numerous times. This is for anyone who just wants to quickly flip through some simple and funny pictures that will give you a little giggle and a smile on your lips.
