## **Stupid Cupid: A Laugh Out Loud Romantic Comedy** Sharon Karaa

Annabelle Pearson was in love. For three years, she'd worshipped the sexy but aloof Nicholas Nattrass from afar, wistfully dreaming of a time when he'd love her back, or at the very least notice she existed. All that was about to change, however, when she starts seeing things that she shouldn't, things that couldn't possibly exist, like the Grim Reaper and the Tooth Fairy, for example. The last straw comes when she spots Cupid, about to shoot his arrow at her beloved, and in a desperate bid to save her dream, she wallops him one with her handbag. Dealing Cupid an almost fatal blow means someone has to take his place, and that someone is her! Will she complete her mission and save Cupid's life? And will she manage to win the love of Nicholas Nattrass, or would the esteemed "Doctor Love" have her committed to an insane asylum?

# **From Reader Review Stupid Cupid: A Laugh Out Loud Romantic Comedy for online ebook**

## **PJ Lea says**

Incredibly funny tale.

I loved the crazy characters centered around the nonexistent romantic life of Annabelle, all with quirks of their own. The strange Dr Love, the magical creatures, and Annabelle's coworkers made it all the more fun and confusing, but in a good way.

The story was exciting and often laugh out loud funny. So many disasters occur that I felt really sorry for our heroine, but things just had to turn out right before she went totally crazy.

I'm excited to find out that it's the first in a series!

---

## **Tanella says**

### **Very sweet romance**

A funny and sweet romance featuring a slightly obsessive woman with a ridiculously long crush on a colleague from afar. When forced to play Cupid she discovers that the unrequited love was for the best when she finds herself.

A clean story for the most part. A little cursing but nothing major. And there is a happily ever after.

I will continue with the series.

## **mrs e mcmillan says**

### **Loved it**

Laugh out loud funny. Could not put it down . Crazy madness and unexpected chaos. Brilliant. The pole dance part, my god nearly peed myself.

---

## **Phil Price says**

I thought I'd give this book a go as it was by an Indie author and I fancied a change in genre. It tells the story of a hopeless young lady who is in love with Mr Unobtainable. The kind of story you've seen before. A would be office romance. Throw in some paranormal shenanigans and all of a sudden it's refreshingly different. If this was a chick flick movie it would get four stars.

What's sets it apart though is the way it's written. The author makes this story many things. Hilarious, cringeworthy, painful, sad, and warm to name but a few. It's superbly done. Reading how she tortures poor Annabelle is fabulous. All the other characters are not just there to beef up the word count. They are all memorable. I won't divulge too much though.

All I can say is, read this book. You will not be disappointed. In fact you'll love it.

Fabulous book

#### **Didn't read all of it**

Couldn't even get through the first chapter. After the first page, I was fairly sure, I didn't want to read further. In fairness I tried, it did not get better. I tried to read this, though not thrilled with the first of the author's book I read.

I won't even try to finish it.

It'd suppose to be a romantic comedy, claims it was laugh out loud funny. Well, not to me.

If you enjoy curse words and sexual content this is the book for you.

I, personally, don't think you have to have the "f" word & blatant sexual content in any book to be "a romance" . Actually, I like the less is more approach, the reader should be allowed to use our imagination, not have sex & the like shoved down our throats..

I will not be reading the third book of this author that I purchased. I'm thankful she graciously sent a gift card with which to purchase the books for reviews.. If I had used my own money to do so I would be demanding it back.

If nothing else by buying these books, it's made me aware of what author to not read. It's sad that any author uses curse words sex to sell a romance book. This, in my opinion, is not romance. There is a line between the two.

I am kindly suggesting the author watch old 1940's era romance movies, preferably with Cary Grant to give her a better knowledge of romance, verses whatever more current ones she's watching ( if so) for inspiration.

I am disappointed that this felt like some sort of cheap sex book, when the author displays some talent in articulating the personalities of the characters, grammar and etc.

### **Stacy says**

#### **Too much fun!**

I chose a five star rating because, besides being a fan of Sharon Karaa, this is a really fun book! I liked Bella and the group of people she works with, and those she works with on the side, pink nappies and all.

I suggest those who enjoy a fun, slightly paranormal comedy, will enjoy this book. Myself, I want to hang out with the Grim Reaper.

Thank you, Sharon, for another fun book that is great for an evening of laughter, love and goes well with a cup of hot cocoa.

### **Darrell says**

#### **Funny read**

Funny read with a crazy concept that made a cute story , this would make a fun movie to see

## Cyndy Richard says

Cupid? Who would have thought that a timid woman like Annabelle would end up fighting for her true love? I really enjoyed this book; I had a hard time at first getting into it. It starts out a little slow but picks up. The main character seems to have a lot on her plate all at one time. When she starts to see beings that not one else can see things start to heat up. She goes to see a doctor for help but finds that doctor not to be a normal doctor. He seems to be very infatuated with her and always is there to help her. Between the men, ghost, Grim Reaper, Cupids and Dr. Love, Annabelle has herself in a mess. I would suggest this book to anyone.

## Karen says

What an unexpectedly delightful read this turned out to be! Thanks to life distractions it took a little while to really pick up for me, but when it did I didn't want to put it down until it was done. I almost pulled my phone out of my bag at church to sneak a couple of pages in during announcements. (I didn't... but I was tempted!) Tons of laugh-out-loud moments and a sweet story. I'm definitely going to be reading more from Karaa!

## Dianne says

See love, hero worship and Cupid through tear-filled eyes as Sharon Karaa sends us careening through the disaster that is Annabelle's love life. No, no, no, those aren't tears of sadness, they are tears from laughing so hard as Annabelle lusts after her boss and the man she has decided is her soul mate. She is determined to make him love her, at any cost. Maybe she should first be able to talk to him or manage not to do clumsy things in front of him? This has been going on for three years, but everything changed the night she put on "The Ring."

Annabelle suddenly sees ghosts, magical beings, fairytale beings and, of all things, little Cupids, yes, plural and they are NOT the Cupid we think of. So, either Annabelle is going crazy or something magical is going on. Are the Cupids there to help her win Nicholas' heart? If so, they have a strange way of showing it. Follow Annabelle, (if you can keep up), through the maze that is her life as she desperately wants Nicholas to be her true love. It would only take one arrow, right? But noooooo, these little Cupids have a mission for Annabelle to complete, let the fun begin!

**Stupid Cupid** by Sharon Karaa is to a dreary day what sunshine is in the aftermath of rain, refreshing, bright and a welcomed distraction from, well, anything! I don't think a page went by that I didn't find something to love about this light-hearted fantasy romance. Annabelle is smarter than she gives herself credit for and watching her get out of dilemmas is pure creative genius! I think it's fair to say, Annabelle has placed herself under the sign of Murphy's Law, thanks to Sharon Karaa's comedic pen! Definitely a quick read that never gets boring, from the quirky characters to each scene that feels too unbelievable NOT to be real! Ms. Karaa knows how to haul her readers in and keep them until that very last page, making the journey almost as good as going to Disney!

I received this copy from Sharon Karaa in exchange for my honest review and a lot of chuckles!

### **Heather Richards says**

This usually isn't the type of book I read, but i needed a cleanser. It surprised myself how much I enjoyed it. The only reason i gave it a four is because I wanted a little more and the ending was little disappointing..

---

### **Laura says**

A wonderful story that kept me laughing the entire time! Looking forward to more of Sharon Karaa on Audible!

---

### **Pearl says**

#### **Wonderfully funny!**

Wonderful book! Its a must read and totally funny! There should be other books wrote for the other girls! Terrific!

---

### **Michael Golvach says**

"Stupid Cupid" wasn't what I expected from the Romance, or even Paranormal Romance, genre. That's not to say that it didn't stick to the rules. It was actually much better than I'd expected. The plot was fast moving and kept me interested throughout. I also really appreciated the fact that the heroine (whose story I can't really go into much detail about, without ruining this book for everyone) didn't just follow the familiar path. There was a lot of externalisation of the internal, as well as introspection (you'll know the difference when you check this out), that brought a depth to the core feeling of the book that I don't often come across in standard romance. The inner journey made the outer journey more solid and added dimension to the main character, to the point that I really felt as though I were experiencing her story on a much deeper level than purely plot. I'll be reminiscing about this book for a while, I think. It was filled with good humour, a sense of fun and, above all, it was surprisingly touching. I enjoyed this book very much and would recommend it to readers looking to dip their toes in the romance pool. I think it appeals to a greater audience than its genre, which is an impressive feat for the author. The only reason I didn't finish it in one go was so that I could do the work I have to do to pay the bills. I enjoyed it that much.

## **Bernie says**

### **Stupid Cupid review**

Stupid Cupid is the first romantic comedy book in The Silver Ring series written by author Sharon Karaa. I didn't think that I would finish it at first, but I'm glad that I did. It's different.
