## **From Reader Review The Beginner's Bible Come Celebrate Easter Sticker and Activity Book for online ebook**

### **Ashley says**

Since Easter is just around the corner, I picked up The Beginner's Bible Come Celebrate Easter Sticker and Activity Book for my two year old son. It's a very quick read and is filled with stickers and other fun activities. My son is at an age, right now, in which he loves to put stickers on absolutely everything.

I received a complimentary copy of this book from BookLook Bloggers, in exchange for an honest review.

### **Cassandra says**

Just in time for Easter my family will have a great activity book. I was able to go through it and can not wait for the kids to receive it on Easter morning. The book is small and can be finished super fast depending on the age and skill level of your child. Some of my children will probably try and keep the stickers without using the book for their own collection.
