Main character Rachel has a one night stand in Rome and her "best friend" Kit uses it to blackmail her. Mediocre writing but the story was a real page turner. Easy to read but compelling. May try this author again.

Suspense / Mystery

Wow. The Rome Affair is definitely a book I'll remember in five years.

You like surprises -- way unexpected surprises -- in your suspense thrillers? Read this book! Remember to breathe!

Rachel's got a charmed life with a handsome, very successful husband, a surgeon. They've seemingly got it all -- until Nick confesses to an affair. The couple slowly rebuild their trust and it looks like things are going to be ok.

Rachel's trip to Rome with her longtime friend, Kit is the beginning of a strange change in the women's friendship. No spoilers ... but Rachel's life is turned upside down by mysterious events.

I read the first 300 pages in one sitting till I HAD to get to sleep! Next day I picked up as soon as I could (neglecting my plans for the day).

Amazing, simply superb writing, plot, characters. This totally exceeds the very good romantic suspense books I've been reading, as did the author's "The Good Liar", the best of the romantic suspense books I've ever read (light on the romance).

Laura's The Night I Got Lucky is similarly a definite cut above the normal "chick lit" books. I'm happy to see many older books available, as well as an upcoming 6/1/09 MIRA release, Red Hot Lies -- now on my June buy list.

Rachel Blakely lives a truly charmed life. She is a successful architectural software salesperson, married to an equally successful plastic surgeon on the fast track for promotion. Their life together seems blessed - until Rachel learns that Nick was unfaithful to her. Understandably shattered by this knowledge, Rachel is hurt and angered by Nick's betrayal.

However, over time, Rachel is committed to giving her marriage a second chance. Then a business trip to

sun-drenched Rome with her best girlfriend Kit leads to a passionate night with a stranger - a one-night stand meant to signify the end of a painful chapter in her life.

Rachel returns home determined to put the past behind her and start fresh. At first, life seems golden again. Nick is more loving than ever, and following his promotion to senior partner in a prestigious plastic surgery practice, the couple is welcomed into Chicago high society - where beautiful people live beautiful lives. But every golden life hides its dark side...that sends Rachel's life spiraling into a nightmare.

It's certainly clear everyone is guilty of something. But whose secrets will lead to murder?

I absolutely loved this book! In my opinion, it was a beautifully written book with a completely engrossing plot. I was captured from the first page and found the story to be filled with gripping cliffhangers that held my attention right to the end. I give this book an A+! The Rome Affair by Laura Caldwell was the first book that I've ever read by this author, but it most certainly will not be the last.

My Armchair Interviews review:

Laura Caldwell has done it again! This fast paced, edge of your seat thriller is riveting until the very end! Rachel and Nick Blakely are an up and coming high society couple with their share of troubles. Struggling to forgive him for an affair, Rachel falls into an affair of her own while on a business trip in Rome. This one night of passion is the beginning of a complete unraveling of Rachel's life. With twists and turns throughout, this novel can't be put down.

The Rome Affair is a tightly woven psychological mystery. How much can a marriage endure? What secrets should be kept only between friends? How far will you go to hide your own secrets? This novel explores all these questions and more, keeping you reading until the very last page. My only concern is that the ending, while exciting, can possibly be surmised based on the teasers on the back of the book cover. Even guessing the ending, however, doesn't dampen the thrill ride of this novel. Laura Caldwell has successfully stepped out of her usual "chicklit" genre and secured a place for herself in the thrillers.

Lesley says

almost 4 stars but took 100 pages for the thrill to set in. what if I gave up!! but since I didn't it got better and decent mystery.

Stephanie ((Strazzybooks)) says

I found this at a library book sale years ago and picked it up recently for Rome...turns out that was only like 15 pages of the book and the rest was a Lifetime movie. It wasn't anything new, but it was an entertaining way to spend an evening.

Marti says

this is a book that I was reading on the stationary bike, and since i have spent a lot of time there, it is finished. though the title makes it sound like a romance book, it really isn't. it is about friendship and betrayal, with a murder. the characters are not tremendously sympathetic, but the circumstances are quite interesting.

Laura says

I picked this book up at a used bookstore for \$0.50, so I figured it was worth a shot.

The first, probably, 1/3 of the book was enticing and I didn't want to put it down. After that, it was rather predictable. The plot rather shallow.

Was it life changing? Certainly not. But it was worth the \$0.50 I spent on it.

Sara says

Rachel and her pal Kit head off to Rome for a long fun weekend of relaxation and fun; however, when an affair is revealed relationships will be torn and lives will start to unravel. Written in romance/suspense style, this book was fast paced. I had a hard time getting to like the characters. Rachel is the main character; she has a good job a great husband and a pretty darn great life. Kit is the opposite of Rachel; she's the poor single friend whose career hasn't ever taken off. Kit envies all that Rachel has and Rachel is somewhat oblivious until Kit starts blackmailing her for "The Rome Affair." There are some twists and turns but nothing that Patterson fans couldn't foresee.

The beginning of the book was good, two gals heading off to Rome for a fun adventure. But what later happens was all too familiar, this so reminded me of Dianna Diamond's novels. The big plus was that this was an easy read—definitely good for the beach or vacation.

Ruth Soz says

I wavered between giving this book 3 or 4 stars. I think I would have enjoyed it more about five years ago, when I was more into suspense. But I did like that it takes place in a city I know; Chicago. And it is a very easy read that was hard to put down because I wanted to know what was going to happen next.

Karen Bartlett says

What a pleasantly surprising \$2 Op-shop find this one was.

Attracted by the title and cover (as I so often am) I was initially disappointed that the Italian action was relatively short-lived, but the rest of this story then took off and kept my interest.

Rachel's husband Nick had a brief affair, but she is determined to put it behind them and move on. A business trip takes her to Rome, with her out-of-work-actress friend Kit, and she unexpectedly spends one brief but memorable night with a stranger there.... so now they're even, right?? Returning home, Kit's mum needs life-saving medical treatment, which she cannot afford, so she turns to Rachel for financial help. Rachel gives her the money, but Kit's behaviour becomes more and more strange, demanding more money and threatening to expose Rachel's secret to Nick.

But it seems everyone is hiding something... and the struggle to keep the secrets ends in murder... and a surprising revelation....

A good little thriller :-)

S says

This was a quick airplane read - definitely "chick lit" as stated on the back cover. I enjoyed the story even though I figured out the twist halfway through the book.

Erica says

This was an ok read, grabbed my attention. Had an interesting twist, but the characters are not very likable. I hated the ending, I felt like the author just quickly tried to wrap things up and everyone just walked away with no punishment. The type is spaced so it's a quick read.

Lorraine Evanoff says

playing with fire, the moth comes too close to the flame.

This story starts like a steamy romance but then it turns into a psychological thriller. We can relate to the couple and their marriage woes. But then, through Laura Caldwell's gripping narrative, we get too close and start to wonder how easy it could be to fall into the same trap and have our lives turned upside down in an instant. I'm looking forward to reading more from Caldwell!

Jane Stewart says

Blackmail, stalking and other unfortunate events happen to a successful couple after they do some dumb things.

STORY BRIEF:

Nick's career was taking off with promotions and prestige as a surgeon. He had an affair which he admitted to his wife Rachel. They seem to have gotten past it and are moving forward with their life. Rachel is on a business trip to Rome and can't reach her husband. She fears he may be cheating on her again, so she has a one-night affair herself. She doesn't tell her husband which provides blackmailing opportunities for a

psycho. Rachel lives in fear as the psycho destroys their lives.

REVIEWER'S OPINION:

The first book I read by Laura Caldwell was a romantic suspense thriller which was fabulous, "The Good Liar." "The Rome Affair" was a different genre, psychological suspense thriller. I was let down because I didn't like the characters. I couldn't sympathize with them. There was no romantic relationship to pull me in emotionally. I felt some negative emotions (stress and fear), but I didn't feel any positive emotions. Two movies came to mind while I was reading this book: Fatal Attraction (Michael Douglas and Glenn Close) and Pacific Heights (Melanie Griffith and Michael Keaton). Lives of good people are ruined because of a psycho latching onto them. The psychos in the movies and this book were all different, but the disastrous effects and fears were similar. This book is about the danger, dread and damage from having an affair and keeping it secret.

I might have liked more showing and experiencing of the Rome affair. It was a very short part of the book, quickly told and without any emotional connection. He claimed to have seen her in his mind and painted her years earlier. I wondered about that. I wanted to know more about his thoughts and feelings.

I want happy endings. This ending was more of an intellectual happiness, which was ok, but I would have preferred something a little more feel good.

CAUTION SPOILERS:

I didn't like or respect Rachel enough due to her stupidity. She was a software sales person. She flies to Rome to make a presentation to a potential client. She quickly realizes that they don't speak English, and her Italian is too weak. She should have immediately delayed the meeting long enough to get a translator, and then made her presentation. Instead she wasted their time in a too-long meeting trying to communicate in childish Italian which was a disaster. She didn't make the sale.

After her affair, again she was stupid by not telling her husband. Because they had worked through "his" earlier affair, she should have known he would forgive and work through it with her. In fact she had more justification than he did – payback, equity, needing to feel desirable. But she chose to pay blackmail to keep it secret, which was stupid and caused further disasters. Of course there would have been no story if she had been smarter.
