Things Happen That Way Tinnean

Quinton Mann and Mark Vincent are settling into a relationship that shouldn't be possible. After all, Quinn is CIA, while Mark belongs to the WBIS, an agency labeled by others in the intelligence community as being staffed by sociopaths. Somehow, in spite of that, they seem to be making it work.

Surprisingly, it isn't work that separates them but family matters and a friend's plea for help when his partner is kidnapped. Quinn is off to London, while Mark heads for Los Angeles to solve the kidnapping. Then Mark gets called to Paris by Femme of the Division, where things are not as they seem. Quinn, thinking to meet Mark in Paris, ends up coming to Mark's rescue. Back in the States, Mark fights taking time to recover from being shot while events are happening at the CIA that could endanger both Quinn and his best friend, DB.

Between family, friends, and Mark, how will Quinn make the opportunity to talk to Mark about moving in together and even starting a family?

Aaaaand... she did it again!!!!

?????♥♥♥♥♥ LOVE IT ♡♡♡♡♡?????

I nearly inhaled it - it felt so short - but it isn't - I love those two so so much - it's ridiculous!!!

And I love the way the author uses those overlapping story sequences when she switches the point of view from one MC to the other. And while she did this all along, in the first three books it was done several times within each book, whereas for these last two, she chose to start the whole book 1 with Marcs side of the story and then this one is Quentins point of view. I adore this unique style and being able to see some events through both of their eyes is just brilliant!!

And no - not the whole book is about the events in If You're Going Through Hell Keep Going - not at all!!!!

?????♥♥♥♥♥ LOVE IT ♡♡♡♡♡?????

Cant wait to read what comes next!

Maybe it was just me, but this one was a bit slow... like, I repeatedly fell asleep, slow! I enjoyed the story and am always glad to visit with everyone in Mark and Quinn's life, but a little more action would have been nice! There was one great "rescue" scene and that was about it. The rest was just filler... good filler, but filler nonetheless! *headdesk* :(

I didn't really see the need for this book, although there was a little movement in Mark and Quinn's relationship and yes, there were lives saved and taken and yes we were given updates on secondary character's relationships, both new and old. OK, this story was more necessary than I had first thought! *grin*

I must admit that I like the way Mark thinks more than what is going on in Quinn's mind... I love Quinn, don't get me wrong... but Mark is just so... yeah, the man is awesome! hehehehe

It still feels like Mark is alone, with no one will go after him if something happens. Okay Quinn will, but I don't see from him a strong feeling for Mark like Mark has for him. He saw that woman from Diversion shot Mark and still let her talk... until she shot him again??? Quinn has his family, his friend (DB), Gregor,... who will certainly do anything for him, but what about Mark? Mark does everything for people he cares for (rent boys, Quinn, Portia,..) but I don't see any scene where they do anything for him.

Okay maybe I'm too frustrated with the way this story goes. Mark is perfect (at least to me) so I want him being cherished and respected.

And I don't care about Quinn's family. Portia is elegant, intelligent, etc... I get it, I've known this since Spy vs Spook and I don't care. She takes too much spotlight, every man likes her,... I'm so tired reading about her perfection. I think I will start my skimming skill whenever she appears now....

Fun read. Quite a bit happens in this book. Glad I didn't have to wait for the next one.

I love this series, but it feels like it's time to move the plot forward a bit. We've been stuck in this same storyline for a while now, and I have to say it's getting a bit old. And truthfully, Quinn's side of things isn't nearly as exciting as Vincent's. I hope we get more books, but I want to see what happens next in their story, not read the same plot just from a different viewpoint again.

Quinn is such a romantic!!!!

Really enjoyed being in Quinn's head this time around.

We get Mann's POV in this book and about half of this book is a bit of a retelling. It didn't feel so much as a retelling though because we were with Mann the entire time seeing what he was up to while Vince was off cleaning up his department.

The first half was OK. But once we got to the second half it got so much better. We get to see Mann and his mom in action. I loved we got a glimpse of how deadly his family and especially how his momma can be. I would really like to see them all do a mission together.

I think the ones who have started this journey with these men from the beginning are the ones who will truly enjoy this new series. It has been a long road with these guys and we are finally seeing how much the work they put into their relationship is paying off. They have an epic love.

I love this author and I love all of these books. Mark and Quinn are one of my favorite couples.

I missed them. :(

Be still my heart! I'm so glad there are more books out about Mark and Quinn - if you haven't read the "Spy vs. Spook" series yet, you should (absolutely should) read it before this series.

I also suggest the "Light in Your Eye" series right after the Spy series, before this one. It's about Theo and Matheson and is well worth it.

Barbara Douglas says

Picks up where Forever left off, and runs parallel to If You're Going Through Hell. This is entirely in Quinn's voice.

Mark That Mann: 2

Author Tinnean took a huge risk here in starting a new series focusing on the two MCs of her splendid Spy vs. Spook series. However, not only has she achieved what readers may have wanted but also she has rocked me to my core with how she's done it so far--and she's not done yet. Because the first two books are so intimately connected, I have once again chosen to review both of them with the same review.

That's because despite the fact that Mark Vincent and Quinton Mann have come perilously close to declaring their love for each other at times throughout the first series, both men are from such completely different backgrounds that it took a stroke of genius for Tinnean to show how they could eventually fall in love--by telling the same basic, very exciting, story in both books.

In the first, it's from Mark's point of view--an early 40s stunner up from the streets who as a special agent for the mysterious WBIS has a most delightful and often totally unique way of disposing of inconvenient characters. Open, garrulous at times, with a nasty sense of humor but deadly attitude to those who mess with him or those he likes or loves, he leaves a mark wherever he goes (sorry for the pun). The plotline in the first book ends so beautifully that you cannot help but wonder how much of it is a spoiler for the next one.

Don't worry, Tinnean has got your back.

The second one, from Quinton's POV, not only goes over much of the same ground with the same quotes as Mark's story, but does so in a way that brings out this 39-year-old quintessential white bread CIA agent's personality (reserved) and background (privileged but not snooty) so smoothly that it's almost like the author is a different person. Fear not, in this one Tinnean carries you through the end of Mark's book and plows ahead with an exceptionally surprising twist to Quinton's deeply ingrained WASP persona which will not only leave you with a twinkle in your eye (and a jaw dropping last line), but begging for more.

Fortunately, Tinnean is working on it. Love these guys. Yesssss!
