The one star is mainly for the quality of writing. I can't shake the feeling this was written *for* high school girls *by* a high school girl. There was too much repetitiveness. Sarah doesn't trust men. Chad doesn't want to be weighed down by responsibilities. Okay, I get it. This doesn't have to be repeated every five pages. The two main characters both have so much baggage they might as well hire a porter. Ultimately they decide all their problems can be solved by dropping trou and going at it like bunny rabbits as much as possible. For instance (view spoiler)

This is book #2 of the Delaney Brother's Trilogy and I enjoyed it. The setting is Montana, 1880, and Chad Delaney is a bounty hunter who rides into town one night and rescues Sarah's son from a group of kids that were attacking him. Sarah was raped, became pregnant as a result and her wealthy family disowned her. She struggled to raise her son, by doing laundry, sewing, etc while the town people shunned her.

Chad, a professed loner, startles her while she is doing laundry and she scalds both her arms in boiling water. He then feels obligated to look after her until she could work again. He gets attached to this family and becomes her champion.

This was a nice, feel good, Cinderella-style historical western that I thoroughly enjoyed reading. If we had half star options, I would give this one 4 1/2 stars.

I didn't realize this was a trilogy and have not read the first book. I really did not like Sarah or her character/story. I felt like chad deserved so much more. Sarah seemed like a bitter woman. I also think she acted more like a immature child toward the end. Really ridiculous how she wouldn't listen to anyone. I love Connie mason but don't recommend this book.

The book description - doesn't belong with this book. Someone has made a mistake. Change to one of the other editions to get the real book description. The Delaney Trilogy about ranchers.

**Amy Wilder says**

Not my favorite. There is a convoluted section of the book when she is kidnapped that was kind of like a detour from the main story for me.

**Amy Diaz says**

The story opens with Chad rescuing a little boy Abner being beaten by a group of big boys, he takes the boy home to his single mother. Chad is a bounty hunter searching for a bank robber. He accidentally causes the single mother Sarah to burning her hand and now she is unable to work to support herself and her son. Against his will Chad assumes responsibility to caring for her and her son who grows attached to him. Chad is falling for Sarah everyday that he is with her but he gets lucky to find out that Sarah is linked to the bank robber he is looking for.

Cutest scenes is when the naïve kid crawls into bed between the couple hours after they have sex, he does that twice. They second time he does that he asked his mama why he has to wear night clothes but she and Chad don't.

Abner keeps asking Chad to be his papa but he tells him that he isn't fit to be anyone's papa.

I like Chad and Sarah story...

What Sarah had to go through back then as an unwed mother was a tear jerker, how her family treated her alone was bad...

I love this story and the family as a whole and i can't forget little Abner he is just the cutess thing, if you know what to expect from connie mason then this is for you, again i must say this on my connie mason reviews the love scenes are just crazy there isn't a dull moment when you are reading a connie mason love scene

Does anyone realize that this book is the same as A Breath of Scandal (Sin Trilogy #2)???

## **Tonileg says**

Western historical romance with a bounty hunter that randomly helps a young unmarried mother when she has a bad burn accident. There is a series of seriously wicked guilt tripping that unfolds over the first few chapters as the bounty hunter, Chad Delaney tries to get help for Sarah Temple and her five year old bastard young son, Abner, but no one from her family or the community can or want to help her. She has been totally rejected and ruined by her own family because she got pregnant without marriage, even though it was through rape which is crazy since her father is the town pastor who should show some Christian forgiveness and compassion.

Let's not forget the reason that Chad is in town, he is tracking down a thief and generally bad person, Freddie who's hometown and who left town suddenly about five years ago and it isn't a coincidence that it was just before Abner's birth. So everyone (except Chad and the little boy) has secrets which is going to push forward the plot and drama in this story. There is a ton of story before the HEA. Like the Kidnapping (twice!) and the Indian group that turns out to be honorable but looking for freedom and food which was a kind view because we see the prejudiced 'European folks' view at the same time which was ridiculous. So after the HEA we get to see the beginning of the next book with the last brother, Ryan's love story start as an adventure to find a lost daughter for an old friend of the Delaney's brother's deceased father.

Another great 1990's romance novel by Connie Mason which just got re-published for kindle but there were quite a few conversion errors like 'men' for then and 'm' instead of 'th' is found at least 5 different times.

385 pages and kindle freebie

3 stars for great bodice ripper 90's style writting about the historical West.
