## **Cabin Fever** Alisha Rai

Love isn't something she thinks she needs...until it lands right on her doorstep.

Genevieve Boden is a witch and doesn't care who knows. The townspeople's fear of her keeps away those who have hurt her before—like the local men of authority. Besides, a life of exile deep in the woods of West Virginia is due punishment, she figures, for the part she played in her mother's death. If she's alone, no one need know that the trauma took away her powers.

Then she finds a bloody, fatally wounded man slumped on her porch. In an instant, her healing ability reawakens—and that's not all. He stirs a hunger beyond her wildest dreams. But a relationship with the new chief of police? Not a chance.

Alex Rivera isn't sure how he survived, but he's certain his beautiful savior did more than just bandage his wounds. Captivated by this wary angel and stunned by the depth of emotion he feels for her, he vows to discover her secrets. After all, thanks to the raging snowstorm, they have nothing to do but share body heat.

Their sizzling attraction goes straight to their hearts. So could a killer's bullet...once whoever shot Alex finds them.

For some reason I kept waiting for the guy to turn into a werewolf and felt a bit disappointed that he didn't, haha.

While the shooting mystery is just meh for me, I love both Alex and Genevieve and how their relationship progressed, especially Alex because he's so damn cute I adore him so much.

The star rating given reflects my opinion within 'the official goodreads rating system'.

- 1 star: Didn't Like it
- 2 stars: It's Okay
- 3 stars: Liked it
- 4 stars: Really Liked it
- 5 stars: It Was Amazing

I don't really give a rat-fuck that there are some who think I 'owe' an explanation for my opinion. Nope, nada, and not sorry about it.

Sometimes I may add notes to explain what my opinions are based on, and sometimes I don't. I do this for me, on my books, in my library and I don't 'owe' any special snowflakes a thing. Fuck off if you don't like it and stop reading my shit.

Particularly given the 'modifications' to reader's personal content going on (and outright censorship), unless particularly motivated I will not comment in detail.

It would help if GR was forthcoming in the new 'appropriate' and would make a site-wide announcement delineating the new focus from a reader-centric site to one that is now for authors and selling.

I'm a big BIG fan of the "stranded in a cabin in the woods during a snowstorm and, darn it, we might just have to cuddle up together to share body heat" scenario. I know that might sound like a REALLY SPECIFIC scenario to drool over, but I also have a thing for amnesiac vampires and that's even MORE specific, so just roll with this one, okay?

Cabin in the woods (not in a creepy way). Snow. Injured man. A witch. I WAS INTRIGUED. Genevieve is doing the penance thing as she struggles to come to grips with her mother's death and Alex is...kinda in the

wrong place at the wrong time, but also not really. There are layers here. THINGS to be uncovered. THINGS.

As for me, I got my snowy cabin in the woods and some shared body heat. \*slow thumbs up\*

#### **Love**

This book is smart, it is sexy, it is romantic, it is suspenseful and just so damn good. I could not turn the pages fast enough. Alisha wove an amazing story that was perfect in every way. Love the characters , their banter and chemistry. LOVED IT!!!

I really liked this one. I loved the characters. They had more depth than a lot of the cookie-cutter romance I've been reading (and enjoying) lately. The plot was good, the sex was steamy, there wasn't as much angst or insecurity as I generally like with my heroines in my favored tropes (chubby, abused, plain) but I liked it on its own. (3.5 stars)

### **Mara says**

Hot should not be the only characteristic in love story. Too much "insta": insta lust, faith, love. It stretches the imagination way more than her powers...

### **Elaine says**

What a pleasure to find a book in this genre with well developed characters, unique story lines, unexpected plot twists, and more.

It is my first Alisha Rai read, but it will definitely not be my last. This was a well written book, and is worthy of recognition. HIGHLY recommended!

Eeeeeeeeh, it was fine.

## Pauline Allan says

I loved this ebook. The heroine is full-figured and full of spunk. The hero is sexy and the dialogue intimate. The action scenes are appropriate and don't overtake the romantic elements. The humor was a welcome surprise and made the characters believable. I highly recommend this read to anyone wanting to curl up on a cold afternoon with a "hot" story.

## Lisa Jo says

I really enjoyed this one. I don't read contemporary very often, but when I find a trope I really enjoy I'll give it a shot. Cabin romance are one of my favorites so this was definitely something I was interested in. I loved the forced closed proximity that leads to a happily ever after. It was a pretty short, simple story. Hero becomes injured in the middle of no where and happens upon the heroine's cabin. Heroine is very apprehensive since her safety and security out in the mountains is fragile but decides to take a risk and help. It has a little drama but for the most part a really great story.

I liked Genevieve and Alex. Both were hiding from their past, trying to ignore issues from letting them move on. Genevieve was great independent heroine. Extremely caring, not overly emotional/dramatic, she was a very level headed heroine. She has a horrible past with the town and really has no reason to trust Alex. Yet Alex is...Alex. You can't help but fall for this guy. He is so incredibly patient, gentle and kind. I loved him the minute he jumped onto the page. These two share some pretty sexy scenes together too.

There is a slight paranormal element to it...it's a huge part of the heroine's story, but it not the center of this story. Some minor (very minor) details were a little too convenient for their situation but if you suspend belief just a bit it works out. I wish I could pin point more details from the novel to really review it, but there really isn't much more to this novel. All I can say is EVERYTHING worked. The characters, the development of their relationship, their conflict, the resolution. (Btw, the ending was SO SWEET!) I loved all of it. Highly recommend this novel.

## Hackmops says

**Cabin Fever** is a delightful and far too short novel. The setup hits all my catnip buttons - romance through proximity, caring for an injury, danger from the outside, secrets on the inside, a super sexy yet incredibly sweet (!) romantic hero and an immediate, believable connection between the lead characters. This is a little bit like a Cinderella story with some magic and steaming hot sexy times thrown in - I think the pacing and development of Genevieve and Alex's relationship actually worked well during this short format and I really enjoyed it. This was the first book Alisha Rai wrote - still holds up pretty well! More, more, more!

3.5 STARS

This is my first time reading something from Alisha Rai and I'm happy to say that it's so good!! I'm definitely excited to read more of her works.

Alex and Genevieve are SO cute and even tho theirs is kinda instalove I don't actually mind because it was very well written. I mean, I'm actually super okay with instalove as long as it's believable and written well.

I really wanted to give a full 4 stars but Alex's machismo annoyed me a little sometimes, but I still love that man

Ripped Bodice Bingo (<http://www.therippedbodice.com/ripp...>) - for the "a touch of magic" square.

I liked this a lot -- Alisha Rai is such a smooth and talented writer -- but have to say that the one moment that took me out of the story and put my hackles up was when dude finds out lady's big secret and says (paraphrase) "phew, I thought you were going to say you used to be a man or something." It was just such a jarring moment both as a throwaway line and tone that didn't fit the rest of the text. I'm not sure if these will be reprinted now that Samhain is no more, but I hope that if so, she'd consider taking that line out and replacing it with something less unnecessarily transphobic.

**Aoi says**

Oh yummmm!

Trust Alisha Rai to make this rather fanfic-y trope very believable and extremely hot
