Jay Christian says

An excellent cookbook! Variety makes this book interesting. Soups, salads, appetizers, main dishes and desserts- all with a backdrop of Hollywood. It's a book for people over 35 who can easily identify with these stars, mostly because we all grew up watching them on television and at the movies. In the book, you get an attractive large photo of the celebrity and on the other page, the recipe itself. I didn't want highly polished, airbrushed photos of the dishes, for the simple reason of intimidation. How many times have you made a recipe and well... it didn't come out looking that perfect. My theory is that how you make the recipe, is the way it should be done, without comparison. It's a self-esteem pleaser. There is no need to go to specialty stores to find the ingredients, and everything is at a moderate cost. Also, there are quite a few recipes that only take under one hour to prepare. So, you eat good, get better nutrition and eat like the stars do! This is a book you use in the kitchen. Keep it handy.

Jay Christian's Hollywood Celebrity Recipes is one-of-a-kind. Go Hollywood and enjoy these delicious recipes!
