A1

Good quick read. Excellent story line. Being a Reacher fan this is right in there. Between the two I should be able to fill my reading schedule.

Drew says

Loved it.

Sue E. Proctor says

Good book, but too short.

That's why I gave the book a three. I am sure other readers have gone over the story line so I won't bother. I like the Mac Walker character, but when I read a good mystery, I look forward to a lot of twists and turns and hopefully at least 8 hours of reading time. I certainly wasn't bored and the book kept my interest, so I will try the next Mac Walker book and hope it takes longer to read than 4 hours. Hope you read this Mr Ulsterman.

Martin Pingree says

Dang this was fun. Mac Walker is a walking kick ass vet who never stops. Great characters with a great story line and loads of action keep you wanting more !

Will Decker says

Kick some ass, kill'em all and let god sort them out! If you're looking for an invincible hero this is the book for you. Mac Walker takes no prisoners. Period. From the moment I started reading this story, I couldn't put it down. Despite needing some work in the editing department (typos and misused words), this story pulled a 5 star rating out of me. If people like Mac Walker really exist, and on some level we all want to believe they do, let's hope they're fighting on our side. This is an Action Adventure that won't disappoint even die-hard Clancy fans. Good job Ulsterman.

Overtaking a hijacked airplane

Mac Walker Told Ray Tilley after vacationing in Paris he would join up with Project Icon. Now at 40,000 feet in this hijacked airplane he had one choice to save everyone on board.

He found himself working with another passenger aboard, Stasia Wellington who he learned was a Vatican special ops. Between both they had to work his plan to stay alive.

A military thriller with a former Navy Seal sniper that was exciting and filled with suspense. Terrific book.

Rick Colburn says

Attention getting

This book grabbed and kept my attention in the morning and held it all day til I finished it. If you like military and CIA NSA type action then this book is for you.

Robbie says

These books continue to get better and better. Mac Walker is becoming one of my favorite heroes. I couldn't possibly rate this anything less than 5 stars.

Stanley McShane says

Enjoyed this fast moving story about an old hard-liner ex-Navy Seal that could have been 5 stars had it the opportunity of a good editor and eye for details. Mac Walker is returning to Washington DC after a well earned vacation and prior to accepting a new position in Project Icon, an elite anti-terrorist organization. Stasia is also on the Boeing 767 and a member of the Vatican equivalent to Mac's. The airliner is hijacked shortly out of Paris and flown to a remote island off Tunisia where they are met with armed militia, terrorist mercenaries, and something appearing to be biological weapons intended for a major attack against the Vatican. Stasia and Mac join forces to retake the plane, save the passengers and the Vatican, and live to fight another day. The story moves along at a good clip, the characters evolve into real people, and the plot progresses well with believable interaction between governmental agencies. I got this book as a free download and enjoyed the easy escapist read. Would recommend to anyone looking for a quick, fun thriller.

Geoff says

Couldn't finish. Boring writing, shallow characters, all telling and no showing. Full of 'what the hell' moments that are, frankly, impossible to believe.

Nancy says

Could be a lot better. The characters and plot are kind of wooden. Some proofreading errors, not major.

Stephen Ashley says**A Man Who Gets R Done.....****A Man Who Gets R Done.....**

Here we get to meet a man named Mac. A patriot who decided to serve his country and help others who would help preserve our country. He is on his way home when his plane is hijacked! This is a believable story that could take place tomorrow. Please read and share.

Kevin Bartes says

This is a good book to pass the time. Mac Walker is a likeable hero and the book is fast-paced.

Pxipenguin says

Terse, filled with action, characters, and plots! A very good read indeed!

David Dalton says

In my mind, Mac Walker would look like a 38 yr old Chuck Norris. This book reminded me so much of the Norris action flicks of the 80's. Not saying that in a bad light, as I loved Chuck's movies like "Missing In Action" and "Invasion U.S.A.".

Lots of action, but in an odd way, I wanted more. Maybe due to the length of the story, I felt the author shaved off the big climactic fight at the end. All the build up in the story and it ended pretty quiet. In the movies, Mac Walker would have been fighting on the plane just over the Vatican trying to save the day. See Harrison Ford in Air Force One. I'd give this story 3.5 stars if I could, so I'll bump it up to 4 stars because as I mentioned above, it reminded me of the 80's action movies.

And yes, I plan to read more of Mac Walker. I recently downloaded 3 free short stories and I have on my Kindle already. After I read all those, I will use the Kindle Unlimited to catch up on all the other 3 Mac Walker stories in Mac Walker: The Collection. This collection has all 8 Mac Walker stories (short and long). I figure to have read 5 stories before I borrow this one. So sit back and enjoy Mac Walker kick some butt.
