## **Murder Abroad** E.R. Punshon

*Perhaps the victim had not been unconscious but had known her fate, had sent upwards from the black pit a cry that none but murderers had heard.*

Bobby takes the rare opportunity for a holiday - albeit a working one. Prompted by his fiancée Olive, he sets off to France, charged with finding out what happened to Miss Polthwaite's diamonds - and why her dead body was discovered at the bottom of a well. The local police have a ready-made suspect, it appears, but Bobby soon forms theories of his own regarding what happened to the unfortunate spinster.

### **Eric says**

This could only have been improved for me if Olive had figured more!

Classic Punshon. Beautifully-written depiction of life in rural France on the eve of WW2 with some cute asides on French political life but nothing on the international situation.

Bobby is working solo in a private capacity and exhibits the character traits and detective abilities which will lead to greater things in the future.

There is a fair play summary about 60% through in the form of a letter to Olive which certainly began to point me in the right directions.

Cast of interesting characters nicely sketched.

Read and enjoy!

### **John says**

This my least favourite Bobby Owen novel so far. Bobby being away in France just didn't seem to me to work so well although there was nothing particularly wrong with it.
