One Night

Natasha Boyd

One Night Natasha Boyd

Everyone in senior year of Butler Cove High knew that Lizzy Haynes and Jasper McDaniel weren't just the two smartest kids in school. They were also ridiculously attracted to each other and painfully shy.

Lizzy Haynes was tired of feeling invisible to boys, except if they needed help with homework. Tired of waiting for her secret crush Jasper to notice her, she attends a beach party on the last night of school. There she meets Chase Kennedy. Emboldened by his attention, she makes an irrevocable decision that shatters her future.

Eight years later, after a horrific car accident, her son's life hangs in the balance. She has to revisit that night and the choices she made afterward, and the only person who can help her face them is Jasper McDaniel. But to invite him into her life will mean having to confess everything, and admit she kept a child from his rightful father.
