Sassy Curves

Jordan Silver

Sassy Curves Jordan Silver

Camille Gosling and her friends like to hang out after work and discuss...things; like what she'd like to do to her delectable boss Braxton Maddox, maybe little Ms. Hot pants should check who's in the next booth before getting into too much detail?

Sarah says

Too funny

I have read a few of this author's other books and haven't really thought much of them but this was hilarious. Personally I would have loved a book for the other couples as the comedic value is through the roof. Was nice to just read a book that u don't have to take too seriously:).

Nadia says

Completely juvenile and immature writing. Very, very silly. I have doubts about the ones who rated this 5 stars.

Chantal ♥? says

Stupid immature heroine and man whore hero whom she sees f*cking around with OW. Not for me.

Dena says

Hilarious

This was funny and cute. I mean seriously your talking about your boss and he is in the next booth that is so funny I almost fell of the couch. The girl didn't have a filter to save her life.

Raine says

Some of the dialogue was a bit parochial which is why I gave it only 3 stars. But I did like the premise of the story.

Deserie williams says

note: too much stuff mention of ow drama for me!

✿Penny says

[★The h has worked for the H for 2 years. He was with OW during this time but he didn't have any feelings for the h. Once he decides to pursue her he stops all contact with OW. ★OW: his ex causes some drama - the MCs were on a date when his ex showed up and kissed him but the h put her in her place, it was really funny. ★HEA/epilogue: 5 years lat

grace says

funny,short read.

Tilda says

It's a hilariously funny story. I most certainly enjoyed it.

Warning: Do not read it in public. Your loud laughter will get everyone's attention and you wouldn't want to explain it.

Stacey is Sassy says

Unfortunately I did not enjoy this story. The character were immature and silly and the writing style was confusing.

I'm sorry to say that this story was not for me.

Jennifer Schultheis says

Sometimes, a girl just needs to read a light and fun book, and Sassy Curves fits the description to a tee. Jordan Silver turned my bad mood right around, with this little gem. Sassy curves is just what I needed, a book with hot alpha men, sassy females, and no angst. I really wish this book was longer, I would love to see more of the characters. I seriously couldn't stop laughing at their antics and wishing I had friends like that. Jordan Silver has quite the imagination and the wit to go with it.

Emily says

When Camille Gosling goes out for her Friday night fun with the girls, it is always a guarantee that her and the girls will be loud, proud, and full of mischief. This Friday is no exception when they begin discussing their long time crushes and what they would love to do with them. Little do any of them know that in the booth behind them is four men who are listening intently and may have their own interest in the girls.

Very fun read. Camille suffers from speaking your mind to a level that could easily be met with embarrassing moments afterwards. Braxton Maddox can't believe his prim secretary is quite the opposite and he is thrilled, he wants her and plans to have her now he has to prove to her he is serious.

Amara says

I swear, this author can make me happy when I'm having a shit day. My internet provider needed a cursing out for being shitty. My vacuum broke on dusting day. I ran out of brandy for milk punch....

And then.....

Boom. Jordan Silver smut to the rescue.

This heroine was a freaking trip. Word vomit galore. I dug it.

Barbara? says

***1.5 Disappointed Stars

What I liked:

- *There were a few funny interactions between characters.
- *I actually liked Cami and her drunk mouth with no filter.
- *I somewhat liked the epilogue....could have done without the Tiffany bit.

What I didn't like:

- *All the friends acted like teenagers instead of grown ass women.
 - *Heroine worked for Braxton for two years and he just NOW noticed her/started dreaming about her? Nope not buying that shit. Why now?
 - *During those two years he has a "contract" with another woman who he f**ks. So guess what? Cami gets to see that. She sees pictures of them together.
 - *He doesn't tell the OW he's dating someone else as per their "contract".
 - *He f**ked her in his house, that he brought Cami to AND he moves her stuff into when they marry. Though, in his defense (not) he does offer to buy another house for her since it's obvious she's upset by it.
 - *The OW tries to embarrass Cami in public. I could have just done without all the OW shit..
 - *Braxton has no consequences for his actions.
-

C.J. says

Fab read. Funny, totally entertaining, sweet and sexy. Loved all the characters and how well they all meshed together. Great epilogue.
