### **Darren says**

This issue was a slog to get through. While the arc started out strong in Screaming Citadel #1, I honestly can say that I'm grateful it has now come to a close.

My reasoning:

- 1) the “Ravenloft”/mind control/Borg/Wrath of Khan/Aliens/whatever you want to call it, grew tiresome as I progressed through the series; especially by this issue
- 2) the artwork did not impress as I moved through the series (Mr Checchetto’s in the premier issue was the strongest in my view; Ms Broccardo’s the weakest)
- 3) characterization, especially Han, really grated on me - not believable or realistic in terms of what I’d come to expect of his character thus far.
- 4) the king/queen obey/submit thing... not having it.

Really wish I had more positive things to say.

But I don’t.

Looking forward to moving on to Out Among the Stars next.

### **John Mccubbin says**

Doctor Aphra #8 brings “The Screaming Citadel” to a fitting conclusion, with there being plenty of action throughout. Despite some of the developments feeling rather sudden, the dynamic tempo and spiritual nature of the issue more than make up for this, with the creative team concluding proceedings with a massive teaser.

### **Steven Shinder says**

Really glad that this is over...ish. Really hate that loose thread at the end that probably won't be picked up and I don't really want to be picked up to be honest. I'm really worried that this will lead to a similar Star Wars / Doctor Aphra crossover.

### **Don says**

I don't want to spoil it, but this issue was a nice solid ending to the Screaming Citadel story. The last page did elicit a massive eye roll from me, but you'll have to see why for yourself

### **Brandon St Mark says**

An okay ending to an okay cross over. I hope the next Aphra issue is just as good as the pre-cross over ones were.

Buen arco.

#### **Cute comic**

This is my kind of reading material mother fucker. It's very cool. I like everything about it, the graphics, storyline, everything

### **Kami says**

- The switch in art style is really weird!
- Everything wrapped up way too quickly and conveniently.
- I love how looked overpowered the parasite and killed the queen. Awesome!
- I was wondering if I should buy the Doctor Aphra series, but now I'm glad I'm not reading them. Aphra just isn't for me. I'm glad I read this crossover series though.

### **Joss says**

Well done. I enjoyed this story arc.

### **Spencer says**

I liked the art this issue, but otherwise the story to this crossover arc has been pretty dumb and I'm glad it's over. This issue felt rushed, silly and not very much like a star wars story, hopefully the Aphra series picks

up again as I enjoyed it until the crossover event!
