## Taken by the Boss Jinx Jamison

I thought it was just going to be another night of working late, on a Friday night no less. My boss, Mr. Grey, is out for the evening and I'm alone. He hates it when I call him that, Mr. Grey, as if he's an older man when he's not even thirty yet.

He can never know the real reason I don't call him by his first name. I'd die if he ever knew that's what I call him in my dreams at night.

All I have to do is drop off this report and I can leave. But as long as I'm in his office, what's the harm in trying out his chair? I have fantasies about him bending me over the back of it, splaying me across his desk as he asks me to call him Sebastian.

### **Charmaine Stephens says**

This was a quick short sexy story but enjoyed it. I think since I read "Beautiful Bastard" in getting more & more into these office romance stories! Lol ;)

---

### **ForbidenFruit says**

Loved it and wished there was more

---

### **Becky says**

Well written but wish it had more substance. Think the story line could have easily been flushed out for a full book instead of the short story.

---

### **~Jessica~I'm a Hoodie Ninja~ says**

To effing short! That's all that I DIDN'T like about it.

---

### **djdavis~\*Sivad\*Sex Pocket says**

Not really worth the time to read.

---

### **Jen says**

Hate to say I was disappointed with this one too - for 99 cents, it was too short. then after this really short sex scene, I re-read the first 3 chapters for Sarah's Seduction (vol. 1) then another 2 short chapters from the other author's book - which left you wanting more, but I'm afraid to buy that book now -

I can see this author has potential. I'd really like to read more from her... but hopefully a full length short story with a beginning and ending :)

---

### **Angela Wade says**

The only thing I didn't like was that it ended!

---

**Katherine Bacher says**

Hot read, but the character names took me out of it, the character mentioning a sort of/sort of not boyfriend seemed unnecessary (unless it's a plot point for a future book), and was waaay too short! I wanted to read more.

---

**Heidy says**

Is this the author way on taking candy from a baby?

The book was hot and steamy but left me wanting more.

I have read a few of Madame X school and see that all of the book are similar to this one the have great erotic writing but there is no story line. Or maybe I just have not found a full book. Just like Stolen was Similar a few of small writing but no story to tell.

And like a good girl I will just have to wait for my next candy

**Divalish Smile says**

OMG. I'm pretty sure I've had this exact fantasy!! Enjoyed this short story but would love to see this extended to read what happens before and after this sexy event.

---

**Dar says**

Just the perfect bite sized snack to satisfy a craving! A hot little story about the boss and his PA, and getting caught being naughty in the workplace - awesome!

---

**Deina says**

Great story, but such a tease too short. omg she needs to continue thia story asap he had me panting!! hope that the continuation is not thia short.

---

**Jessica says**

5 -Stars! ?????

This is a very quick but sexy story about a girl who has a crush on her boss, who by the way wants her just as

much as she wants him. After being caught touching herself on his desk, he f#%ks her, so hard, you'd think he wants to kill her.

"His eyes drift closed and he growls. "F#%k yes, say it. Say my name." He's all in my face now, dark eyes glittering as he watches me take every rough plunge of his fingers. He's as talented at this as he is in everything else. He knows exactly how to stroke, his thumb rubbing up against my clit, prolonging the pleasure. Then he kisses me and I'm done for, any resistance I might have had dissolving as his tongue mirrors the action of his fingers."

After the onslaught of p#ssy-f#%kery...the ending had me giggling. It was that quick.

PS: loved the cover and i actually liked that his name was Sebastian Grey. Every time Isabelle said 'Mr. Grey' i was mentally transported back to 'Fifty Shades' and i liked it ;)

### **Rachel (aka Ms4Tune) says**

This is what I expected Fifty Shades to be, 50 pages long, steamy sex scene, boss taking advantage of secretary. Done. much better than Fifty Shades.

---

### **Nikki "The Crazie Betty" V. says**

...but it was just too short. When I'm actually getting into the story and want to know what happens to the characters...the "book" ends. For \$.99 I would've liked at least 2 volumes to this story rather than this short 15 page excerpt/volume. Additionally, I already have a few of the stories whose teasers are at the end of this one so I don't feel like I really got anything out of it. I have a really hard time saying that because I absolutely LOVED the Madame X School of Sex stories.

Jinx, please make more to this story! I want to know what happens Saturday morning!
