**The Incredible Hulk** Peter David

THE HERO WHO'S ALL THE RAGE

Scientist Bruce Banner is desperately researching a tormenting mystery: himself. He must find the cure that will counteract a radioactive element inside his body that causes him to transform, when furious, into that most fearsome and powerful of creatures: The Hulk. While Bruce aims to rid himself of his wild alter ego and live a normal life with the woman he loves, others—namely General Thunderbolt Ross and the shadowy military establishment—seek to trap him and harness the energy he contains.

But soon they are all threatened by a new nemesis, one who may be even deadlier than military might or the Hulk himself—a mysterious and terrifying entity correctly called The Abomination.

# **From Reader Review The Incredible Hulk for online ebook**

## **Paxton Holley says**

Novelization of the movie starring Ed Norton and Liv Tyler. Nothing more, nothing less. It's still good though.

---

## **Kat (Lost in Neverland) says**

Hey. Hey Bruce. Hey Bruce?

Love, Kat.

---

## **P.S. Winn says**

Bruce Banner is a scientist with a BIG problem. Usually he is just a nice guy, just don't get him mad! Who doesn't love a guy who turns into the incredible hulk.

---

## **Sarah says**

A good adaption of the movie; I enjoyed it very much.

---

## **James says**

This book is incredible. Peter David added so much depth and detail to the story, and the characterization for both Bruce and Betty was great.

---

## **Christopher Au says**

somehow I felt I must buy this novel...maybe I'm a fan of the hulk

---

## **Josh says**

Read this in anticipation of the film in 2008, still memorable to me now for a few added moments and backstory to Bruce Banner that makes him more complex than a film has yet to do.

---

## **Deranged Pegasus says**

It was wonderful to read and catch all the tiny details which harken back to the Bill Bixby TV show and the comics themselves.
