Thirty Days Part 1

Belle Brooks

Thirty Days Part 1 Belle Brooks

“Sometimes we choose to forget the things in life that hurt us the most.”

What has Abigail forgotten? What has been erased?

Plenty, apparently...

Abigail, the self-proclaimed hexed, is falling apart at the seams. She’s mad at the world—at the series of doors that continue to slam in her face. Most of all, she’s mad at herself.

When her best friend Sammy interferes in her spiral of self-loathing with an intervention, she finds herself entering through the door of a successful law firm and right into Marcus’ lap. Literally.

He’s sophisticated, funny, alluring...but also underhanded. There’s something else about Marcus that Abigail never expected. Magic.

Wow!! This book.....what do I tell you about this book without giving anything away? Let me start with the fact that it has a phenomenal story line. This plot will blow you away because just when you think you are reading an average romance, you figure out you're NOT! It is so much more than that. That this is Belle Brooks' debut novel says that she should have been writing well before now and had better not quit.

Thirty Days starts with the heroine quite literally face first in the dirt. Abigail McMillian has had it rough lately. Or, according to her, always has as she believes she is hexed. Though flashbacks and current happenings, Ms Brooks paints a pretty grim few months for Abi and you can completely understand why she has had a cocktail or 1200. Luckily for Abi, she has a strong group of friends and her Mum to help her get herself straight and even get her a job where she meets Marcus, swoon-worthy, cryptic, enigma Marcus. This is where you start to realize that things aren't as they seem and wonder if Abi really is hexed.

I absolutely enjoyed Ms. Brooks' writing style. Her characters have depth and a true to life feel, from the leads all the way through to every secondary character. You can connect with Abi's heartache and Sammy's (Abi's best friend) want to help her friend immediately. Belle strikes the perfect balance between inner dialogue and character interaction with the story moving along effortlessly. Ms. Brooks builds the suspense and intrigue very well and when the truth comes to light, it is both shocking and makes the little hints given make sense.

A note for those who don't like them, this is a cliffhanger as the title suggests BUT I would recommend that you set aside that prejudice and read this one. You will not be disappointed and will be clamoring for the next book, as I am. Write Ms. Brooks! Write!

Jennifer Pierson says

Abigail is completely convinced that she's hexed. She thought she had the perfect life until her finance tells her that he can't marry her. Abi actually took it like a champ at the time, but months later, she finally snaps when her dog dies on the same day that she found out her ex is engaged to marry someone else. She was put on a leave of absence from her job for tripping out on a student, and can barely get out of bed now. Her best friend, Sammy, has had enough of the pity party, and stages an intervention. After that, Abi finds herself with a new job at a law firm when she meets Marcus. She had talked to him the day prior, but didn't know anything about him. No matter how hard she tries to stay out of his bed, the sparks flying make it impossible, so she hooks up with him. But it turns out that Marcus is hiding secrets, and when they come out, will they finally destroy Abi for good?

I CANNOT BELIEVE THIS IS A DEBUT BOOK! Yes, I'm cueing the dramatic girly girl emotions for this review, as they won't be denied! I started this book with eyes wide open to the Part 1 portion of the title, so I knew I was going to be left hangin somehow, but OMG! That ending had me dropping f-bombs every which way from Sunday, and I really wish Amazon would let me use them to get my dramatic point across. But since they won't, I'm giving Belle Brooks a one way ticket to the list of authors trying to KILL ME DEAD, and she's earned the hash tag of #EVILWHORE forevermore! Yeah, even knowing a cliffy is ahead didn't take away the f-bomb OMG reaction. The character development is fantastic, with a colorful cast of secondaries. The dialogue between Abi and anyone had me laughing until my sides hurt, as she had a way with words. Belle Brooks' diabolically talented writing style had twists and turns for days, and I swear to all that is holy, I almost messaged her with some serious name calling. I was held hostage cover to cover, as the story is amazing, no matter how many OMG moments out of left field throat punched me. So bottom line, I NEED PART 2 so badly that I may or may not be lurking on every social media account of hers until it comes out! Even though I'm still cussing like a sailor, I have to completely and utterly HIGHLY HIGHLY HIGHLY RECOMMEND Thirty Days Part 1 to EVERYONE!

OH MY GOODNESS!! How does one explain how much they love a book without giving anything away??? How about I just tell you how much I loved it with no summary because a review shouldn't be a rewrite of the synopsis by the reader but our reactions to the book. So that is what you are getting. :)

First, I just looked at the page count on this bad boy and realized it wasn't a novella, it is a OMG can't wait to turn this 264 pages. How did the end come that quickly???? I flew through this book once I started and hated the end was approaching when I saw the percentage.

Thirty Days has suspense, mystery, love, heartbreak, romance, humor, ummm and I missing something I'm sure. It is a fantastic story that you will not expect what is to come. How wonderful is that right? It is so rare to ready and not be able to predict the storylines but Thirty Days will have you gasping along with Abigail. In shock! Unbelievable shock! Although, some heartbreaking moments you will get plenty of giggles and full out belly laughs I promise! I FLOVED IT! I can't stress enough how you should 1-click it right now got ahead but finish my review first. I will accept your thanks now.

What a fantastic debut Belle Brooks. Congratulations and all that fine jazz but seriously Dorothy, Belle you are my Dorothy, I need book 2 like two days ago. Chop chop I am not a patient lady. Editing done, why is it not on my kindle?? Jus sayin....

What has Abigail forgotten? What has been erased?

Plenty, apparently...

Abigail, the self-proclaimed hexed, is falling apart at the seams. She's mad at the world—at the series of doors that continue to slam in her face. Most of all, she's mad at herself.

When her best friend Sammy interferes in her spiral of self-loathing with an intervention, she finds herself entering through the door of a successful law firm and right into Marcus' lap.

Literally.

He's sophisticated, funny, alluring...but also underhanded. There's something else about Marcus that Abigail never expected. Magic.

Thirty Days - Part One, is just the beginning of one amazing story that has twists and turns you'll never see coming.

Review:

Totally hooked. I knew going in that this was part 1. Yes there is a cliffhanger, and I really don't want to wait to see what happens. This story was so good. For a debut book the author did a great job. I never knew what was going to happen next. I am still not sure what will happen, but I can't wait to find out.. The plot of this book has Abigail making her way through life as one tragic event after another messes with her life. Convinced that her life has had a hex put on it Abigail would like nothing more than to spend the rest of her life in her bed, but her friends have a better idea. Forced to go on a job interview at a friend's father's law firm. Abigail starts a new career once she is hired. She is making new friends and her hot new coworker is causing feelings that she hasn't felt in a long time. The chemistry between Abigail and Marcus is magical, but there are so many secrets to be uncovered that I am not sure what is going to happen next. The story moves along very quickly. As I mentioned the ending is a cliffhanger. Like Abigail we are learning so much about the characters in this story.

Lorna Bishop says

Belle Brooks is a writing genius. She had me hating a character but feeling sorry for them by the end! I can't bear whiney , dramatic , hysterical women and Abi is one of them. Her life is a mess and everything is a drama , I spent a lot of my time shouting pull yourself together women. However, the fact this book is well written I couldn't put it down no matter how much I dislike Abi.

Marcus is sexy and adorable. The friendship between Abi and Sammy is really beautiful and endearing and the twists have kept me from putting this book down. Starting book 2 right now

Rachelle says

I loved this book! A great debut novel by Belle Brooks. This is not your typical office romance which was my mindset when I started this book. How wrong was I!! there is romance, mystery, laughs and heartache with a twist you will never see coming!! Brilliant Ms. Belle!!

Halle says

Without giving anything away I will say..... This book is AMAZING! I love it, hard <3

Thirty days is not just an average typical love story kind of book. You'll feel all the emotions- I was crying my eyes out one minute and laughing in the next. You connect and relate with all of the characters in some way. For Abi, she has had her share of heartache for a few different reasons. As a result of that, she believes she is cursed. You will feel for her and just want to give her the biggest hug. But, she's pretty hilarious too. The way she talks and acts and trips over anything will have you laughing and relating to her clumsiness... (or maybe just me!)

Sammy who is Abi's go to person is seriously the best... Everyone has there own version of a Sammy in there life and if not, you need one! Sammy's unconditional love for Abi is what friendship is truly all about. Helping each other through the hardest times that life throws at you and loving each other anyways. Then there is Marcus... Abi is completely drawn to him but she doesn't know why she feels all these

emotions so hard for someone she has never met before... Then, right when you think you have the story all figured out, you get a twist dropped right on you! Bam!

Seriously, read this book. Belle Brooks is amazing! Her writing is incredible and you will not be disappointed... You will need Part 2 because it leaves you freaking out and needing to know what the heck is going to happen next!! <3 :-)

Jessica Alcazar says

First things first ... the book title says Part 1 ... yes kids, that means the journey of Abigail and Marcus will not conclude in *this* book, so please no bitching and moaning about the whole cliffhanger thing. Belle Brooks deserves top notch recognition for this debut novel, so no down rating because "*you hate cliffhangers.*" THANKS :)

Alright ... now for the good stuff ... it's going to sound a little cryptic because the story has many little twists to it that you shouldn't know about before you read for yourself, but know that whatever you *think* you're reading ... may not be exactly what *is* ... that's all I will say on that. And the build-up is phenomenally done.

Abigail is in a lot of what I would refer to as turmoil and *Belle Brooks* does an excellent job of characterizing her in a light where she is real and relatable. There's a little bit (or a lot) of Abigail in all of us. And the girl is lost. Her life is not going as she would hope, it's really just one hot mess lol ... but you will *love* her. She will make you laugh and smile and sometimes maybe a little twitchy, but you will relate with her easily. And then Marcus comes into the picture ***swoon*** to save the day ;) (maaaaaaaaybe lol)

Overall, there is nothing to not enjoy about this story/book and I applaud *Belle Brooks* for her debut novel and look forward to more Marcus and Abigail AND maybe some Sammy (hint hint) in the future!

Becky says

This book was hard for me to get into. Story line was good

doreen says

I thought it was a little slow starting out but half way through it started getting good. Abigail and her antics did start to get annoying but I want to know more about Marcus so I will read book 2 to find out more.

Paula Phillips says

You know how as a reader sometimes you grab books because you have seen them somewhere, but you have no idea what they are about? That for me was *Thirty Days- Part #1*. I had seen advertised *Thirty Days Part #2* and grabbed a copy and then I figured that since it was *Part #2*, it would be vital for once to read this

series in absolute order, so I went and grabbed Part #1. I had no idea what it would be about, and all I did know was that the author was Australian and new to the scene of authors. Going into the book and seeing the words Part #1, I do have to admit I imagined this book to be a quick read as often Parts are quite small and on the same par as novellas. This was not the case with Thirty Days, and I also have to admit, I found it took me a while to read, and I am normally a fast reader, but there was just something about Thirty Days Part #1 that took me longer than usual. We first meet Abigail who is nearly thirty, and she is dumped by her fiance Mike. Abigail takes it with stride as her friends beg her to wallow, but six months later everything turns to custard as Mike gets engaged to someone else, her dog dies and she loses her job. This sends Abigail into a downward depressive spiral. Her friends step up and form an intervention as seriously; they have had enough of her Debbie Downer attitude. This leads to Abigail aka Abi getting a job at one of her friend's Dad's firm where she meets a cute guy Marcus Klein. As the book goes along, we read as Abi and Marcus have an amazing chemistry but she keeps dismissing it, and this is where I wanted to strangle her. I have to admit that during this book, I got annoyed with Abi and her attitude as it was like - really, get over it. Bad stuff happens to everyone, stop your damn moping and grow up. Thirty Days -Part #1 gets exciting in the second half as we discover that everything with Abi and Marcus is not what it seems. I shall leave it at that as I don't want to spoil the AAHH moment for you, all I can say is I did not see that coming. The way it ended, I now can't wait to get stuck into Part #2. I will, however, say and let you know readers that Thirty Days - Part #1 does have a lot of Angst in the book and is slow in places and fast in other parts especially as it speeds up when you start to get to the gritty parts of the story. I will end the review with if you loved The Opportunist series by Tarryn Fisher, then you will love Thirty Days -Part #1 by Belle Brooks.
