## A Werewolf Kiss Chloe Cassidy

Adrianna and Adam are young, in love, and lost; taking what's supposedly a shortcut to a nearby party, the pair soon lose their bearings in the deep, dark forest, and before long they're scared and alone, their only company being the howling of wolves in the distance! Watched by mysterious purple eyes, they're soon attacked and torn apart by a group of otherworldly creatures; Adrianna runs, and everything fades to black...

She awakens in the home of an enigmatic stranger, but comes to find out that he isn't as he seems...

# From Reader Review A Werewolf Kiss for online ebook

**lesley dawn wallace says**

**The Alphas Mark**

The Alphas Mark is a great read it was kinda spooky but all in all a good read read it

---

**Marie says**

Good book. kept me interested ..

---

**windy walsh-berry says**

**Good**

This was a good book as far as it went, but it didn't really end. I want to know what happened to them. Did he find Adam, did he get with the girl? I want the rest of the story asap. Waiting impatiently.

---

**Andita says**

**I think...**

It as a series has potential. I'm not sure if I will try more of this story. I might try more by this author though.

---

**Darlene Me'Chyle Jenkins says**

**Love it**

**Love it**

I give this book 5 stars I'm a fan of Werewolves readings this one wE well written it had everything I look for sex, blood, and great storyline I just wish it was longer !!!!! Can't wait to read part two!!!!!!

---

**\*?❁❁ Maki ❁❁?\* says**

There wasn't really any romance to this paranormal romance.

The original love interest, who the heroine proclaims as the love of her life, is presumed dead within the first quarter of the book, after a lengthy sex scene.

And then, just pages later, she's mostly over him and having sex with the werewolf who saved her life.

And then she feels bad about moving on from her original love interest, when there's a chance that he might still be alive.

She's just so wishy-washy about what she thinks about the two guys that the relationships are more lust than love. There's no time to build on those relationships either, since most of the 11,500 words are dedicated to sex scenes.

There's a bit of a plot thrown in there, about cursed werewolves and rogue wolves, but it's barely present at all, and is quickly lost in a sea of werewolf sex.

I understand that this is the first book in a series, but it does a terrible job of setting everything up. Which, you know...is what the first book in a series is supposed to do.

The entire thing read like a bad horror movie, with so many scenes hitting overused horror cliches.

The first few scenes of the book include:

- the heroine and her love interest going to a high school Halloween party
  - deciding factor in going to the party is the fact that there's free booze
  - the party is for some reason located out in the middle of the woods
  - the main characters get lost on their way to the party
  - they have sex despite the nagging feeling that they're not alone
  - they get attacked directly after the sex
  - the heroine sees the love interest sliced open by monsters
- 

### **Kathy Harrington says**

Boy, what a whiney person Adrianna is, demanding too. Muscling Adam into going to a party just to make her happy. Each has lusted after the other for 4 years. Surprise, surprise she gets them lost in the woods and he has no backbone to stand up to her. I will read the next story, but I'm not sold yet. Only time will tell.

### **Melody says**

nice read!

---

### **Emily says**

Didn't like that the girl was like, "he's the love of my life," and then jumped right into bed with another guy.

---

## **Booksniffer Tours says**

Review Coming Soon!

2 Sniffs - A passing whiff has caught our attention.

---

## **Sharon says**

Totally totally unbelievable how fast the girl of this story goes from one guy to the next and this book could not have been edited because of many errors

---

## **Victoria says**

I liked the concept of the story but unfortunately found three things to be distracting. First, on several occasions, the tense switched from past to present. As a writer, I understand that when trying to get the story out, this happens, and editors do sometimes miss one or two instances, but there were enough switches that it drew me out of the story. Along the same lines, the formatting was off quite a bit. Pretty much all of the dialogue was attached to the wrong paragraph. While block paragraphs are acceptable, this type of formatting was extremely confusing.

[SPOILER FOLLOWING]

The final thing I found to be distracting was how quickly the main character went from sex with the guy she'd had a crush on for years to sex with a complete stranger - while her best friend / crush may or may not have still been alive. Perhaps in later books there's an explanation such as she has a supernatural connection to Tomas, but while one scene or the other may have been believable, having her sleep with both men in such a short span of time with only one little mention of her feeling guilty and no reasonable explanation for her actions detracted from the story.

As I said, I liked the concept of this rogue werewolf and an enhanced clan, but I found the rest of the story to be disappointing. There is potential here for a great series, but not as is.

---

## **Juanita D. says**

### **Spoiler alert....**

She finally has sex with her long-time crush of four years... who has been crushing on her for that long as well... he's dragged off, facing certain death via "wolves" and screams for her to run.... then the SAME night she has sex with a strange guy tells her he's a werewolf, but not the same as the ones who killed her "true love". WHAT A SLUT!

PUH-LEESE.....

---

### **Tracy Ehlers says**

A very quick read. I found it enjoyable even if I was disappointed in Adrianna jumping from guy to guy so quickly.. I will look out for the next book in the series, I just hope its a little longer.

---

### **Emma says**

1 1\2 stars
