Corralled B.J. Daniels

When a mystery woman with a gleam in her eye and trouble on her mind hops on the back of Logan Chisholm's Harley, he thinks he's in for a wild ride.

But Jennifer "JJ" Blythe James might be more than he bargained for.

The pretty pop star is running scared. Desperately trying to escape her past, JJ's defenses are on high alert.

She doesn't really want the cowboy's protection, but Logan knows that with a killer on her trail, she needs it. It's the only way the songbird who's corralled his heart will live to sing another day.

Susan says

ery good book. I liked Blythe a lot. She seemed to know exactly what she wanted, and was able to go after it. Even though she had panicked at the beginning of the story, after that she was able to keep her head and think her way through things. Logan was immediately attracted to her when he saw her that first night. When she ended up on the back of his motorcycle, racing away from trouble, he wasn't sure what to think. As they found out more about what happened, he felt more and more protective of Blythe. There was a lot going on in this book, with seeing the other band members and what they were doing, and also Emma and the ongoing story there. The story felt a little disjointed at times, but I had no problem following it. I'm looking forward to the last story in the set and the resolution of the mystery.

Amy says

Didn't really care for this book. First of all, the supposed romance between JJ/Blythe and Logan was superficial to the story. As a fan of passion and erotic romance, I thought their relationship development was weak. The author focused more on the murder mystery aspect of the story, and even this, I found unsatisfactory. There were too many characters and a sub-plot which had absolutely nothing to do with the main characters or main murder mystery. The "who" in "who-dunnit" also made no sense to me whatsoever; I had my mind on a couple other characters as the suspects.

Debbie Heaton says

In Daniel's romantic suspense novel, Logan Chisholm thinks he's in for a wild ride when a mysterious woman jumps on the back of his Harley. Jennifer "JJ" James is more than he ever bargained for because the attractive pop star is running from something in her past. JJ's defenses are up and while on one side, she doesn't want anything from this cowboy, Logan knows that as long as a killer is hunting her, she needs his protection. This duo is a challenge and full of surprises. An excellent addition to the Chisholm Cattle Company series, and one that I couldn't put down until the very last page.

Maria says

Light entertainment. The reader gets no real sense of danger and suspense, even with several murders and the threat of more.

Brianne says

There were a lot of twists and turns in this installment, in both the story involving JJ and Logan and Emma and Holt. Did not see the ending coming.

Anne Holly says

An okay way to pass an afternoon. I wasn't taken with the "series" stuff, so I skipped it, and I prefer mysteries to have some mystery to it (rather than a pat little set of likely suspects, with the real killer being exactly who it looked like, throughout), but I enjoyed the spontaneous vibe to the book, and I liked the two main characters well enough. Sadly, we don't get to know Logan all that well (case in point: I just finished the book, but had to look up his name just now to type it), but he's decent and attractive.

While I liked JJ well enough, she didn't ring true for me; we get absolutely no sense that she is connected to music at all, despite being successful at it for ten years. Aside from dancing a little at the beginning, she seems to have no interest in, passion for, or inclinations towards music, which makes her feel like a cypher to me. I mean, she doesn't even hum at any point in the book. I know she hated her career, because of her manager, but one would think she would feel something for the subject on a personal level.

Patricia Atkinson says

the story of logan who meets bythe in a bar and goes looking for her she gets on his motorcycle and he takes her back to the ranch.only later to find out she was afamous singer who was suspected of murder than hears she died in a car accident.the story of hoyts problems from the past are coming to an end soon.5th book in a 6 book series.

Lori says

A great short read! A sexy cowboy named Logan Chisholm, a famous pop star named Blythe or JJ, and a murder! A real page turner! I loved how Logan and Blythe found each other and fell in love even though danger always surrounded them.

Lana Sims says

Classic Girl in Danger Trop

The story continues the series. Again, a young woman in danger with a cowboy to save her. A bit weak on characterization.

Kristina says

All I can say is wow. I cannot wait until the next book! The ending leaves you hanging but in a good way!

The story between Logan and Blythe was ok. He is definitely dreamy and it seems like Blythe had a head on her shoulders which is nice but the story between Emma and Hoyt defiantly stole the story line. I can't wait to read more!!

Cathy Beckett says

Just finished my first book for 2015 reading challenge. This harlequin intrigue had several murder mysteries going on.

Blythe James, aka JJ, is a singing star who has acquired a stalker. She has been receiving death threats for months and has gone to her manager to try to get out of contract with him. She finds him dead and panics. Blythe runs for her life. Her savior is Logan Chisolm. He owns one of the richest cattle ranches in Montana and now he owns her heart.

Harlequin Books says

Miniseries: Whitehorse, Montana: Chisholm Cattle Company

Category: Suspense

Shannon Renee says

I love this series, I love the author, but this book didn't grab me like the others. JJ wasn't my kind of woman, but the continuing story with Holt and Emma (now that I give 5 stars). Not my favorite match of all the brothers, but man, I didn't see that ending coming!

Still can't wait to read the next one.
