Crash

Jerry Cole

Crash Jerry Cole

When Liam Hasker's car careens down the side of a mountain, the last thing he expects is to wake up facing the man who made his last days in high school the worst days of his life. As if that wasn't traumatic enough, the hospital staff seem to be under the impression that the ex-athlete is his husband! It quickly becomes clear that the former bad-boy heartthrob has no idea who he is and has forgotten the painful past that binds them. When circumstances and a little white lie force the two to join forces, Liam decides there is no time like the present to settle old scores. All grown up and a successful novelist, Liam intends to make his days with Reid as painful for the good Samaritan as possible. The only problem is, real life never goes according to plan.

Reid Cummings wasn't always a nice guy, but he worked hard to put the past behind him. When a badly injured stranger falls into his life, he finds himself drawn to the prickly writer in a way he hasn't felt in a long time. Before he can get a hold on his feelings, he finds himself sharing his home and his life with a man whose motives are unclear and whose face he can't get out of his mind. When their relationship goes from uncomfortable to steamy, Reid must battle Liam's distrust and the ghost of his past self to hold on to what could be the love of his life.

Can frenemies become lovers? Not if Liam has anything to say about it, but he may have to admit defeat as his reality becomes stranger than any fiction he could have written.

Please Note: This book contains Adult Language & Steamy Adult Activities, it is intended for 18+ Adults Only. Novella, approx. 50,000 words in length. HFN (happy for now ending). Does not end with a "cliffhanger".

From Reader Review Crash for online ebook

Nagisa Furukawa says

It was really good. But I can't help it, I kinda feel it doesn't deserve 5 stars. There were some tiny points here & there during the whole story that kinda bothered me... But it was good & definitely worth reading.

Neal says

I have enjoyed all of Jerry's books. I don't have a lot of time to sit down and read huge novels so the fact that these are short stories allows me to finish them in one sitting. Crash takes a turn that was probably real for many guys. Hoping and dreaming about someone that you fantasize about that eventually comes true is something I hope happens to me at some point. Well written story that gives you something to think about. I received a free advance reader copy of this book in exchange for an honest & unbiased review."?

Hotter Then A Firecracker

This book is fantastic! Oh my the stunts that Liam pulls will send you into fits of laughter.. It also stole my heart with all the crap that Liam had to go through highschool sucks. But at the same time the love story is great. Hands down a great book!

caroline wilson says

Enjoyable read

I enjoyed this book, good story and likeable characters. Plot was a little unrealistic but entertaining, will read more by this author.,

Klaudia says

„Crash” is M/M romance written by *Jerry Cole*.

This story is about Liam and Reid. They knew each other from school, but they weren't friends. Quite the opposite.

They meet again years after. Reid happens to be there when Liam's car careened down the mountain. When Liam wakes up in hospital he finds out that Reid pretended that he's his husband and that he doesn't recognize him at all.

This story was one hell of emotional ride. First, my heart was broken within few pages. What happened to Liam was awful and horrible. People are cruel *fucks!* But then I was smiling to myself because of Liam's sarcastic comments, that I fell in love with him on the spot. Reid was great guy, too. He's made some mistakes in the past, but he's changed and became much better person.

All in all, it's a beautiful story about forgiveness, love and finding each other after many years. Highly recommended. One of my favorites from Jerry Cole.

Krinessa says

A wonderful story

I truly enjoy Jerry's stories. They are always, always, always filled with sincere emotion and that unrelenting angst that only those fighting true love can have. Liam and Reid are beautiful together and how wonderful when true love comes back to life.

Teetee says

It's time to come clean about my reading habits. I start a lot of books before I mark that I am 'officially' reading them on the GR website. I begin reading, see if it grabs me, then if I feel I can commit I mark as 'currently reading'. I say this because I have started a lot of books, not marked them as reading/read then try to go back and read them again, not remembering I already gave them a pass. So i'm going to try to start marking more of these, even if I didn't read the whole thing.

All that to say, I gave this one a try. Good potential, I'm a fan of H.S. bully to hottie and good angst. But this book was not going in that direction. First of all our 'poor' Liam who was bullied in school comes across as a bit of a jerk, even though past circumstances would certainly explain that. Secondly, its very contrived the way Reid the former jock comes into his life. Too farfetched for me and I only got about 20% into the book before quitting.

joani says

Great story

I loved Reid and Liam, they are great characters. The beginning is a nightmare and they both suffered horribly for it. For Reid his journey was very hard but turned his life around to be the man he felt Liam would be proud of. Liam is left hurt and bitter but makes a good name for himself. With a horrible accident they find each other again and Liam realizes that Reid has always been the one for him. He was destined to love only Reid his whole life through.

I received a free advance reader copy of this book in exchange for an honest & unbiased review."

Ted says

This is an unusual book which I enjoyed reading. Liam and Reid, the two main characters, become entwined because of car accidents over a period of years. Misperceptions of what happened in the first car accident colors their understanding, or lack thereof, about what really happened during the accident. The big question is does Liam seek revenge on Reid because of his misperceptions or does he fall in love with his antagonist? Is the antagonist an uncaring, self-centered jerk or has he become a caring person who seeking love, too? I suppose you'll just have to read the book to find out!

I was given a free advance copy of this book in exchange for sharing my honest opinion about it after it was released.

Juxian says

I don't know why with some books every little stupid thing in them feels like a needle pushed under your fingernail; and with other books no matter how much stupid there is, you are just, like, "never mind, who cares, keep moving!"

With 'Crash' you don't just have to suspend your disbelief; you need to cuff it, gag it, lock it up and throw away the key. And if you can bend your mind around the idea that a supposedly straight guy, after finding a stranger in an accident, will name himself this stranger's husband to spend time at his bedside and sign papers of life-n-death importance... then you can enjoy the roller-coaster of wild emotions that are in this book. Liam hates Reid and wants to hurt him. But he doesn't hate Reid and want to be loved by him. Reid thinks Liam is dead, and this Liam is a different Liam, and he falls in love with this Liam... and oh, there is an evil cousin who wants to destroy Reid to hurt Liam...

But man, it was delightful! Even if the point of view (both first person) was changing so often my eyes were crossing. But Reid was great. I can't help it, I just love those goody-two-shoes characters, can't get enough of them. And Liam, he was a tricky character because he was actively trying to be unpleasant so it would be easy to dislike him - but he was so vulnerable and so good at heart that it was impossible not to like him. Yeah. Very much fun.

Jolene says

OMG Don't know what to say. Just letting the tears dry. This was an emotional rollercoaster, but very well worth the read.

I received a copy of this book from the author in exchange for an honest review.

AyoDollFace says

I liked this book but then I didn't like it. I was really conflicted.

My heart ached for Liam and what he went through one horrific night when he was younger. I wanted him to get some payback but that is not what happened. Call me a vindictive bitch if you will, I'll wear the name proudly but there was no revenge. I think he deserved a little after all he went through and lost that night.

As for Reid, he was very emotional (toward the end) but also emotionless with Liam. I got the sense that he was sorry with what happened to Liam but not too sorry. To me it seemed he was more sorry for himself in that it was a lost opportunity for him but not sorry for not helping when this poor boy needed someone to do something humanly decent.

Amanda says

This book was actually not too bad. Two boys who "knew" each other on high school but were never actually friends. Or even acquaintances really. 15 years later they meet again. Only one doesn't know it.

Liam is in a bad accident and his car flips off the side of a mountain. He wakes up in the hospital to a man stating they are "married". The man is someone who walked away at a pivotal moment when they were teens. Only Reid has no idea.

Reid pulls a man out of his car and in order to stay by his side, he tells the hospital staff he is married to him. This man reminds him of "his" Liam. But of course it can't be him. He died a long time ago.

The basis of the story is great. And for about 75% of the book I was really interested. Reid's sister was a little too dramatic for my liking. And the ending was so abrupt. Reid found out the truth, Loam left to run a company, and then...BAM!! Liam comes back because Reid is hurt. All of a sudden they are back and rings are given. I need a little more substance than that.

Anywho, it was worth the read but not a five star one.

Stefanie says

Een goed verhaal wel, en dat verbaasde me zeer. Fijn het te hebben gelezen.
