I have been waiting for this since Conway's accidental brush with Bones at The Underground. No Spoilers Given - this is a phenomenal addition to the Griffin and Vanessa story. It picks up exactly where the cliff hanger in Divine in Lingerie ended. I cannot say that is a total page turner, as the story jumps back and forth from Griffin/Vanessa to Carter/Mia and I felt Carter/Mia slowed down the story telling, as I am addicted to Griffin's story. The complicated Barsetti/Bones dynamic has more twists and turns to reveal. More heartbreak interactions between the characters caused me to cry again. Even though I thought Carter's story slowed this segment down, I am really looking forward to seeing what the author is going to throw at him and Mia and who exactly is Egor, besides the monster trying to get Mia back. Waiting impatiently for the next segment...

Penelope Sky graced me with a copy of this magnificent book and I am adding my review in the hope that others will find her fantastic books.

Foxy in Lingerie by Penelope Sky

This was such an exciting and eagerly waited for by many and it delivered to the max. The tissues were out, and the cheers were many. Penelope Sky lived up to the names of tempest, cliffhanger Queen and most of all an excellent writer.

This roller coaster ride concludes the lover's past, present and future. Blood ties are present and ever so strong, but also is the love of Griffin for Venessa. He does something no one expects after being so mistreated by Crow and the rest of the Barsotti's. He didn't do it to impress them, he did it for the woman he loved and no longer had. This was her family, a very important part of her.

It's hard to talk about the book without giving away the highlight so with that said I just tell you read if you

enjoy a true love story. Read it if you like some action. Read it if you love Penelope Sky. It's worth the reading.

It is an honor to participate in this ARC team.

WOW! I think this is my favourite part of the series...so far and we still have two more parts to go. Foxy in Lingerie has an action packed start, picking up from where Divine left off.

Griffin going to war for a family that refuse to accept him for the man he is. Not knowing what it will mean for his future.

Vanessa struggling to accept that she may have feelings for someone else when she knows she'll never love anyone as much as she loves Griffin.

Pearl helping Crow see that they need to put the past where it belongs.

Will Conway and Sapphire be safe and start planning for the arrival of their baby.

This is also continues on with Carter's story. We learn more about him and Mia, the girl he bought from the Underground.

Mia doesn't know why she is there but she does know that he won't let her go.

Carter can't tell her why she's really there so has to out her to work.

Bring on the next part. I can't wait to see if Carter is going to stick to being the good man that he is or if he's going to let a dark side show.

I can't get enough of these Barsetti's! This is book 10 in the next generation and this book continues the story of Vanessa and separately also Carter's story. I'm have to say it's been a week since I finished this as I am struggling with how to review it without spoiling it. It was so intense. I think it was even more so since we hopped between the three major story lines of Vanessa, Carter and Conway. Each of their stories is

complex in their own way and this was such a great part of the series. Part of me doesn't enjoy the hopping between the Vanessa and Carter story lines as each time it jerks me out of the flow of their individual stories, but overall I am enjoying each of them. I am anxious for books 11 and 12 which should be released in the next month.

I am on the edge of my seat to see what happens next in Fine in Lingerie.

Seriously, this series should not be this good. I should not be this attached to a family. Without giving a spoiler, I will just say thank God for humility. I will always be team #Bonessa (Bones & Vanessa). I just hope that Antonio don't test the waters in the books to come, for his sake!!! This book took me through emotional distress, and I loved every minute of it. I couldn't put the book down. I don't care what Bones does for a living or why, he will always be a hero to me. And Carter my Carter.... its amazing how history repeats itself....ask your Father!!! Amazing Penelope. Simply amazing.

Blonde&Blue says

Foxy in Lingerie is the 10th book in the Lingerie Series by Penelope Sky. I was excited to see what would happen in this book seeing as this was to be the finale of B&V's story however although I was happy that they got their ending, I didn't love this book as much as I thought I might as this wasn't mainly focused on them. Instead it had chapter scenes from Conway and quite a few from our next couple: Carter & Mia. I did hope to be able to read more about Bones & Vanessa and to see how the relationship hopefully blossomed between Bones and Crow after he was finally accepted but I guess it wasn't added as it's not something that would happen straight away but something that would take time.. There was a few more things I was hoping would get added but didn't, however I can understand that it would just lengthen their story when it's to be the end book even though we might get to see chapter here and there of them in the following books to come. I'm definitely interested in Mia's backstory and what will happen after those two weeks are up. I definitely will miss Bones & Vanessa and recommend those looking for a hate to love, enemies to lovers romance to have a look at these two.

When I started reading this series I wasn't expecting it to be so good. Seriously, I'm not exaggerating it's that good. I have invested so much time and energy I shouldn't be so attached to this family but I'm. I don't want to give out any spoilers but I will say that Foxy in Lingerie was so bittersweet and intense is it wrong of me to say at the moment I really didn't care about Carter part of the story I just wanted it to be more about Vanessa and Bones. They suffered the most and it really should be all about them. Overall enjoyable and entertaining read looking forward to reading the next book in the series. I voluntarily read and review this ARC no monetary compensation was received the opinions I have expressed are my own.

Picks up right after the last book . Antonio is willing to be Vanessa's friend until she is ready for a relationship and Bones is miserable and decides to meet Max in a Bar , Max tells him there was a hit he wasn't going to tell him about but since he had managed to go out and appear to shake off Vanessa , he would let him know he had turned a hit down because it was a "Hit" on Conway and Sapphire to torture and kill them by the the Skull Kings . Bones goes ballistics, calls Crow to inform him and arms himself for battle . Bones saves Crows life and Conway's and annihilates most of the Skull ?Kings . No one knows why the Hit was issued but Bones tells Crow , Conway will know . In the hospital Crow apologizes to Bones for judging him so harshly and not seeing the true worth of who Bones really is . He gives him has blessing for Bones to marry Vanessa .♥? each chapter after that is a different persons perspective, Vanessa , Conway, Crow and Carter so far , interesting and while I read others did not like the addition of Carter Barsetti and Mia , I actually did . It seemed to enrich the story to me and the men in this family seem to have underground roots .

Okay, so I have almost read 300 books and I can say out loud and scream from the rooftops, Penelope Sky is my favourite author. I loved and loved this book so much, wow I just love Vanessa and Griffin so much, they are my favourite couple out of the whole series, book number 10 out of 12 books in the lingerie series. WOW WOW WOW, hot sizzling, emotional read this one was. Although Carter and Mia was also brought into the story, I wasn't very much excited to read about them, I just wanted to read about Vanessa and Griffin's story. I loved how Penelope sucks you in from the first page, this was a very hard book to put down. Griffin, (aka Bones) always had to prove himself to his Father's enemy, he was always considered trash and was never good enough for Crow (Vanessa's Father). Crow broke up his relationship with Griffin and Bones and both of them mourned their loss of their relationship. Griffin found out there was a hit from Skull Kings on Crow's son, Conway and his Wife Sapphire and their unborn child. Griffin didn't have to call Crow to warn him, but he did for Vanessa, as he loved her so much, he didn't want to her to mourn the death of her Father, Brother and Sister in-law. When Griffin called, Crow answered with hostility and anger and said "I thought I told you if you call here again, I will kill you" ... Griffin was straight to the point and Crow was like a robot taking it all in. The exchange of phone call conversation needed with Crow getting his Brother Cane and their crew of 12 men to go and save Conway. In the battlement, Griffin's men got to Sapphire's house and retrieved her safely to a safe house. It was too late for the Barsetti family as they saw their son come out fashion show Conway presented. He was battered with swollen eyes and was shoved into a car. Crow saw this he panicked, he was shooting to the car, but he knew once the car got away, he will never see his son

again. So he stood right in front of the driver in plead of desperation. The Skull King driver, got his shot gun and pointed directly to Crow's face, as he pulled the trigger, Griffin jumped in front and got the gunshot wound right into his shoulder blade, more shots were carried out, Griffin worked hard snapping guys necks and killing all the guys who threaten to take Conway away. At the end, the Barsetti family in debt to Griffin for saving Crow, his son Conway and Daughter in-law Sapphire and their unborn Barsetti child. Once Griffin was in hospital Crow apologised to him and accepted his as part of the family. Vanessa and Griffin were reunited in a emotional reunion. It was so beautiful, I can't wait to read more about how Griffin proposes to Vanessa and they have children. Loved this story so much. I also loved how Penelope show the guts and courage that Griffin had to stand up to Crow. At the end, Crow reached out and wanted to have a relationship with Griffin and admired him like a son, he wanted Griffin to be part of the family and was so happy knowing when Crow passed on, he knew his Daughter Vanessa will be taken care of, from a very strong and loving Husband. The best story ever. I can't wait to read the next book Number 11.
