This is a very excellent coloring book. The pages are a bit thicker than normal so is nice. Also easy to tear out pages. Some pages are easy and others are a bit more tricky. Making it nice not to have the same each time to color.

Lisa Congdon has given us a truly remarkable adult colorbook which will keep you coming back to color more. You can display your pictures when you are done because the pages are perforated. I see others have posted pictures from the book so I won't do it again for you. There is 30 templates for you to color and it even gives you an example of some to get you off to a creative picture. My favorite picture is the butterflies. Buy one today you won't be sorry. I highly recommend this one for your library of colorbooks.

I was given this book from Quarto Publishing Group for a honesty review.
