Make Mine A Double Nicole Austin

A sequel to My Greatest Fantasy

No doubt about it, Kaylie Ward's a loser magnet. So she swears off men. But give her some tequila to wash away those man troubles and she's more than ready for a hot ménage fantasy. Somehow, dream and reality collide when she wakes up with two naked hunks in bed with her-not that she's complaining.

Best friends, business partners, lovers-Max Lockhart and Brayden Sinclair share everything, including women. Like a bad country song, they went looking for love in all the wrong places, only to find it waiting for them at home, in their bed no less.

Kaylie's plans for the future revolve around having a "normal" life. Going after it means living with a broken heart, unless she can keep her double order of beefcake and have a real family too.

OMG. Now this is what a Ménage à trois should be! Scorching hot, hot, HOT!

Donna says

Awesome

I simply loved it. The plot was unique. The light humor all throughout was refreshing adding much to the story. The chemistry between each of them hot. Great sex. My style of book. Love the intertwining of a good menage romance when there is a good story as well as hot sex.

I can say that Make Mine a Double was different than I thought it would be.

Kaylie just seems to have really bad luck with the men. All she needs to do is find a guy who can really love her or maybe two. She had to work two jobs to pay the bills that her ex ran up and then left her with nothing.

Max fills that he is missing something in his relationship with Brayden. They've been together for twelve years and feels that a woman would be an added bonus to what they're missing. They just can't find the right one.

When Kaylie meets Brayden things really start to heat up and then adding Max to the mix just makes it explode. You just wonder if it will be a one time thing or will it work out and they all can be one big happy family.

Menage's aren't usually my thing. I'm glad that I read this one. You get to see how three people can make a relationship work. It takes a lot for just two people. Could you just imagine adding another one into the mix. You get to see everyone's personality.

You have a woman that is used to taking care of herself and her bills. Max is used to taking care of everything and he wants to take care of Kaylie. Brayden is usually the peace maker. I think the author did a wonderful job with the storyline. I really enjoyed all the characters and learning about them more throughout the story.

I will now read more menage's because I've got the chance to understand them better. I can see the possibilities and love that can happen between everyone involved.

Liked the fact that she was a strong character (even though she had horrible taste in men before these two) and that she held her own in the relationship. Really Good.

I loved, loved, loved this book. This is such a wonderful book and it even has a Happily Ever After! Max and Brayden are Bestfriends, business partners and lovers and when you mix in Kaylie things really start to get HOT! Its a must read.

I loved this book. After having a fight with max, Brayden flys home to find sexy pixie in his bed.

I loved the loving and dominating sides to max and Brayden.

I really like how strong independent Kaylie was even after being left in debt by her ex.

Kaylie thinks is only having a fling but deep down shes wanting what every women wants, a equal loving strong relationship with a hot stud. Loved the HEA.

Very fun.

CoffeeTimeRomance and More says

The fear of wanting something so badly you can taste it is portrayed so vividly in the actions of Max, Brayden and Kaylie. Max is the dominant, Brayden the peacekeeper and Kaylie the spark that ignites both men into a frenzy of love and lust. Reading the passion not only in the bedroom but in the hearts of these characters is incredibly erotic and it is easy to fall head over heels for these three lovers. Ms. Austin stokes the flames of desire for her characters as well as her readers, and the inevitable explosion leaves everyone burning for more.

A sequel to My Greatest Fantasy, this is can be read as a stand-alone. A fun, hot read, especially at the end. There was one scene near the end that made me laugh out loud. Very rare! The characters are great and I really like the heroine. I was invested in the characters and the story.

Really enjoyed my first menage and can't wait for the next one.

Really good short erotica story M/M/F. Got a decent understanding of what drove each character, enough to enjoy the bossy one. ;)
