Zach Banks says

Story is quick and drives home a single but important message. Book itself is high quality with excellent illustrations. Even the paper and binding is nice. Overall, its worth it.

Tony Bonk says

Great young kids book! Although at times it was scarier with more text than my 3.5 year old daughter is used to, she was smiling brightly at the end. It'll stay in her regular reading.

Alex Asay says

While we were reading, the power went out. The kids had a mild meltdown while I found the emergency candles and headlamps. We then finished the story and talked about facing their fear of the dark. I thought it was poetic.

Heather says

I loved this story. It tells the truth about fear and how to face it with bravery and courage. It is told by a man that i am sure has had his own healthy dose of fear.

Serena Robles says

The rhymes seemed stretched and lacked rhythm. Decent message about facing fears.

Chris Bradley says

Really enjoyed reading this one to make sure it was appropriate for my son. He's really enjoyed it and talks about it each time he reads it.

Joe says

Excellent 10-15 minute read. Loved by both my 4 and 7 year old.

They also love Jockos warrior kid books and his podcast of the same name.

Tranylle says

This was a fun rhyming book about a boy who is afraid of everything. He finds a book about a boy who becomes king and has to defend his kingdom from the dragons like his father did. The main point was that if we are brave, we will discover that our fears may be smaller than they seem. The kids enjoyed it. The writing wasn't perfect, but the kids don't mind those things.

Gabriel A says

As much as "be brave" is a message everybody should read over and over, I thought some of the rhymes were a little clunky and I'm just not a huge fan of Bozak's art.
