Not My Spook! Tinnean

Highly ranked CIA officer Quinton Mann finds himself in a relationship with Mark Vincent-for exactly five days. At that point, Mark uses the excuse of going to Massachusetts for his mother's funeral to end it. But Quinn's a spook, and you can't fake a faker.

Mark fears he's getting in too deep with Quinn, hence the disappearing act. Then Quinn does something unexpected, something nobody has ever done before: he comes after Mark. Maybe being in a relationship with Quinn isn't such a bad idea. In the meantime, something strange is going on in the intelligence community worldwide. When Quinn disappears while investigating a rogue antiterrorist organization, Mark makes up his mind. Quinn might be a spook, but he's Mark's spook, damn it-and once he gets Quinn home, he intends to keep him. He just has to find him first.

Re-read I still love this series ?? I read these when they were free, long before she published them, and these books were written long before the mainstream of M/M of today. I know there are some imperfections, but I can overlook them. Along with Ty and Zane, Prophet and Tommy, Vadim and Dan and Jeremy and Simon, Mark and Quinn (the original trailblazers) will remain one of my favorite couples in a law enforcement series. ❤?

3.5 STARS

This one was def better than the 1st.

Mark and Quinton burn up my pages.

Burn and sear and burn and sear.

The dual POV thing again.... ahhh.... the book would be a 5 star without that.

Already started book 3.

Hmm, not really sure what all to say about this book without sounding like a rambling, gushing idiot. But **I love Mark and Quinn!** There's just something about these two that just do it for me. They are hot and sexy and still haven't fully figured out they are in love with each other. Some of these scenes between them just make my tummy flutter...and I don't mind for a second at getting them twice. It does get A LOT repetitive but I *love* getting both POVs. Yep, I'm rambling AND gushing so make your own opinion if you don't like mine.

Starting Forever now.

Just as entertaining as the first.

Vincent is still as lethal and Mann is still just as charming as they were in the first book.

The relationship is evolving and getting sweeter and sexier. They become closer in this book. They are both pretty much in denial of what they are feeling for the other. But you see how deeply they are starting to care for each other by every little gesture. The relationship between these two men is what keeps drawing me back. I love them together and enjoy seeing their relationship grow.

Quite a bit happens in this one, from Mark running scared from his feelings for Quinn to Quinn going missing. We always get to see Vincent in action so it was nice to see that Mann could be just as lethal as Vincent when he needs to be.

Great addition to the series. It still a bit annoying that the author does some retelling in the other's POV, but I still loved it.

Happy reading, dolls! xx

The adventures of Ice Man Quinn Mann and Hot Head Mark Vincent continue... and IMO they just get better and better!

Carrying on practically from the finish of Houseboat, Quinn and Mark are still engaged in extra curricular * cough * shenanigans outside of work whilst trying to uphold their 'feud' within it! I love, love, love these guys!!!

They still can't keep their hands off each other, shady goings on are becoming more apparent in spook/spy land and we meet a muahahaha!!! cat stroking style villain worthy of any Bond film. I'm actually having fun reading them and book 3 is beckoning as we speak.

No complaints from me at all- me likey a lot.:D

The book begins where the first book ended, there are many emotional ups and downs, Mark will not realize that their relationship is changed to lovers. Quinton has quickly understood his feelings and hope that Mark also has the same feelings.

What started as a cat and mouse game, mind game, is that they finally have a relationship.

But then there is an enemy who kidnaps agents from the CIA, WBIS, KGB etc. Quinton for the task to find out what is going on, but a traitor expose him and he gets himself kidnapped.

Mark finds out that the CIA will not help Quinton and the other agents who have been caught, so Mark set out to liberate Quinton and the other agents.

Mark is helping the devision and Pete, it's a former agent who will form his own organization and those who will not obey his orders are killed in the most cruel way.

There are quite a few surprises and a lot of people that you quickly come to hate, some are actually not fit to be in charge of other good agents.

For example. Quinton's leader in his department.

★★★★★ 5 I-absolutely-loved-it Stars★★★★★

This book focused a lot more on Mark and Quinn's relationship than the previous one, which was *perfectly* fine by me.

At the beginning, we have Vince who is still reluctant to admit that he wants a relationship with Quinn and that what he is feeling goes way beyond sex. Even though he keeps telling us how special Quinn is and how he can't believe no one has claimed him yet, it. Is. Still. Just. Sex. to him.

I just wanted to reach through my Kindle, hit him over the head with his Glock, and say

But of course Mark doesn't pull his head out of his ass. Instead, he panics because he is letting Quinn get too close and breaks up with him. But, Quinn, not willing to give up on Mark, chases him down.

And tells him, in no uncertain terms, that he is not letting him go that easily. And there we have it, the start of a beautiful relationship, whether Mark wants to or not!

One of the things that I loved about this book was that we got a lot more parts from Quinn's POV than we did in the first book. I just adore Quinn. He knows what he wants from his relationship and is not afraid to get it. Mark was also definitely a lot more appealing to me in this book than the previous one. We get to learn more about his childhood and why he is so afraid to let anybody get close to him. And once he admits that he wants Quinn for more than just sex, he proves to be an extremely attentive and affectionate lover. We see how much he truly cares for Quinn when Quinn disappears without a word to anybody. But he didn't do a complete 180 from the previous book. He's still a misogynistic prick at times and completely nonchalant about killing others.

Eh, but he wouldn't be Mark otherwise...

Overall, I loved seeing how the relationship developed between the two characters and seeing them finally admit to each other that there is something more than physical attraction.

Moving on to book three...

Book two is fantastic!

I now know what it means to be in love with every aspect of a series and have no complaints. Yes, it may not be everyone's cup of tea, but Tinnean's series sure is mine and I adore this series. Between the first two books you get a lot of information that helps us to love and understand the characters as well as leaving you wanting more.

Not My Spook! is the second book in this series and picks up from where *Houseboat on the Nile* left off. Again, we have two POV's and it goes back over scenes from the others man's voice. I enjoy that about these books because I'm not left wondering how he felt or what he saw. You get that from the series without questioning things.

Mark and Quinn have a lot going on in their relationship. It progresses and we finally see (view spoiler)Mark bottoms for the first time in their relationship! We also learn some of Mark's history and we get to see a different side to both men. I loved how Tinnean dealt with their growing feelings and allowed us to connect more.

Not my spook!

I loved reading the scenes where Quinn was missing. Those and the ones at the funeral were touching and helped both the story and the overall couple development. I loved seeing the secondary characters too. I adore Portia. She is one of the funniest characters in the series and makes it a bit lighter.

Highly recommend this series!

Simon says

Better! - Actually some sort of plot going on here, and quite good at that, but doesn't start until halfway through the novel.

Still more graphic sex than is necessary, but so great that Mark goes to Paris to find Quinn. Death of Mark's mother? Not sure where that sub plot's going, perhaps book 3 will enlighten me.

The best character in this novel and the previous novel if truth be told, is Portia, Quinn's mother. The boys (the MC's) are just too horny to be real and it seems the majority of spies and spooks are gay. Still too much description of food on the plate (this is not Enid Blyton)although I can relate to Mark's fascination with the way Quinn eats oysters, but I really don't want in depth discussions on the main course, pudding and the wines and coffee beans. It's just non relevant. Can't believe that nobody apart from Portia has picked up on the MCs' relationship. This is a 3.5 going on 4 star. Better after the 50% mark.

Perfection.

I am loving this series, it's fast paced, exciting, funny. Mark and Quinn are adorable, dangerous, and simply wonderful together. I also like the changing POV's, I enjoy knowing what each character is thinking and feeling. What I didn't care for was the way the author would make each changing POV go so back in history, I would have to revisit the scene I just went through. And the first 20% of this book felt like a rehash of the last 20% of book 1.

Once, I got past those issues I thoroughly enjoyed reading this book. Like the blurb states Mark starts to get cold feet about how emotionally attached he is getting to Quinn. So he takes off when a family situation happens. But, what I really liked Quinn response, did he simply wait for Mark to change his mind? Hell no!! Quinn may have the reputation of being the "Ice Man", but that his not who he really is, he is a warm, caring, at times insecure man that I simply found adorable! And Mark, the tough and deadly intelligence officer was simply captivating and delicious! And again, on the inside you get a totally different side of him, hurt, wounded and longing for someone to love him. And like the blurb states Quinn goes missing, and when Mark finds out he instantly goes of in search for what's his...Quinn. Oh be still my heart! *swoon*

I loved the banter between the two and the chemistry, OMG the sex scenes were hot hot hot!! Mix that with them increasingly growing closer emotionally, and my heart was totally pulled in. Big happy sigh for this reader! *sigh*

3.5 Stars

I LOVE Mark and Quinn, the chemistry between them is perfect, their crazy, adorable relationship is the core of the story and one can't help but want more of that. I just wish the POV wasn't like this, sometimes it confused me so much I had no idea what was before what, and what was after! Still, the MCs make the book so enjoyable.

Bookwatcher says

Well well well... Mark and Quinn did it again... bewitched me!

First things first... again there are two POV, and there are repetition of scenes, something that already happened in the first book of the series, Houseboat on the Nile .

BUT, as you may notice, this time even the repetition bother me a little, it's a 5 stars book!

Why?

Evidence number one: this book has a spy plot. Agents from various agencies are MIA. Both CIA (Quinn's agency) and WBIS (Mark's agency) are worried and it may be a very important threat.

Evidence number two: there is much more romance

Evidence number three: Mark is always an asshole.. but maybe now he is an asshole in love. That change EVERYTHING. :D

Evidence number four: in the story there will be more about Matheson and Theo... I LOVED it. Their story is very interesting...not just because it's hilarious to read Mark reaction to each time this relationship is in the book, but also because it's so cute! I love them :)

Evidence number five: Quinn and Mark... no more need to be said. It's not easy to two men as them be together, and it's certainly not easy to them be apart... so yeah. It's a story that certainly will be interesting to read!

P.S.: May I add something? I really hate the "lost of time" of Quinn's fantasy. Yeah, you are allowed to call me asshole, because I really hate all those pages, of him imagining how it would be meet Mark on the Olympics games. IMO, it was a waste of pages, that could have something from the present time -.-"

This series is so much fun to read, it didn't even register when I got to the end of the book!! I could read books like this all day long and still want more!

I am in love with this series, it just keeps getting better and better IMO! Mark and Quinn push every button for me, I love how Mark tries so hard to be tough but practically melts when Quinn is on the scene its subtle but its there and boy does Mark try to fight it, he hasn't a hope in hell of escaping Quinn. I love them, every little flaw and idiosyncrasy along with the smart ass banter and sexual tension that hovers between them heavenly. Not My Spook continues to be suspenseful and taut with friction the crime and investigation is fabulous, I was on the edge of my seat throughout.

This time around Sweetcheeks, Pretty Boy and even Wills took a backseat within the story and what a pity because they livened things up in Houseboat on the Nile. I was hoping they would feature more here but it wasn't to be, maybe in the next installment. I know I am showing signs of being a fan-girl but even with its

faults those dreaded repetitive POV'S which can drive some readers crazy lol. There is something special about Mark and Quinn the way they interact the storyline all of it, for me it was great. A suspenseful and entertaining read bring on number 3 please!
