Crystal says

Fantastic Shifter Box Set! You get everything you could ask for in this anthology of Shifter romances. Wolves, Bears, Witches, lions, dragons, even Gargoyles!!! Each one is great and you get a huge selection of all types of heroes and heroines, even one that can change from a small black cat, to a large black cat, to a cat with wings, to a man with wings to one hot as heck man! I was given a copy of this book for an honest review.

Monica says

I'll be reviewing this set by book that I read.

Her Alpha Mate by Michele Bardsley was an interesting twist and a short story. Fire Pack wolf pack has a lot of pride and strength so when Jonah the new alpha chooses Alice as a mate...considering she's seen as the weakest link she thinks he's nuts choosing her as a mate. They fall in love and are happy until they try for pups. She's barren and she is afraid he'll be seen as weak and be overthrown because he can't produce an heir. So....she leaves him and summons this fire spirit so she will die and be sacrificed so Jonah can find another mate to CAN give him what he desires. Jonah loves her and doesn't care she can't give him pups. He finds her and defends her and almost dies until this spirit finds out why she called him. He heals her and now can have pups. It was a sweet story but a little strange lol. Not bad.

The Bear Witch Project by Renee George was...different. It was ok but needed a lot more development for the story to make sense. I got the gist of it but would have liked more. I also think Sol forgave and let Ty off the hook a little too quickly. She accepted things quickly but I don't know the story was just missing stuff.

Her Destiny by Brandy Walker was a good story. Sweet and cute. A mix of shifter romance and paranormal. Malcolm has been following Selena around for awhile as a small kitty cat. He's a strange sort of shifter who can morph into a bird of some kind, a big cat, and a small one. He is her protector but she thinks he's a little kitty cat who follows her home some nights. She finds out different when she's attacked by a crazed ex of hers. She's in lust with him because he's a good looking guy...and he's in love with her. They make love and he tells her everything about himself and her destiny which she's confused at first but accepts. It's a neat story.

Knight Force 1 by Sydney Addae was a little weird and off the wall when I started reading it. I was really confused like I missed something. Lots of characters and have no idea who they are or what the real story was. I tried looking it up and it seems it's part of a series...good to know. So, if it's part of a series it should be known otherwise it confuses the heck out of people which it did.

Darkness Rising by Lisa Carlisle I did not read

Her Dragon's Soul by Julia Mills was great. It's the continuing story in the Dragon Guard series which I've read them all and love them. I DO wish this was longer. Seemed a little rushed to me or maybe it's because it was too short compared to the others so I expected more. It's about Hannah who was in book 8 as best friend to Melanie. Mel's Grandfather put an evil being inside her without her knowledge and slowly turning her evil and it's controlling her. Liam sweet Liam isn't having it and is heartbroken that it's being done to his mate. He

fights like hell to get her help but gets kidnapped himself. Thankfully the bond is strong and his fellow Dragon Guard finds him along with spitfire Kyra...still love her! Takes some doing but along with Hannah's family and Kyra and Melanie they cast it out of her and this sweet couple can mate. I loved it just wished it was longer. :) Series isn't over yet though because good ol Grandfather is still on the loose.

The Gathering: Homecoming by Ellis Leigh was sweet. This is a continuation of Blasius, Dante, and Moira. She is overwhelmed and kinda freaked out. Blaze is the President and its a bit much for her to deal with. She's in this lavish "white house" place and she just doesn't feel like she belongs. She keeps this mainly to herself but Blaze figures it out and tells her he has many homes and is more than welcome to move things there. LOL...its funny cause she is surprise by this. If she would have just told them her feelings...uh yeah. Dingy! I've read this series as well and its a great series.

Wolves At The Door by Skye Jones was not for me but I read it. Brooke is a scientist and is studying this area shes been staying in until all these wolves come to her door. She's scared but Drew an alpha explains things to her and he is watching out for her. She's got a weird attitude about it. I really didn't like her much because she ends up being so selfish and hurts Drew after she AGREES to mate with him. He tells her everything before they even mate and she goes along with it. Then she thinks to change her mind which really hurts him and he's basically rejected. Then once she gets in trouble shes like Drew oh Drew I do want you. Seriously? LOL...sorry just didn't like it much.

Domlen's Way by Solease M Barner was different and sorta all over the place. Its a prequel obviously which I didn't really realize til the end. LOL. Basically, Dom is a dragon shifter but no pun intended hes a Dom as in dominant. He's a real jerk and has Givers which are women he used for sex...so like a prostitute but they don't get paid. Its in the realm of Kings and Queens so I guess it would be like a harem kinda. His mother the Queen wants to force him to marry his Giver Tika and he doesn't care for her just as a sex partner. Then one of his brohters informs him his mother is doing this because he supposedly falls in love with a wolf and she wants to prevent that. Wolves aren't thought of well in this world obviously. Then it kinda ends there. I am familiar with book 1 about Draken. Which I enjoyed. Dom comes of really callous and unfeeling. LOL. Maybe when it comes out I might read more but not sure.

Rescued? By the Wolf by Cristina Rayne was ok. Not bad. Lots of things going on but she meets Nolan who kinda saves her butt in a pinch even though didn't really want to til she SAVES his butt. LOL...see how that works? Cute read.

Spring Mates by Lynn Tyler didn't read

Breaking the Storm by Sedona Venez didn't read

Anyways, out of the 3 I enjoyed the set. It was a very good set of short stories. Enjoyed them.

Cindy Caron says

I received an ARC of this boxed set in exchange for my honest review

Her Alpha Mate – Michele Bardsley

Different, well written, short and sweet, and a great way to start this boxed set. The author has taken shifters and given them a new dimension. The plot is unique, yet still has enough of the "normal" entities of a

paranormal story. The characters are solid, stubborn and very much in love. Great story. A quick read, but a definite recommend.

The Bear Witch Project – Renee George

I liked this. A bit different from other paranormal, but very well written. Enjoyed “watching” Sol come into her gift, with the help of a little push from Ty, and Red Sun. Great plot, good strong characters. Not much to not like with this one. Well done.

Her Destiny – Brandy Walker

Yet another great story. I like the idea of a new witch coming into her power at a later age. I love the fact that Selena has an unusual career and is not totally freaked out when she meets the “real” Malcolm. These two are perfectly paired. The plot is fresh and the book well written. Would like to read more from this author.

KnightForce 1 – Sydney Addae

This book is the beginning of a series, and is an indication that it will be a great one to read. There doesn’t see to have any particular “couple” to concentrate on, but an entire group of characters forming the “pack”, giving us many to sort through. Once you get the gist of who belongs to who, it leaves you in awe as to how the author has intertwined them all together, giving you an awesome read. This gives me the feel of a series you might find on TV, with a group of main characters, but different episodes weekly covering many different situations. I guess we will find out soon enough. Loved this book and am looking forward to reading more from this author.

Darkness Rising – Lisa Carlisle

Ughhhh! A real cliffhanger, but what a wonderful story. This is extremely well written, and has a plot like no other that I have read. I love how the main character, Antoine, has evolved over time. He leaves you feeling compassion and frustration for his situation, yet love for who he has become. My only wish was that we would have had a bit more on Savannah, but I guess that is why it is such a cliffhanger...to keep us in suspense until the next episode. Can’t wait for the next part.

Her Dragon’s Soul – Julia Mills

Oh my! What a great book. I can definitely see this as a series, even though, with the exception of the last few pages, it could be considered a standalone. Of course, the last few pages hint at further episodes, which would make me a very happy reader. This is an easy read, with just a bit of mild violence and lots of love and a bit of steamy sex thrown in for good measure. The characters are wonderful, giving you insight to a new dimension. The plot is different from others and keeps your interest. Loved it.

The Gathering: Blasius, Dante, and Moira The Homecoming – Ellis Leigh

Wow! Love this. This book has meat that you can dig your teeth into, grab onto and run with it. The plot is new and fresh. The characters are strong, yet have many quirks that give them colour. Love the fact that this was about an established, mated pair, who after centuries, have found their third, completing their triad. Great story, not too long, but complete. Well done.

Wolves at the Door – Skye Jones

Great short bedtime story, complete with the big bad wolves. The plot has borrowed a fanciful flair, giving the impression of a “little red riding hood”, adult version, yet with many twists and turns that are truly unexpected. Love the characters, especially Drew and Brooke. Great read.

Spring Mates – Lynn Tyler

Awww! Make sure you have your tissues handy. This is a wonderful love story. Short, but complete. It tells

the whole tale and does not feel rushed. The characters are strong, yet have enough softness to be real. This is the first I have had the pleasure of reading from this author, and hope to read more from her in the future.

Breaking the Storm – Sedona Venez

OMG! Serious cliffhanger here! Awesome book, and I am truly hoping there is another instalment to the story. The plot is a wonderful fresh idea, mixing all of the “bad boys” in one book. Between the rock stars, shifters, witches, and humans, male and female, we’ve got enough hotness to burn into a bonfire. The characters are HOT and sexy. They portray many traits, including confidence and insecurity, lust and love, and lots of heat between each other. The sparks are truly flying. This is a great way to finish the boxed set.

Lisa says

Over all this is a good box set and well worth the price. I recommend it to all paranormal readers.

***Her Alpha Mate by Michele Bardsley 3 Stars

As the Fire Pack alpha’s wife Alice Mason is unable to conceive a child with her husband so she goes to the extreme in trying to free him from his bond with her and allow him to find a mate that can give him children. The story was good but the characters needed more depth to them.

***The Bear Witch Project by Renee George 3 1/2 Stars

Bear shifter/ shadow warrior, Ty Wasape is looking for a witch that is killing people when he sees curvy witch Solange Tremaine at a slot machine at the Osage casino and has to fit his attraction to her while proving she’s not the killer. Story was just ok. No real depth to the characters. Connection felt strong between characters then dropped dramatically once Malcolm was no longer Felix.

***Her Destiny by Brandy Walker 3 1/2 Stars

Selena Perry has moved and begun a new life while trying to hide from an abusive ex. Unknown to her she is the last of the Supreme Witch and has made alley cat she calls Felix, who is actually a winged man named Malcolm, her familiar. When her ex finds her and almost kills her, Felix/Malcolm comes to the rescue

***Knight Force 1 by Sydney Addae 3 1/2 Stars

La Patron sends his warriors Asia, Angus and Tyrese, to the Rocky Mountains to prevent more deaths that could make humans aware Shifters exist. The story idea was good and interesting but there was just way to many characters, titles for the characters and connections between the characters plus to many things going on that was confusing. I think the author tried to hard to put to much into the story.

***Darkness Rising by Lisa Carlisle 5

Antoine Chevalier is a gargoyle shifter who is attacked by rogue vampires and turned in the hope that he would then side with them and protect them. I liked this story a lot. I’ve read the first 3 books in the series and find this author to be a great world builder and story teller.

***Her Dragon's Soul by Julia Mills 4 Stars

Part of the Dragon Guard series that tells the story of fated mates Liam and Hannah. I was a bit lost at first with this one. Basically the story is exorcise a demon save the world.

***The Gathering: Homecoming by Ellis Leigh 4 Stars

Blasius and Dante try to make their mate Moira welcome in their home. However the mountain girl is finding it hard to find her footing in her new mates wealthy life style. It was nice to revisit with these characters again.

***Wolves at the Door by Skye Jones 4 1/2 Stars

Brooke is studying Scottish wildlife when she finds sexy Drew and alpha in training. She's his mate but can he get her to see that? I like this short story is felt complete.

***Spring Mates by Lynn Tyler 5 Stars (M/M)

Adam and Cullen have been together for years now and Cullen wants to get married. However Adam comes from a dysfunctional family background and isn't ready for the next step. I enjoyed this story and how it played out.

***Breaking the Storm by Sedona Venez 4 1/2

Storm a curvy fae witch and Knox a rock star/wolf shifter share a past but a curse and a psychotic ex-boyfriend may keep them from sharing a future. I've never read this authors work before but I liked this story enough that I will be looking for more books by this author.

***Domlen's Way by Solease M Barner AND Rescued? By the Wolf by Cristina Rayne were not included in my copy.

Received ARC copy.

This review is from: Shifters Gone Alpha (Kindle Edition)

I was gifted an ARC Copy of this book for an honest review. What a wonderful mix of stories. I thoroughly enjoyed reading all of them, some more than others.

Her Alpha by Michelle Bardsley is the story @ Alice and Jonas. Alice Mason is the mate to Jonas, the leader of the Fire Pack and because she is barren she believes that if she leaves and summons the Kunda Spirit her Jonas and the pack will be safe. Jonas will be able to have an heir. Jonas can't believe Alice would leave and summon Kunda, what was she thinking?. Jonas finds Alice in a cabin the same time the Kunda comes for her. Will he be able to save her? Gotta read the book for the exciting ending.

The Bear Witch Project by Renee George is a first for me reading about shifter bears. Wonderful mix. A great Love Story between Solange Termain, a Sorcellarie withch, but doesn't know it yet and Ty Waspe, bear shifter of the Osage Clan. A side trip on her way home to see her mom, Alice stops at a reservation casino to think things through. Ty is there and is drawn to her,his bears says she is his mate. But neither realize that a another Socellarie has other plans for Ty.What could it be?. Great story

Her Destiny by Brandy Walker is such a fun story, it had me giggling throughout. This story is about Selena Perry, a night worker at the morgue and a Supreme Witch. Following her home after each shift, she is greeted by a cat she has named Felix. Oh but Felix is just not a normal cat, he is what they call a Thalocian, shifter of sorts that can change into many forms, including human. Great story you have to grab, I look forward to more of Brandy Walker's writing.

Knight Force 1 by Sydney Addae: This story consists of a lot of characters and what characters they are. Angus, wolf shifter, is shot and taken captive, they then take his blood, leaving him for dead. The Knight Force is trying to stop all the bombings going on, but when they hear Angus is missing, they must find him.

Fast paced and more twists and turns to boot. Good Read

Darkness Awakened by Lisa Carlisle. Another new shifter for me, gargoyle!! This story starts out with vampires attacking Antonie, the gargoyle, they want to turn him so they can have a vampire with super gargoyle strength. Years after leaving the nest of vamps, Antonie saves a boy, Cameron, from an attack. From there, the Chateau LeRoche is born, and oh what happens there, lol.. Awesome fast read story!!! A cliffhanger that will have you screaming.

Her Dragons Soul by Julia Mills, Awesome!! Love her books. This is Liam and Hannah' story. Dragon's, Lost Souls ,true mates, sigh..This story is to die for. If you haven't read any of the Dragon Guard Series, you have got to!!

The Gathering by Ellis Leigh: This is a shifter wolf story of 2 brothers, Blaze and Dante, and their she-wolf mate, Moria., together they make up the triad union. Squeal, this book was great. I loved that a simple chandelier could cause such trouble.Oh and when a she wolf goes into heat watch out, lol.

Wolves at the Door by Skye Jones: When a woman scientist Brooke Buchanan takes on a job for 12 months as a ranger in the mountains after being bitten by a werewolf in her home town. Drew is a sexy hot wolf loup-garou shifter and will keep Brooke safe when the other's want her for themselves. Hot, steamy read, Loved it.

Spring Mate by Lynn Tyler, is a love story between two male wolves, Adam and Cullen and what happened between them two. Adam refuses to get mated, but why?

Breaking the Storm by Sedona Venez is a crazy fun shifter, rocker story.

Overall I enjoyed all of the books in this bundle.

Shifters Gone Alpha Boxed set (12 books)
multiple authors

I was only planning on reading a few of the stories in this boxed set, but I couldn't stop reading once I got started.

This boxed set has unique short-stories the will pull you in and keep you reading. Though they are all paranormal, the world in which they take place in and the lifestyles all differ and are very intriguing.

Some stories were by favorite authors of mine, and others were new authors-to-me and will be added to my list of authors to read from now on.

This is a new set of books based on alpha shifters written by some wonderful authors. I read all of these before and loved all of the stories. I will review each story individual.

Her Alpha Mate by Michelle Bardsley... tells the tale of Alice Mason, the alpha's mate and wife who finds out that she is barren. So she decides to sacrifice her life to ensure the pack will go on with a heir for the alpha. Jonas, the alpha, refuses to let the woman he loves go without a fight. Will Selena be able to believe Malcolm and come into her own or will she walk away?

KnightForce 1 by Sydney Addae..... This book is a spin-off of the La Patron series and features our favorite characters from the prior series. Silas decrees half breeds are equal as well as the full-bloods and creates a special task force to make sure this happens and also to take care of the violence that the rebels and other conspiracy groups throw their way.

Darkness Rising by Lisa Carlisle.... Is the story of how Antoine and Savannah from the story Dark Velvet meet and how Antoine became a vampire.

Her Dragon's Soul by Julia Mills.... This is new book in the Dragon Guard series. Liam knows something is wrong with his mate Hannah and with the help of his friends and their mates they will find out what. Hannah knows that something is wrong with her and wants badly to make it stop. Working together everyone will play their part to find and end the evil that surrounds them.

The Gathering: Homecoming by Ellis Leigh.... This is the follow-up to the story Gathering that show the most powerful triad after they are mated. Moira isn't comfortable in her new home and her mates don't know what is wrong with her. It takes another shifter to get Moira to admit to her insecurities and come clean with them.

Wolves at the Door by Skye Jones.... This is the first book in a new series Brooke comes to the Scottish wilds to study wolves but what she gets is Drew a hot sexy Alpha who wants more than one night with her. Brooke wants him but she isn't willing to become his mate because he fails to tell her what it means to be a mate. When Drew leaves after giving her an ultimatum she packs her bags and leaves. When she decides that she can't live with out Drew she tries to return, but someone is watching her. Will Drew find her in time or will Brooke be lost forever?

Spring Mates by Lynn Tyler... This is a M/M love story so if you are uncomfortable with this then this story is not for you. Cullen has loved Adam for years and wants to mate him. Adam also loves Cullen but doesn't want to mate him after seeing the disaster that his parents made when they mated. Cullen can't take much more and tells Adam he wants out if he refuses to mate him. Will Adam be able to overcome his fear or will he lose the love of his life?

Breaking the Storm by Sedona Venez.... Storm is Fae who is cursed with not being able to love a human or they will die. Knox is a Wolf Shifter. Knox is a Dom who wants nothing more than to make Storm his no

matter what he has to do. Will the Credence curse be broken. This story is very hot since Knox is also a rock star.

The other two stories were not part of the ARC box set so I was unable to read so I didn't do reviews for those.

I was given a copy of this box set for a honest review...

Given to me for an honest review.

Her Alpha Mate by Michele Bardsley---This is very short story, but enjoyable in spite of that. Alice was the runt of her litter and she stayed relatively small as she grew. The new Alpha looked at the single females presented to him and chose Alice. There is a problem with their love and problem.

The Bear Witch Project by Renee George---Sol was enjoying life until she turned 21. Now she has headaches and sees strange things. She called her mother and was told to return home immediately. Instead she decided to make a stop in Oklahoma at one of the Native American casinos. Ty is looking for a witch who has killed Native Americans. Will Sol be murderer? Or are his instincts right and he can act on the attraction he has for Sol?

Her Destiny by Brandy Walker---Selena lives close to work so she walks home and is accompanied by a small black cat that she has named Felix. He won't let her pick him up but he enjoys the warm milk she gives him. One night on the way home she was thinking about the odd killings that have been happening. This gives her attacker a chance to grab her. Will she be able to get away from him? Will Felix be OK?

KnightForce 1 by Sydney Addae---This is the first book of the KnightForce 1 series. It seems that everyone had adventures before this book. This book kept me entertained and I want to read the books that introduced these characters. It took me some time to feel comfortable with the names and the hints of previous actions/behaviors. KnightForce is being established to assimilate the half breeds and the full bloods together into the Wolf Nation. Silas, La Patron, has decided that half breeds need the same support of pack and the Goddess that the full bloods do. Now, in addition to teaching the half breeds all they need to know about being half werewolf, Silas has rebels running around who want to kill all the half breeds and don't care about collateral damage.

Darkness Rising by Lisa Carlisle---Introduces Antoine and Savannah's story which continues in Dark Velvet. Dark Velvet is their story from Savannah's point of view (POV). This story and Dark Velvet is part of the Chateau Seductions series. Ms Carlisle writes erotic fiction but this particular story has practically no sex scenes. It is a nice little story.

Her Dragon's Soul by Julia Mills---Dragon Guard series #9 tells you that while Ms Mills says these books are stand-alone, she also says that it is better to read them in order. So here we are in the middle of an unknown world and rules, for me at least. Liam and Hannah are mates but neither one has said that to the other. Liam is very concerned about Hannah. He is almost completely positive that she is being controlled by a dark force. She sits there like a doll with no expression, no sparkle in her eyes, and doesn't answer Liam. He is afraid that the dark wizard is plotting something bad (again) and it involves Hannah. Is it the

same dark wizard? Can the white witches restore Hannah back to herself?

The Gathering: Homecoming by Ellis Leigh---Moira has lived in a very small pack and they joined the National Association of Lycan Brotherhood to find mates. She mates with the leader of the brotherhood and his mate. The house she will live in is a large mansion with slippery marble floors. She is intimidated by the long hallways and a very large chandelier that makes her think it has teeth. Her mates want to know why she is so shy when she was strong and commanding at the brotherhood's social which is used to meet possible mates. Will she tell about her fears or continue to hide out?

Wolves at the Door by Skye Jones---A woman goes to an area in the Scottish Highlands to study plants and animals. A neighbor comes by to bring scones and warn her to not be outside when it is dark. There are dangerous things in the woods. Brooke and her dog hear noises at night for several nights. Then one night she wakes and sees a man sitting in her bedroom. He tells her that he has been keeping her safe from the things. Who is he and how will she stay safe to carry out her studies?

Spring Mates by Lynn Tyler---Cullen loves Adam, but after 6 years he wants to be officially mated. Adam is afraid because his parents although they hated each other. Cullen needs the mating bite. Will Adam be able to ignore his parents' behavior and mate with Cullen?

Breaking the Storm by Sedona Venez--- Storm has too many men in her life. She needs closure with Knox. She said some nasty things and left him years ago. Now she has an ironclad contract as an escort that his friend made for him. If she doesn't fulfill it, the friend will tarnish her business' name. When she goes to a charity gala, her ex boyfriend keeps telling her that she is still his. A nosy reporter, who knows what her company does, and a police detective, who is investigating a breakin, doesn't help her.

My ARC was given for a honest review. The paranormal romance box set has several stories about different amazing alpha shifters who would do anything to keep their mates safe. This boxed set is for readers 18+ age group due to sexual content, and has many good stories or novellas in it. I would give 5 stars for the set.

Her Alpha Mate (A Fire Pack Rules Series) by Michele Bardsley

This story showed that having each other and love will help overcome any obstacles in the end. They are both wolf shifters. Alice Mason is running away from her Jonas, her mate, to give him a future without her to have cubs with someone else. Alice plans to give herself to Kunda to get favor for the pack. She doesn't realize that she can't get rid of Jonas or Kunda that easily. You'll just have to read it to get the ending. Good book.

The Bear Witch Project by Renee George

Ty Wasape, bear shifter, is in charge of finding the rogue witch killing shifters. Ty meets Solange, a new witch who has recently came into her powers. She doesn't know why things are happening to her or that she's a witch. Ty needs to find out if she's guilty even though she's his mate. Bear shifters and witches are enemies. Read the story to find out what really happens. Good book.

Her Destiny by Brandy Walker

Selena Perry does not know that she is the last supreme witch with immense power. She works in the morgue and is hiding from her crazy ex. Malcom Turner, her friendly shape-shifter, as a black cat she named Felix

watchs over her. He saves her, and has a good talk about her destiny and him. Good book.

Knight Force 1 by Sydney Addae

There is a link at the end of the story to get for free directly from the author first three books in the La Patron: series BIRTHRIGHT, La Patron, the Alpha's Alpha, Book 1; BIRTHCONTROL, La Patron, the Alpha's Alpha, BIRTHMARK, La Patron, Alpha's Alpha, Book 3 for a limited time only. By reading the first three books in order before Knight Force 1, I was able to understand the some of the characters better and what drives them.

Knight Force 1: Is a spin off from the La Patron, Alpha's Alpha series. La Patron had a group of specialized werewolves called Knight Force 1 to handle tough situations for him. They go after rebels who kill half breeds and their human mothers. There is a lot of action and suspense. This story can be read by itself or with the other 3 mentioned above in the Alpha's Alpha series. Good book.

Darkness Rising by Lisa Carlisle

Chateau Seductions 0.5 in the series

Antoine is a gargoyle shifter turned vampire against his will and made into a hybrid. Despite all his pain and suffering is able to reconnect with his humanity. He and Savannah are attracted to each other. This novella is a prelude to the full story Dark Velvet. Good fast read.

Dragon's Soul by Julia Mills

Her story is good to read as a standalone or with the Dragon Guard Series. Good book.

The Gathering: Homecoming by Ellis Leigh

A novella about a mated werewolf triad of Blasius, Dante, and Moira. A good fast read.

Wolves at the Door: Shifters of the Glen, Book 1 by Skye Jones

Brooke lives in an isolated cottage with her dog to do research. She gets werewolves literally at her door. Read the book and find out how Drew saves her. Good book.

Spring Mates by Lynn Tyler

M/M werewolves book. This is not normally the type of book that I would read. I gave it a shot. Good book.

Breaking the Storm by Sedona Venez

A fae witch named Storm and Wolf Shifter, Knox Gunner are the main broken characters in the story. He wanted to break Storm. Dom Knox wants Storm to submit. There BDSM themes, profanity with paranormal characters in this story. This story is not a standalone. The atypical ending makes you want to buy the rest of series to find out what happens to the other characters. Good Book.

I hope you will enjoy reading this box set. I know I did. This set is definitely a keeper.

Thanks for reading my review.

ARC given for an honest review. This book has great stories in it. I've read quite a few of these authors before so it was nice to read more into their series.

Her Alpha Mate by Michele Bardsley--- I've read some of the Pack Rules Series and loved reading it so this was just a nice treat. The story line was great and showed you true love really works out.--- Running from her mate to give him a chance and having cubs. Giving herself to their god to get favor for the pack. She doesn't realize that she can't get rid of him that easily.

The Bear Witch Project by Renee George---Witches and Bear shifters. What can be any better?? Good plot and if you like shifter stories this one is a good one to read.--- A witch killing bears. A new witch who doesn't know what she is or why things keep happening. He thinks he is going crazy or that things are just wrong cause he wants a witch. A bad guy, a good guy, and a witchy momma.

Her Destiny by Brandy Walker--- This is a first book by this author. I have to say it was a good story and will be looking for more in this story line.--- A powerful witch who is in the dark and a shifter for her to love and keep her safe. She works in the morgue and is hiding from a crazy ex. He's a kitty watching over her, He saves her from the crazy ex then shows her real love.

Knight Force 1 by Sydney Addae--- I've read the first four in the La Patron series so I wasn't completely lost with this story. It would have been more confusing to someone who hadn't read any of it. I love read this author and need to catch up on the rest of the series and the spin off for Asia.--- Rebels going after half breeds and crazies with flesh bombs. Love between mates and children and of course, there's Angus. Can't go wrong with this book.

Darkness Rising by Lisa Carlisle--- I've got the first book in the series and haven't even started it so this is my first for the Chateau Seductions series which is good sine it is 0.5 in the series. I'm happy to get the chance to meet the character's before getting into the series.--- Antoine- Shifter turned Vamp. Savannah- Poet. Something between the two of them and can't figure out what. This story tells how Antoine gets turned and how he met and started to want things he didn't think he deserved.

Her Dragon's Soul by Julia Mills--- First book I have read in the Dragon Guard Series. Have to say I will be looking into the rest of the series as soon as possible. I loved this book, but was lost when I first started reading and had to try to figure out what was happening in the story line.--- Crazy old wizard and a demon being put into the body of a dragon's mate. A dragon knowing what he wants and gets it after some messed up situations. Good book.

The Gathering: Homecoming by Ellis Leigh---I had to quit reading the Shifters Gone Alpha book just to read this book before this one. I loved how this one shows after the mating of Blasius, Dante, and Moira.--- Moira is not ready for the crazy rich mansion she moves into to be with her mates while they go back to working the way they always have. Now she has to find her place in their world.

Wolves at the Door by Skye Jones--- This is the first book I have read by this author, but have to say I will be looking into reading some more.--- Brooke is in the middle of nowhere for her job with her dog Sandy. She gets more than she bargained for when she meets her mate. There's a crazy shifter who takes her then she realizes what she really wants is her new mate.

Spring Mates by Lynn Tyler--- M/M book. Not really into that type of book, but have to say that it was a pretty sweet story.--- Two men that have been together for 6 years and one can't commit like the other wants. An ultimatum is given and that results are the best part.

Breaking the Storm by Sedona Venez--- First book by this author. I had to buy the book after I read this part of the full length. I loved this book.--- The Credence curse is the worst thing ever. Can't fall in love with a human. Storm starts to fall for Knox before he even makes it big, but there are people who want to keep them apart. Four years later they are throw back together and Storm decides she doesn't care what happens as long as gets to keep her man. Secrets come out and thing get put into perspective for both of them.

I received this book from Boxed Set Authors in return for a fair and honest review.

This compilation of novellas and full-length stories contains something to whet the appetite of any Paranormal Romance lover. Every tale is different but the one thing that is constant is the well-written and in-depth stories and characters. All of these stories are well thought out with no plot-holes. There are some that are either the precursors or novellas that come after the main book but they are all able to be read as standalones.

This boxed set has given me new stories from old favourites and new authors alike. I've certainly added some more to my 'favourites' list and will be looking for more from these.

Highly recommended for all fans of anthologies and paranormal romance.
