## **The Tiger's Eye (Anna's Worlds #1) Dianne Walter**

Magical powers surround a young girl who must pit her wits, courage and compassion against an evil force from another world. When thirteen-year-old Anna Brighton meets a great bear in the orchard behind her house, she is terrified. But when it speaks to her, she is sure she is going crazy. Then other animals start speaking to her and she slowly learns she has been chosen by the Earth to stop an evil Dark Lord from crossing through a hidden gateway from Earth's mysterious sister planet, Thera. If he gets through, he will cause death and destruction on both worlds. Armed with growing powers she barely understands and forced to face menacing creatures sent through the gateway to destroy her town, the struggle carries Anna and her best friend Alex into Thera, where the Dark Lord, his army of man-beasts and a huge, blind tiger await them.

## Eliza Leone says

\*I received this book through a goodreads giveaway\*

One magical child who can save worlds with her love!

3 star writing, 4 star story

Series: Yes, book 1 of Anna's World

Characters: Kids were well written and fun to read, adults were written through a child's eyes and felt very one dimensional.

Setting: Great descriptions, worlds were rich and alive.

Adult Content: None, suitable for kids.

Suspected Target Audience: Children and teens

Anna's lives with her widowed mother on a small orchard in a small town, one of the ones where everyone knows everyone. Her best friend Alex and his older brother Peter live next door and are often inseparable and getting into trouble while playing outside and riding their bikes around the town. When one day Anna begins hearing animals talking to her she confides in her best friends and they set off on a magic quest to save worlds.

Anna is a caring, giving youngster who fiercely protects her friends in any way she can. She shows courage to stand up to the evils in the world, empathy to those others call villains, and compassion to those who need it.

I thoroughly enjoyed reading Anna's story. Each of the supporting characters had different personality types and helped to balance Anna's sugary sweetness. The adults in the story were far less important than any of the interactions with the children, but they were no less of fleshed out characters.

Recommendation:

This would be a wonderful book to read before bed with a child, the magic in the worlds would provide wonderful dream fodder and the heavy sense of right and wrong would be a great conversation starter.
