This work of sirah attempts to focus the reader on not only the details of the Prophet's life, but on the practical lessons which can be learned from it, something which is prevalent in other works, but not nearly to this degree. Dr. al-Buti also levels an adequate response to Orientalist history when relevant, without detracting from the work. The translation is also well-done and fluid. This work deserves a new, well funded edition, as it is my opinion that it is one of (if not the) best work of sirah in the English language.

After giving more than sufficient amount of detail of the Prophet's life and mission, he then spends around 100 pages summarizing the rule of the Righteous Caliphate, continuing the "Lessons and Principles" for these chapters as well. In it, is included a wonderful clarification of the primary Shi`a misconceptions surrounding the political leadership of the early Muslim community in a manner that is perhaps as diplomatic, but unabashed as I have ever seen. He then concludes with a refutation of Ibn Taymiyyah's (may Allah forgive him) breaking with consensus on the issue of the permissibility and merit of visiting the Messenger of Allah (Allah bless him and give him peace) with a level of succinctness that should put the issue to rest.

This book is amongst my essential reading list for English-speaking people and it is perhaps the only book I have ever read where the introduction was perhaps as important as the book itself. Though others have noted it should be read as a supplement to other Prophetic biographies, it is not short on detail and anyone reading attentively would have a firm grounding in the subject. Thus, rather than it being a supplement to other works, I would rather suggest that more details works be read as a supplement to it!

Alhamdulillah at last i finished this book. A very beautiful and good book of seerah. But i really eager to read it again. I found that they have the translation version and I hope the translation version is as good as in the language i read; arabic.

I have to be frank here. Arabic is not my 1st, 2nd or even 3rd language. There are times the writer chose a very strong and hard word. Causing me a bit of difficulty on understanding. But i am very sure the writer chose that words and phrases very very well. I believe arabic language is so amazing. Having a double and triple meaning are never a shock.

All of the story begin in a very beautiful manner. They start slowly, the plot in time order and some particular event described well by the author. Masha Allah. Plus some of the chapter end with a reflection thought of the writer on how; we as the ummah who never met Him Sallahu Alaihi wassalam value the moral and life of our Prophet peace be upon Him.

Alhamdulillah
