## **Christmas Healing** Morris Fenris , Jasmine Bowen

He's a vampire who has been locked away for a thousand years in a coffin, finally freed. But the world has changed drastically during that time, and there are so many things that he's not ready for. He hated being a vampire when it first happened, and he hates it now.

She's barely 18, a young girl with terminal cancer, once the height of popularity. Chosen by another vampire clan to keep them "updated" in the world, her blood infected and not tempting to them, she is brought into his household to teach him, page by page, the modern world and how to live despite her inevitable death. With the Christmas season approaching, she teaches him that there is more to life than just living. There's generosity and goodwill.

Although she has a boyfriend back home and he has no interest in living, slowly, a love and understanding blossoms between them that no one else can penetrate. A secret pact enfolds as her life force begins to fade.

Will he be able to grant her the greatest gift of all?

### **Debbie says**

Christmas Healing is a great vampire story. A different vampire story, romantic but sad also. I had some tears reading about Annalise and her battling cancer. Arthur was such a sweet vampire, waking after 1000 years to a modern society. But Annalise was able to help him learn so much and also to learn to love. A great love story.

### **Robyn says**

This is a touching story. There is a great love and tragedy. The will to go on through the depression pressing on the heart, and overcoming that depression. Seeing the light that is in life.

I picked this one up for free the other day.

I can't believe that no one has mentioned that it's a thinly veiled Twilight Fanfic. (with a little Underworld to-boot)

The story was a bit ridiculous; A bunch of vamps hire a teenager to help them learn how to use Facebook? Yeah....that happened.

There was lots of fast-forwarding with no real relationship development.  
One minute she's teaching him how to shop at the mall and the next she's in loooove.

Did I cry? No  
Did I root for the h/h to become an item? Not really  
Did I laugh? Definitely. (Probably for all of the wrong reasons)

The following review was originally posted on my book blog The Book Challengers.

Colour me surprised. If anyone had ever told me that I might actually somewhat enjoy a Twilight fanfic like this, I don't think I would have ever believed them. But lo and behold, it has now happened. I read a Twilight fanfic and even managed to enjoy parts of it.

I liked how Arthur had been in Torpor for so long and now actually needed help with understanding the contemporary world. I liked how it didn't come automatically. I liked that the actually had a happy ending (even if it somewhat miracle-like). I liked Arthur and Annalise, I liked to see them together and I liked seeing them become friends. I liked the thought behind all of this and thought that the premise was actually pretty great, the execution only needs a bit work as there were also a few things that I didn't quite like.

So, the things I didn't appreciate as much? Well, they include such things as basically every vampire in existence needs lessons on technology, on Facebook, on whatever from a dying 17-year-old girl. Facebook of all things! I didn't like the Twilight fanfic part where Annalise is living with a family of vampires where all of the "children" are actually married to one another. I didn't like the part where Annalise was in a relationship, in a romantical relationship with one of those married family members I just mentioned. And while I said that I liked seeing Arthur and Annalise become friends, I think a lot more page room would have been appreciated as the relationship progressed really fast and maybe the authors should have stuck with them being just friends...

Although the sequel is also freely available I don't think I actually want to give it a shot... First, because I think this story worked pretty well as a standalone and I don't need to read more about Annalise and Arthur and their kind of a relationship. Also, the second book's blurb kind of angered me already by saying that Arthur eradicated some bloodline 400 years ago when he was actually supposed to be out cold in that vampire coma of his. Either change the name or the timeline...

Anyway... kind of a feel-good YA holiday romance that you may give a shot if you're looking for something like that?

**Amazing**

**Amazing**

The story line is amazing. I gave it a 5 star because of how well it was written and how captivating it was. I read it in one sitting.

**Yvonne says****What a endearing romance**

This is not the typical paranormal romance I'm used to reading. Usually the ones I read have plenty of urban fantasy thrown in the mix. But, it was so good I couldn't let it go. The characters are interesting, the romance is heart-warming and the story is quite unique. I really enjoyed this book.

This is a really sweet tale of what can happen when two people let their guards down and take help offered by others. Arthur is a vampire who has been in Torpor, a deep coma-like sleep, for a thousand years. He is not just any vampire, however. He's one of the Initials – part of the first vampire family, and he hates the fact that he is a vampire. He awakens to a world he doesn't understand, and in which almost no one speaks his ancient language.

Annalise is fighting leukemia. During one hospitalization, while getting treatment she couldn't afford, a doctor who happens to also be a vampire offered to hire her to keep his family up-to-date with current trends and society. He offered to pay for her cancer treatment and give her a place to live. She was perfect for his family because her "tainted" blood would not appeal to them. After getting over the initial shock that vampires actually do exist, she took them up on their offer and settled into a nice life. Her one stipulation was that she would not agree to be turned vampire when it was her time to die.

Gregory, Arthur's brother, decides he wants Annalise to become Author's culture teacher. Because Gregory is an Initial, Annalise's adopted family cannot refuse (as much as they would like to). Their only concession was that Annalise would be returned to her family if her health required the care of her doctor/adoptive father. So, Annalise is whisked off to parts unfamiliar to a house with four powerful vampire brothers, and the one she is supposed to help cannot communicate with her. After 3 weeks of Arthur having a language teacher, Annalise is left on her own to teach him about modern society. Good thing he picked up on English quickly! Things begin slowly, but eventually they begin to enjoy each other's company. Unfortunately Annalise's health is failing, so she is on borrowed time.

The growth of Annalise and Arthur's relationship is a slow progression from wariness to trust, from strangers to friends and perhaps something more. Arthur is confused by her refusal to heal herself by becoming a vampire, though, and worries that she'll be gone from his life much too soon. The complicated relationship between Annalise and one of the vampires in her adopted family adds an interesting twist, as well. I really enjoyed this story. Arthur's confusion about modern society felt genuine, and his reactions to situations aren't always appropriate because he just doesn't understand. Annalise's enjoyment of his discomfort is good-natured and fun. My only complaint is that the ending seemed really abrupt. Things were wrapped up really quickly, with help coming from an unexpected source. I liked the rest of the story enough that this didn't deter much from it and I definitely recommend it.

Christmas + vampires + romance + a bit of angst = fun, quirky chick-lit with a HFN! Does exactly what it says on the tin (as the advert goes)

### **Karen says**

This was a very moving story that brought together two people who would seem to have nothing in common. I felt for Annalise from the beginning because she was such a fighter who never let her situation get her down. Her character was so clear from the beginning and once I started reading it was hard to stop. The other

characters were also well defined and easy to know and like as individuals from the first one introduced to the last. The narrative flowed naturally from beginning to end and kept the story moving.

Arthur Bugresson has been asleep for 1000 years while his brothers have been conducting the business of the family. Only Brock, the youngest also went to sleep, and then only for 100 years. His family are Initials, the line from which all vampires have come to be and so he and his brothers are the King and princes of the vampire empire. When Arthur awakens suddenly he will need to be brought up to speed on the modern world and so his brother finds him a cultural tutor.

Annalise had been a popular girl who her friends did not realize was poor and mostly lived on her own when her parents went away on business. When she became ill with leukemia and was unable to pay for her treatment she was saved by an unlikely source, a vampire doctor. The doctor made a deal to treat her and pay her a salary for helping to bring his family into the 21st century. It was working well for them all. Then the King decided to take her away to help with his brother. Was she going to be able to help or would she die.

This was so much better than I had anticipated. I thought it was going to be some drivel about a teenager who is self centered or something. This was a sweet, sentimental, moving story about two people who seem to have nothing in common that find each other even in the face of tragedy. So worth the time!
