# Dirty Professor

*Paige North*

**Dirty Professor** Paige North  
**He wanted to do dirty things to me.**

But it didn't stop there.

He wanted to teach *me* to do dirty things to *him*.

He wanted to teach me how to take a spanking, how to take him in my mouth, how to stay quiet while I was bent over his desk.

He was my professor, so of course I knew it was wrong.

He had a reputation for breaking hearts and leaving destruction in his wake.

But I couldn't resist his demands, his blue eyes, his strong hands roaming my body.

He was too brilliant, too sexy, too demanding.

He was the reason I transferred to Noland, the reason I wanted to be a writer.

And now he's the reason I'm about to lose everything.

**He kisses me again and this time his tongue pushes past my lips, parting them. My body responds to his, and I'm suddenly pliant in his arms, his tongue tangling with mine as his hands move to my hair. He pulls back and looks at me, not asking permission but giving a half smile, like he knows he's going to get what he wants. And then he's kissing me again, our kiss becoming deeper and more passionate, my head spinning with the intensity of it.**

**His hand travels across my back, and around my ribcage. When I feel his fingertips brush across the front of my sweater, I have to fight to hold in the way I want to react. "I can't do this," I say. "It's not... I mean, I don't..."**

**"You can do anything," he whispers. "Anything you want." He kisses my neck. His lips are warm and I shiver. "Sometimes it feels good to be bad, Addison."**

# From Reader Review Dirty Professor for online ebook

## Michelle says

Hmm. So this was okay. I felt like things went from zero to sixty in an instant and that there was just no real time to develop the story before these two ended up in bed. Now this can sometimes work, but the sexy times weren't off the charts – which kept this read at a two star.

I hope that with this student-teacher romance, that a bit of the forbidden and the angst of the situation would really allow the story to be shaped, but it just fell flat and lacked any depth to make me feel anything major for the characters or what came of them.

---

## Italian Princess says

I really enjoyed this book and couldn't put it down once I started reading it. It was a hot sexy read from start to finish. Addison is a good girl who always does what is expected of her by her family. She wants to be a writer but her parents would never accept that. She decides to try and have the best of both worlds and enrolls at a university where her favorite author is a professor. She can get her business degree and hopefully take his writing class. Chase has to write another book to his very successful series but he just isn't enjoying it anymore. He decides to get away from his hectic life in New York and LA and takes a position at a university where he hopes to be able to continue with his writing. Once Addison & Chase come face to face, neither of them can control what happens next. A must read with a HEA ending that will surprise you. I received an ARC in exchange for an honest review and originally posted this in another website on July 30, 2016.

## Megan says

I'm sure I reviewed this.. Mobile GR isn't reliable mixed with my chrome browser on my phone having issues...

This book creeped me out a little. I found it hard to read this. I'm not really sure this is a erotica novel I could say I'm for...

---

## Rachel Johnson says

This was ok. Everything went at a very quick pace. Famous author of a James Bond type character is teaching for a semester at a college so he can have time to work on his latest novel without life and fame bothering him. Enter the cute college girl who wants to be a writer and manages to get into his class. Cue the sexual high jinks. Cue the falling in lust and then in love. Cue the fall out when everyone finds out...

Everything felt predictable and fake. So I guess it was kinda hot, but I didn't enjoy the story so much, so I

couldn't love it. I wasn't a fan of the main character, Chase. The girl, Madison was ok. She was transitioning into an adult, and was struggling with her life. She felt more real.

By the time you get to the end, with its completely unrealistic turn of events, I just didn't care any more. The book feels formulaic and rushed. So it's ok to read, but its not one I will ever read again.

---

## **Tink Magoo is bad at reviews says**

### 2.5 'I'm feeling slightly nauseous from the whiplash' stars

Chase is a well-known author holding some classes at Addison's school, they first meet when she trips and ends up covered in her own lunch. Shortly after that, they have a meeting to discuss whether she gets a place in his writing class. After she fails to get him to take her on she's surprised when he calls her later that night and asks her to come to his house (this all happened by the 10% mark).

From that point, everything in this book is rushed past at warp speed. He asks about her first time, she admits she's a virgin, he plows through her hymen and they start having sex until they get caught.

And while Addison wasn't stupid or especially annoying, she was too easy with Chase. She literally would have licked his shoes if he told her to.

Chase was an asshole who had the potential to be turned into a more loveable version of himself if the author had fleshed this out a bit more.

This follows the typical student/teacher storyline but it lacks any depth or character development. If you like this theme just for the forbidden sex you'll probably enjoy this. If you expect anything past that you'll most likely be disappointed

The sex was mildly hot, so that helped get the rating past a 2. But everything was resolved with a blink of the eye and finished at 43%, which is bloody annoying

---

## **Ofelia says**

A short story about a start of a steamy affair that later turns into a lot more.

---

## **Michelle R says**

I didn't really care for the characters or story line, the H was not likeable at all, I had to skim to finish it towards the end.

---

### **Tara Forrester says**

Meh, it was ok.

---

### **Simone Brandon says**

2 Stars only because I felt gracious

Ugh, not much to say.

Very predictable, not much depth to any of the characters

---

### **Sofia says**

\*Majorly rolling my eyes\*

---

### **Night Reader says**

2 Stars

I figured with the professor-student theme, this would be a good read. Not so much. The writing is rushed, the female lead is basically a doormat (even though the authors tries to have you believe that she isn't), the male lead is a jerk. The writing is rushed.

---

### **Clorie says**

The story is what you'd expect. But what i didn't expect was all the typos. Can we say editor.....

So the characters were not particularly annoying or anything and I like that the heroine grew a backbone. So the story was short and simple with some good steamy scenes. Not sure I need more from this author if she doesn't get an editor/proofreader.

---

### **G. says**

DNF! This was bad!

---

### **Maria11 says**

3 1/2 or 4 I don't know.

I am torn... I really liked it then wham!!!! everything was solved in one chapter. It could have been so much deeper. Every issue that they could have was skated over like no big deal. I wanted to know why Luna did what she did and what were her ramifications. The whole parent thing was like over in part of a chapter. Chase's fallout the same over like a snap of my fingers.

Addison just fell into things and her writing when from just ok to fantastic in like 5 chapters. She really didn't have to work hard.

The whole thing was like kinda to good to be true.

Chase is hot but very selfish. He calls she comes.. literally. He was a huge user at first. Din't really like him that much. Addison forgave him so easily too. YUK should have made him sweat it out she had everything going for her and she should have focused on herself. Oh well...

It was HOT don't get me wrong that part was good, but it could have been so much more. I am a tad disappointed. it needed something... more I guess.

---

### **Jennifer says**

A little better than the previous book in the same genre that I read by Ms. North. This one felt very rushed, but did have a nice epilogue.

---
