Feel Me Cecy Robson

Declan O'Brien was always driven to take his place among Philly's elite, working hard for everything he's earned, including the title of Assistant District Attorney. He's won seemingly impossible cases, so he's furious when he's assigned to lead the one unit he doesn't want.

Melissa Fenske was born hearing impaired to a neglectful mother, finding solace when she was adopted by a young attorney, now Declan's boss. As the current Director of Victim Services, Melissa's livid when Declan is placed in the main unit she oversees. She can't forget their disastrous first encounter. Or shake how he makes her feel.

Declan considers the assignment another step toward his political aspirations, despite that he can't get Melissa out of his mind. Melissa sees Declan as egotistical and self-serving, kicking herself for how fast she's falling for him. Someone as hot, smooth, and perfect as Declan isn't supposed to want her.

In another situation with any other woman, Declan wouldn't hesitate to take Melissa to bed. But she is the boss's daughter, and for once, Declan finds himself wanting more than just a one night stand.

Neither counted on each other. Both just met their match.

♥ WishfulMiss ♥ says

This is the story of . . .

Assistant District Attorney, soon-to-be acting D.A., Declan is an ambitious and career driven man. He cares about two things, his family and his job. After watching his father throw away the love his mother and his siblings, Declan has a skewed view of love. Mainly that he doesn't believe in it. He's your typical commitment-phobe and cynic. His whole life has been about getting ahead, getting promoted and reaching his end goal of one day running for office.

When his boss leaves him in charge of the Sexual Assault and Child Abuse Unit, Declan isn't happy. Not when everyone knows he was gunning for head of Homicide instead. But he respects his mentor's choice and agrees to hold his own temporarily.

The promotion brings him into direct contact with Melissa, his mentor's daughter and a woman he can't stop thinking about. Melissa is hearing impaired and a disastrous first meeting pretty much draws the line of animosity between them. Melissa is the opposite of Declan, having been neglected and abandoned by her biological mother because of her special needs and later adopted by her father, Melissa sees proof every day that love exists.

This is a story of a romantic and a cynic giving in to their sizzling attraction and finding out love is powerful mojo but not without it's own hardships and challenges.

What I liked about it:

That our h wasn't a push over. Melissa was a strong character, yes she has her insecurities but she also has an all-consuming passion to help others, her 100% devotion to her father, and her selflessness to be needed all made her a heroine you want to root for.

Declan on the other hand took some getting used to. He doesn't beat around the bush when it comes to realizing what he feels for Melissa is special because right from the start he admits she makes him feel things no one ever has. What takes him a while to get around to is his desire to take that next step into a committed relationship. His hot/cold behavior and that whole Thanksgiving scene was painful to read. The only saving grace to that scene was the backbone Melissa displays. She calls him out on it and gives him the chance to finally dig his head out of the sand about where they stand.

There were great supporting characters here but the most prominent were Declan's family, the O'Briens. They were loud, crude and foul mouthed but I loved their genuine love for family. Wren, Fin, and Curran were definitely interesting characters.

What I loved about it:

The freaking epilogue was so sweet! Seriously a good story can be made great with the right epilogue and this was a nice touch by the author to reassure us that Declan and Melissa are still in love and still going strong. I loved that ending.

Memorable Moments:

Besides the adorable epilogue, I have to be honest and say that Melissa and Declan together were explosive.

Seriously that limo ride was just one of many titillating scenes. Don't be surprised if you find yourself re-reading a few passages. ?

SAFETY

Ages: We know Declan is 35 but Melissa never mentions her own age but I'd put her in the same age range as Declan.

Cheating: None

OM/OW drama: Minor OM/OW drama. (view spoiler)

Separation: One long separation of a month and a shorter separation towards the end of a week. Both remained celibate while apart.

Push/Pull Mostly from Declan because of his relationship hang-ups but Melissa pulls away at one point too.

Main Pursuer of relationship: Declan is the main pursuer of the relationship. Both times they separate he is also the one to go after her. Normally if there is going to be push and pull I want them both to equally fight for each other but I felt that Declan's actions warranted him having to prioritize and put Melissa first.

Triggers: As mentioned before, both Declan and Melissa work with victims of abuse. Mention of sexual assault and molestation against minors, death of a child and parent neglect is mentioned.

HEA/HFN: Ends with a HEA and acute baby epilogue.

Happy Book Birthday

An emotional story that hooked me from the start and I couldn't put it down until the very sweet end.

As one of the oldest of seven siblings, Declan always saw himself as one of his family's providers and protectors, driven to succeed in public office first as District Attorney and perhaps mayor to obtain the power to safeguard his family and the people of his city. He's worked hard to get his A.D.A. tittle and is less than happy when his boss moves him to lead the unit no one wants, especially knowing he'll have to interact on a daily basis with the boss's daughter. The only woman who hates his guts and who he can't stop fantasizing about.

"This isn't lust. Lust is too damn easy. This is different. Who am I kidding? Everything I feel for Melissa is different, including the way I want to kiss her... and do a hell of a lot more."

Born with severe hearing loss and to a careless mother, Melissa Fenske's early childhood seemed more than bleak, but turned completely around when she was rescued and adopted by the current D.A. whose health issues have forced him to place Declan in the same unit with his daughter. Melissa isn't blind and can clearly see how much the gorgeous attorney affects the female population including herself, Good thing she can't stand his arrogance and selfishness. Can she keep a safe distance from the smart, resource and kind man she's getting to know?

“It’s a good heart, strong and honest, but tender when it need to be just like its owner.”
“You’re giving me too much credit,” I tell her.

It was so fun to see how the sexy, self-assured Declan kept putting his foot in his mouth whenever he was around Melissa until he didn’t and then flat out started pursuing her despite his abhorrence to relationships lasting longer than a night, a shortcoming that will eventually cost him. Melissa is an easy character to like and respect. She’s driven, sweet, nurturing, she wholeheartedly cares about the people she helps, she’s confident, yet imperfect because of reasonable insecurities. Oh and did I mention she loves to read smutty historical novels? And Declan indulges her!! Absolutely delicious and fun!

I was all for Declan’s charm and alpha sexiness, as a whole tough, he’s not easy to like. But I found myself cheering for them along with the loud, unfiltered and rowdy O’Brien family who I loved to catch up with, as Declan and Melissa’s relationship grew and they began to fill each other’s lives sweetly, sexily and completely. They balanced each other perfectly.

“All this darkness I deal with every time I sit at my desk would be impossible to push through without Mel. In the few weeks we’ve worked together, she’s become my salvation.”

“This is my favorite side of him, the one who teases and plays, and proves there’s more to this man than ambition.”

Except for the ending which felt a bit rushed but I attribute this to me wanting more, the story flowed effortlessly, the characters were well developed and the plot, which dealt with sad and dreadful matters such as abuse, was well executed and handled with respect.

Feel Me is book #4 in the O’Brien Family series by Cecy Robson. It is a standalone contemporary romance. Told from both points of view with a happy ending.

Ever since their disastrous first encounter, Melissa and Declan have sparked my curiosity. I was thoroughly entertained by the pair, especially as Declan continued to put his foot in his mouth lol Melissa is my kind of heroine. She is stable and confident in who she is but has understandable fears and insecurities like the rest of us. Declan was a strong lead, persistent and sexy as hell to boot. He has a good heart but it might take a

second look to notice the subtleties. While I admit that Declan was not my favorite towards the end of the book due to some of his actions, he still showed growth and was developed well.

Ms. Robson has a talent for weaving tales that continue to impress. She creates these unique and complex characters that are in no way perfect but that manage to claim their own little space in my heart. The writing and editing is excellent. The pacing, imagery, and plotting strong and executed well. The book evokes emotion and has some humor. The sexy is off the scale :-p With this writer you get the full package.

Safety: No others for either, though interest by others is evident. Yes to rape and abuse.

Excellent book! I so enjoyed reading this one. I really like how the main character isn't perfect and how they don't have the perfect relationship but find ways to make it work. I also loved the family interactions in this series. Family series are awesome. I love getting to know all the members.

Cecy Robson is a great author and writes awesome books. If your looking for a new read try out this series. Thanks NetGalley for the ARC in exchange for my honest review.

Feel Me was such a good read.

The storyline was well written, the plot was emotional, heartfelt and held my interest all throughout the book.

The main characters Declan and Melissa were strong, likable characters that I easily connected with, they captured my heart with their story.

I loved watching their relationship unfold, they had a strong attraction but every time they found themselves in the same room Declan would somehow say something to offend/annoy Melissa and they'd end up arguing and hurting each other. Declan just couldn't help himself lol

These two made me laugh, they made me swoon, Declan frustrated me one more than one occasion but never once did I think they didn't belong together.

Declan was convinced love and a happily ever after wasn't on the cards for him but the more time he got to spend with Melissa the more he fell in love with her, suddenly life without this beautiful, passionate woman was not the life he wanted.

These two truly belonged together.

Thank you Cecy Robson for writing Declan's story, he truly met his match in Melissa <3

Mon avis en Français

My English review

I love Cecy Robson and this series, like all the others, is always a treat to follow! I'm a little late but I was excited to get into Feel Me, the fourth volume of the saga.

We discover Melissa, a deaf young woman who really did not have an easy childhood and is now working with her adoptive father in the department of victims of abuse, mainly for women and children. But then, things will change when one day her father, sick, decides to retire and leave his place to Declan O'Brien. To say that Declan is not happy with this new assignment is saying a lot, especially as he wanted to be in the homicide department. But that is still a promotion and he hopes to evolve very quickly in this job.

The feelings between Declan and Melissa are quite difficult ... Declan has always collected relationships but her new collaborator is different. It is difficult but sometimes touching to see them hesitate, to try without knowing what will happen. It is true that I really wanted to shake Declan so that he realizes the effect of his actions but it is also what will make him evolve and realize what he is doing exactly. Melissa is really sweet and her work with these women or children is really touching and especially important for her. She is a very strong person and despite everything that happens in her entourage, she tries to do everything she can to help others.

Our two heroes are going to have to deal with matters that you suspect will not be simple and I confess that I did not expect such turns of events. In short, once again the author has succeeded in taking me completely into her narrative and I can only advise you to try the books!

4.5 stars.

This series has come with highs and lows for me, but throughout, one thing has been constant: I've been eagerly awaiting Declan O'Brien's arrival.

In the previous books we've seen poor old Declan put his foot firmly in his mouth with the D.A's daughter, Melissa but when they're forced to work together--her as Director of Victim Services and he as the not entirely willing leading attorney of that unit--then their whole *relationship* is taken to another level.

"We work together. This can't possibly end well."

Mel and Declan are two peas in a pod: strong and driven, they each have a stubborn side yet also one of vulnerability, but when they let themselves go a little you begin to discover that underneath their armour is a softness, and in each other they truly have met their matches.

"With Mel...I'm in a whole different playing field."

Cecy Robson packs an emotional punch with this story and, taking it down an unpredictable path, *Feel Me* worked hugely for me. But, for all the moments that pull on your heartstrings, there are those that lift it, courtesy of the loud, loveable and rapidly extending O'Brien clan who are hilarious and without a filter. There is one single brother left, Seamus--whether he's to get his story I don't know, but if not, Declan and Mel have ended the series on a real high for me.

4 When Ambition Can Blind You Stars

****** Spoiler Free***

Throughout the O'Brien Family series, we always had Declan as the One who was going to make a name for himself... the One who had all his plans laid out. All Declan needed to do was stay the course, keep being successful with his prosecutions and the DA's office would be his start up the political ladder.

The family knew this was his destiny and so far he was on target. However, all this ambition and drive came with a price. When he saw what his father's behavior did to his mother, he decided then and there, his brothers and sister were going to be cared for...He may not have started working like his older brother to help support them but he did provide additional hands in looking after them and helping Ma. He was the strict one, guiding them and watching out for them. The family knew he was the one who needed to be in school and fulfill his dreams, so the kids obeyed and listened.

Over the years, Declan has seen many changes in his brothers... they are happier with the addition of the women they love. He looks at these siblings and sees the joy they have just being together with the ones they love. It makes him sad, though, because Declan doesn't believe in Love... at least not for him... He believes his life's work has no room for that and has made peace with it.

Now that does not mean Declan is living the life of a Monk...Not in any way...Declan is buff, handsome and charming. He knows how to flirt and does it oh, so well. He will enjoy the lithe, model types who love to give him their numbers. He makes a practice of only a "date" or two, then on to the next.

There is one person who has caught his eye and every time he comes in contact with her, his charming ways do not work. Instead he comes across like a real jerk. It is truly annoying because it just turns out this beautiful woman who has gotten under his skin, and not in a good way, is the daughter of the current DA.

Melissa Fenske would agree; Declan O'Brien is a jerk. He is arrogant, has legions of women wanting to bed him and he smiles at every single one of them. Working with this man is going to be extremely annoying but her father is not well and placed Declan as the acting DA while he is away on medical leave. Melissa is in charge of the Special Victims Advocacy Group. It is a hard unit to work. Seeing day after day, abused women or sexually assaulted kids causes major burnout with attorneys. This is not where Declan thought he was going to be when moving to a new division... he thought it would be his dream, Homicide.

So here we have Declan in a position that was not on his ambitious mapped out plan... and then there's Melissa who will have to show him the ropes of how to deal with these difficult cases. Couple all of that with the chemistry these two have and the fight to not cross any lines.

Melissa is a woman who can hold her own and is strong. What she had to live through to become this strong was not easy. She was born hearing impaired to a mother who was a drug addict. When Melissa was 6, the mother tried to sell her to a man for drugs. Melissa escaped but was almost put into foster care...Instead the attorney handling her case fell hard for this little broken girl and adopted her. Once she learned to trust her new dad, the two of them bonded and were devoted to each other. School was not easy for Melissa; kids were cruel. But she was smart and rose above the pain becoming a victims advocate.

Melissa and Declan fight their feelings for each other until they cannot. Their times together are sexy and can be very loving. Melissa is a character to admire and root for...and we do.

Declan was a bit more difficult. He was cocky, sure of his sex appeal. He sometimes came across a little too sure of himself...We did get his back story and insight as to why he thought the way he did but I found his situation harder to care about than most of the other siblings from past books. He did redeem himself in the end...and that is always important. We also got delicious slices of the other O'Brien's in this tale which always makes my day.

With a family of 7...we still have two other brothers to learn about...so I will be looking for more with this Family.

Book Review For: Feel Me by Cecy Robson 'Feel Me' by Cecy Robson is book is book Four in the 'O'Brien Family" series. This is the story of Declan O'Brien and Melissa Fenske. I have not yet read the other books in this series so for me this was a standalone series. Melissa was cut a bad deal early on in life. Besides having hearing issues she was gonna be sold by her mother for drug money. But Melissa was a fighter and got away..that is when she met her now adopted father Miles. Miles gave her love and she learned to communicate better.. so he is her rock. Now in the present day we find that he has cancer and will be stepping down at his position as the District Attorney. Her father has Declan in mind to fill his position, which upsets Melissa. Melissa finds Declan to be arrogant and knows that he wants to be the Head of Homicide and not The Sexual Assault And Child Abuse unit. Her dad tells her that since she is the Head of Victim services she can work with him to better understand the job. But she now knows her Dad is sick and settles do what he ask, even if it means working with Declan. Declan is upset that he is being moved to The Sexual Assault And Child Abuse unit but once he learns that Miles is stepping down do to his health issue he goes forward with the position if it is temporary. Melissa and Declan have been attracted to each other for awhile but since they both don't act on it. Declan doesn't believe in Love and doesn't do relationships. Melissa has a preconception about Declan that she quickly learns isn't how he is...but is he a forever kind of guy?This is my first book by this author and I find that I want to read this whole series...along with any other books she has written! ## Sarah says

**Feel Me** is the latest release in **Cecy Robson's** O'Brien Family series and I've been I've been looking forward to Declan and Melissa's book ever since we saw their first meeting. I love the way confident Declan, the man who can charm any woman he comes into contact with, constantly puts his foot in his mouth around Melissa. He's the kind of guy that has women falling all over him but when it comes to Melissa he gets so flustered and makes all the wrong moves and it was just so funny to see him wrong footed all the time.

Declan is one of the oldest O'Briens and after the death of his father he was determined to do whatever he could to look after his mother and younger siblings. He has put everything into his career to achieve that goal and is now one of the youngest Assistant District Attorneys in Philly, his goals don't end there though and he continues to focus on his goal of eventually becoming mayor. Declan doesn't believe in love, he saw the way his father treated his mother and is convinced that relationships aren't worth the effort so he's very careful never to get involved with anyone who wants more than a couple of nights of fun. The latest step in his career ladder puts him in charge of the department Melissa works for, the attraction he feels for her is intense but there is no way he'd ever get involved with anyone he works with, especially not his boss's daughter.

Melissa is the head of Victim Services, it's her job to give a voice to people who need it most and her background means she is uniquely qualified for the role. Born hearing impaired to a drug addicted mother Melissa didn't get the best start in life but everything changed for her when she was adopted by Miles Fenske, the current District Attorney and Declan's boss. Her previous interactions with Declan haven't left a good impression and she has concerns about his ability to interact with vulnerable women and children she works with every day. Declan may not have made a good first impression but it doesn't take long for Melissa to realise that she was wrong about him and to discover how well they work together. Close proximity increases the attraction between them but Melissa would be crazy to risk a relationship with a man who doesn't believe in love. Wouldn't she?

I loved both of these characters and Melissa was fantastic, she's confident in her abilities and doesn't let her hearing impairment hamper her in any way. She has fears and insecurities like any woman but overall she sees what she wants and she goes after it. It was great to read about a heroine with a disability where her hearing impairment is just a part of her character and not something she was defined by, of course it effected her day to day life but it was never made into a big deal or a source of conflict in the story. Declan was the right mix of cocky alpha male with a vulnerable side. The way he kept getting things wrong around Melissa made him easier to relate to and stopped him from being too full of himself. I enjoyed the banter between him and his siblings and the way they all teased him about his growing feelings for Melissa, it was fun to catch up with the others and see how they're all getting on with their lives.

**Feel Me** is another brilliant instalment to the series and I'm looking forward to seeing the remaining brothers get their own happily ever after.

## **Christy LoveOfBooks says**

I've waited for this book since I met Declan and Melissa in the first one. Cecy finally put me out of my misery and gave me what I wanted. I'm pretty meh about romance lately, but *Feel Me* gave me all the feels.

Declan is on the rise. He's an Assistant D.A. who takes his career serious and has high aspirations. Not to mention the man is muy caliente! He has no problem with the ladies, except when it comes to Melissa. They didn't exactly start out on the right foot and he tends to muddle it up whenever he sees her. It's quite entertaining. Lucky for him he gets the opportunity to get things right when they wind up working together.

The thing is, Melissa is deaf. This is a huge reason I wanted to read *Feel Me*. It's rare that we get a hearing impaired heroine, so I was eager to get to know Melissa. She's dealt with adversity, but has come out on top. I really like her fire and drive, especially when it comes to protecting the sexual assault victims she works with.

Declan and Melissa are a great fit. They have wonderful chemistry in and out of the office. I love that she isn't timid or become someone else around him. She has no qualms about calling him out on any bullshit. They have their rough moments, but thankfully the angst is just right.

And of course, there's the whole O'Brien family! I love when they're all together being loud and giving each other crap.

I do have to say that I could do with a little less commentary about Declan's good looks and how everyone reacts to him. It gets a bit tiresome.

Overall, though, I really enjoyed *Feel Me*. I just can't go wrong with Cecy's books.

4 Shepherd Dog Stars.

Office romances don't always work for me. *Feel Me* did. I am a happy bunny.

Declan O'Brien appointed A.D.A is smooth, women love him and he loves women. But there is one woman who doesn't fall for his charms. The less she falls the more he wants her.

I didn't always like our male lead in this book but he grew on me and in the end I was rooting for me. He did try to make up in the grovel department but not enough for me to be honest.

Melissa Fenske doesn't like Declan she thinks that he is unsuitable for the job and maybe in the beginning he is.

Melissa is a fantastic female lead I love books where either one of the main characters has a disability. Melissa is hearing impaired add a tough start to life and as a character I admire her.

Declan wants it all. D.A for Homicide not SACU. Mayor and even Senator. There is a spanner in his works. He wants Melissa but he is a slight commitment-phobe. And eventually he screws it up.

Feel Me left me raw, emotionally drained and a mess yet despite all that, the sap in me always loves to see that love really can conquer all.

Our MC as a couple complement one another. Ms. Robson has a unique writing style that pulls you into the loud, boisterous in your business Catholic family. I personally love every single moment of their antics. In saying that though Wren is MY favorite O'Brien. Major girl crush going on here.

Although we get an Epilogue the ending and our couple making up felt somewhat abrupt.

On a side matter note the author did a fantastic job of being tasteful and respectful and what the survivors of such hideous crimes go through.

When I read Wren's book 3 I said I'd backtrack and read 1 & 2 but I never did. I have now bought book 1 to read.

*Neither counted on each other. Both just met their match. .... ALL THE YESes!*

**Declan O'Brien** is a driven man. He's driven by passion for success. That is all he has time for in life. Romantic entanglements get in the way of his path. His path to do better. Be better. Always striving. And then **Melissa Fenske** happened ...

If you've read this series from the beginning (which you absolutely do not have to to understand Declan or his family but you should because, awesome) then you've met Declan and you know exactly what I mean by driven. Every move he makes in his career is for the sole purpose of some day having a political career. When the opportunity arises for him to step in as acting District Attorney, he is ALL about it ... until he finds out it is not in the division he was hoping for and until he finds out he'll be working closely with the woman who stirs things up for him he'd rather not be stirred :)

I found Declan and Melissa very passionate. Declan is a major case of alpha arrogance and Melissa is an independent, strong-willed woman. Put them both together and you have fireworks! They are two sides of the same coin. They fit perfectly. They were to each other exactly what each needed. Their story was truly full of heart. I loved every second of it.

I'm looking forward to reading the journeys of the rest of the O'Brien siblings!

I really enjoyed this book. Melissa is hearing impaired and had a traumatic event happen in her childhood. As an adult, she fights for victims rights. Declan is the acting DA and has to work on some cases with Melissa. There are some really good steamy scenes and this couple has fantastic chemistry. A little more angsty than I was prepared for but overall a really good book!
