## **Got Mine** Nicole Loufas

When his precocious daughter is accepted into a hipster private school - Theodore Sway sacrifices his ego, his morals, and his body hair so Lulu isn't damned to a life of ramen noodles and broken dreams.

Theo takes a job at Trance; the city's only women's club, and soon becomes its star attraction. That still isn't enough to pay his daughter's tuition and the ever-rising cost of his San Francisco neighborhood. With the help of Rico, a fellow entertainer and part-time pimp; Theo earns extra cash through a series of hilarious side jobs.

Soon, Theo's sexy stage persona becomes a liability and threatens his role as the world's okayest dad.

# From Reader Review Got Mine for online ebook

## Chelsey Sagaribay says

Nicole has outdone herself again!! Got Mine brings us into a universe that is little known, but enjoyed by plenty. The main character Theo is so beyond heartwarming and is what every dad should strive to be: dedicated. His determination to succeed is beyond unyielding. He's even willing to humiliate himself just to give his daughter the future he never had. Theo's personal story of the struggle to survive is inspiring. When you're given a glimpse into Sway's world, you can't stop laughing at all the ludicrous jobs he has to endure. Alongside his co-workers, who quickly become friends, this book will continually make you laugh-out-loud at some of the most inappropriate of times.

I cannot wait to see what the rest of the series has in store for us and I'm hoping to see some more of Sway in the future!

\*I received an ARC of Got Mine in exchange for an honest review\*

---

## Heather Swan says

Got Mine is unlike any other book I have read before. It was a single dad who is just trying to do what he can to make ends meet for him and his daughter. This book doesn't sugar coat things and I love that. He admits that he has run out of diapers, just real struggles. The baby's mom comes back, so you also see that struggle.

I loved this book. Usually it is the female having the struggles, very rarely do you read about the male struggling. It just felt like real life. I can't wait to read the next book.

---

## Isaiah says

I got an ARC in return for an honest review on NetGalley.

Can we start on that cover. If that hunk is supposed to be Sway, no wonder all the ladies are going nuts for him. The detail of having the tattoo with his daughter's name on his forearm, the look that matches what he is described as wearing, and it isn't him on stage. There is much to love about the cover which is the reason I looked into the book in the first place. I like the bad boy looking good boy. Theo is very much that. He is the perfect dad in every way.

The plot is not a difficult one to follow, but I hadn't guessed the twists near the end, which when it comes to romance novels is very rare. The twist made my heart soar and I was very impressed with the HEA of this one. I may not have rooted for the couple that is presented as that never really sparked my interest, but I rooted hardcore for the family. I wanted their family unit to be strong and secure. I am a total sucker for a family HEA. This author can play with my heartstrings any day she wants. I will be looking into the rest of this series (did I mention the other hunks will be getting their own books?).

This book series has the potential to be the better written and less supernatural version of The Black Dagger Brotherhood series. That is a series that I literally read over a dozen books for even when they went

downhill. I feel like Loufas will be able to pull off this series more gracefully and instead of getting annoyed with the characters and the betrayals, I will live for them.

### **Chanda Norman says**

If you are looking for something different to read give this delightful book a try. Theo (Sway) is a young father that turns to being a male dancer to support his daughter. This well written book was so original in the way the author made the reader feel what it was like to be in this profession and what goes on behind the scenes. I like the way Theo and Sylvie his girlfriend's relationship developed into the family they both wanted and the HEA they both deserved.

This is a page turner, with plenty of twists and turns to keep you entertained. I am looking forward to reading the next book in the Trance series.

I voluntarily reviewed an advance reader copy provided by Xpresso Book Tours / NetGalley.

### **?Dani? ?Touch My Spine Book Reviews? says**

This was a super cute and fun book!?? I really enjoyed the characters and the premise of this sweet and fun novel! If you are looking for something fun and different, look no further! This is a book that shouldn't be missed!

---

### **Tina ( As Told By Tina ) says**

DNF at 25%

I just can't get into this. It's not grabbing my attention and I just don't care to finish it. I may come back to this at another time but at this time I'm not interested.

---

### **Denise says**

Got Mine is a sexy and funny novel.

Nicole has become one of my favorite authors and I have to say I really enjoyed this book. I couldn't put it down, I had to know what was going to happen next with Theo and his sexcapades.

I love the relationship between Theo and Lulu. No matter the challenges thrown at him, he has one goal to provide a good life for Lulu.

"Fatherhood has been a learn-as-you go experience for me but tonight I'm going full Mike Brady. Minus the

suit and tie. Minus clothes period. If there is one thing television has taught me; it's this: Good fathers make sacrifices." -Theo Sway

I can't wait to see what Nicole has up her sleeve for the other men of Trance!

## **Blue says**

SPOILERS, and sadly, unpopular opinion.

The style of writing itself isn't bad, it's the storyline that missed by a mile for me. This started out well enough, but by 30% it still wasn't clear who the love interest was going to be and I felt the story lagging and meandering. By 50%, it's all over the place, one minute she's his friend and the next he claims he wants a life with only her, doesn't love her but asks her to move in, has sex with her to keep her from being insecure while he's leaving for a 'job'. Then suddenly he loves her. Their relationship, at any point wasn't fleshed out or understandable to me. The sex and dance scenes felt very clinical rather than sexy. After the 60% mark it just fell into melodrama and I skimmed to finish. The new job, ugh, I cringed, just didn't make any sense to me at all. Then the whole son's father thing, just made me angry actually. It was supposed to be sort of funny, I didn't find it funny at all, maybe a few moments in the beginning while he was talking about being a father, which is what hooked me as I found it endearing. After previewing this one, I had high hopes. Sadly this just didn't measure up for me at all.

## **Samantha Vickery says**

I love her characters. How could you not fall in love with Sway???? Well written story, great romance, lots of fun and even some teasing. I'm excited that these boys will be a series.

---

## **Jen Zingaro says**

This book was different from any of the ones that I've read in a long time. Imagine Magic Mike meets Mr. Mom. Theo is a single dad of Lulu who is doing his best to support his daughter whom he wants to enroll in a private school. His options are limited so he takes a job at a strip club with one of his friends. He finds himself in some compromising situations along the way. And when Lulu's mom resurfaces, a lot more drama arises. I was fascinated by the story. Makes you think about the choices people have to make to get by and the toll that a job like that takes on a normal relationship. The characters are so amazing and there was so much plot to grab onto. Really enjoyed every minute of reading this.... in fact had it done in one day!

---

## **Nicole Loufas says**

I can give myself 5 stars, right?

---

## **Lucy says**

Whoa. This book hit every mark.

It's a great twist on a classic plot. The role reversal was genius! A single dad that becomes a stripper to support his young daughter after his girlfriend joins the army. Every part of this story works.

The struggle is believable. The characters were loveable. The plot was masterfully written.

Easiest 5-stars I've given all summer.

And this is just the beginning. I can't wait to read the next installment in the Men of Trance series.

---

## **Lucinda Fey says**

Another great book by this author.

Got Mine deviates from her previous style, imo. And I love it!

Sexy, funny, so entertaining. I enjoyed this book so much, I read it twice!

I look forward to the next installment of the Men of Trance series!

Please don't make us wait too long!!!

---

## **Bridget says**

Hello men of Trance! I loved book one in this new series. You will quickly fall in love with Theo aka Sway. Theo is a single dad that would do absolutely anything for his adorable daughter, Lulu, including taking a job that is less than ideal. I enjoyed meeting each one of the men of Trance and can't wait to learn more about each of their stories. This book was funny, sexy and sweet. I love Nicole's writing and could not put this one down!

## **Diana Laura (The Bookish Sisters) says**

Full review here: <http://www.thebookishsisters.com/revi...>

Oh, man. I got to say that when I started reading this book forever ago—more like yesterday morning—I really, really didn't think I would end up liking it. But the more I read, the more I started appreciating its beauty.

Got Mine is definitely one of those books you need to keep reading to eventually be able to see the amazingness inside it, just like a diamond in the rough.

This book surprised the heck out of me. Nicole Loufas sure does her best to improve every single time she writes another book.

Got Mine is a very unique story and I honestly don't think you'll be able to find a story like this one anywhere else. It is a story that will slowly make its way inside your heart. It will make you crave for more and more until there are no more pages left.
